We have met a lot of friends who are interested in Australia on this show.We are fully confident and expecting to open branches and enter the East China market in the near future.This exhibition is extremely successful.The organisers of this exhibition have to be commended as it is amazing.

The OPI Expo is a unique platform for international companies seeking to enter the Chinese market. Our properties have been endorsed by many Chinese property buyers, providing us with a huge range of business opportunities.We would like to thank the organizer for helping us make our participation in the show a very successful one.

Thanks to the OPI show we were able to present our wide range of immigration services to a large crowd of seriously interested Chinese property buyers.Meanwhile,we also held a successful press conference and we remained very satisfied with the promotion made through this event.

We have participated in the Overseas Property Immigration Investment Fair for the past 3 years. This is the best exhibition we have ever participated within China.Compared to other events we have attended,the quality of customer with strong goals is very apparent here.We are willing to reach a long-term strategic co-operation with the organisers in 2016.

DTZ

Over the past couple of years OPI expo has been evolving into a really fully-grown and interesting investment fair.It has become crucial in the international strategy of the American real estate industry.
