ROBOWARS

Robowars, a final day event conducted by the club, has been the sole provider of such a daunting prospect which entails man machine union to suffice raw combat jargon to entice everyone into its grips.

electro TEKKEN

Have you ever imagined playing fight games as if you are actually playing at the virtual arena?

Robotics Club presents an all new and different concept of VIRTUAL GAMING !!

E-ART

The beauty of artistry created using electronic components. Portray a theme based art to exhibit your innovative mind.

ONLINE EVENTS

Various online events such as Question For The Day, Tagline Contest and Logo Design are organised on the official page of The Robotics Club.

BOMB DIFFUSION

Get ready to be plunged into a web of intricate circuits, mind boggling logics and be a part of this electrifying odyssey to realise what separates you from the rest.

LASER STRIKE

The battlefield brought to life. Two teams battle for control using sensor kits and laser kits. Bring your team along for a fight of control over the arena where each member of your team fights to eliminate members of the opposing team.
