

MADAN MOHAN MALAVIYA UNIVERSITY OF TECHNOLOGY, GORAKHPUR

# ROBOTICS CLUB

presents

# ROBOMANIA'17

- "Transform your ideas into reality"

*Celebrating 10 Glorious years of Robotics Club*

3,4,5 March 2k17

National Level  
Robotics Symposium

# ABOUT US...

Established in 1962 and counted among the best institutes of its kind, Madan Mohan Malaviya University of Technology has successfully dispatched 54 splendid years with charismatic batches emerging every year subsequently instructed by the finest faculties.

Robotics Club provides an opportunity for students to supplement their education with hands-on experience in integration engineering. From the past 10 years we engage our students with active participation in various workshops, contests and tutorials to develop their interest in Robotics. Activities of the club are all pre-planned and run smoothly. There are a lot of examples of routine, middle-skilled jobs that involve relatively structured tasks, and those are the jobs being eliminated the fastest. Those kinds of jobs are easier for our friends in the artificial intelligence community to design robots to handle them.

The club carries forward its vision and ideas by continuously creating hotspots where pool of technical knowledge meets via workshops and an annually organized event ROBOMANIA where the club members present events to the students which require plethora of practical implementation of concepts.

# PROPOSAL...

ROBOTICS CLUB has planned several events this year which would see the participation of large number of students. On one side there would be our budding technocrats that would puzzle out various issues with the flimsiest dilemma while on the other hand there would be literary experts casting their spells through the contest.

The events would honour meritorious students with attractive prizes. Henceforth due to the growing scale gigantic proportions of the ROBOTICS CLUB, it is imperative to pursue funds from other sources.

We there by put forth the “Proposal of Sponsorship” of the event of your kind perusal. Associating with the events would prove mutually beneficial for us.

## REFLEX

Lots have been said in the past, lots have been achieved; what's the point in knowing them all, if you can't corroborate? Battles of brainpower have a unique characteristic of making even the best of them all sweat it out. Can you beat the very best? Does it have it in you to bag the bragging rights? Let the paper be your kingdom and you be the ruler. Check your proficiency in quant and general knowledge. Welcome knowledge with open hands and check your ability through our invincible event called "Reflex" which will boost your mind with enthusiasm, thrill and zeal.

## TURING

Wake up the cryptanalyst sleeping inside, for the world is in trouble and the only weapon to fight this enemy, your mind. have a test of your observational and searching skills and keep moving forward to crack subsequent denser grids. An experience unlike any other. cross the maze and reach your destination the final frontier.

## SHERLOCKED

A mystery is waiting to be revealed. Step into the shoes of holmes and play detective if you may indulge in this one of its kind puzzle solving jargon and break into the final quest for answer to unwind hidden secrets and solve the mystery Mr. Sherlock

# ELECTRO NFS

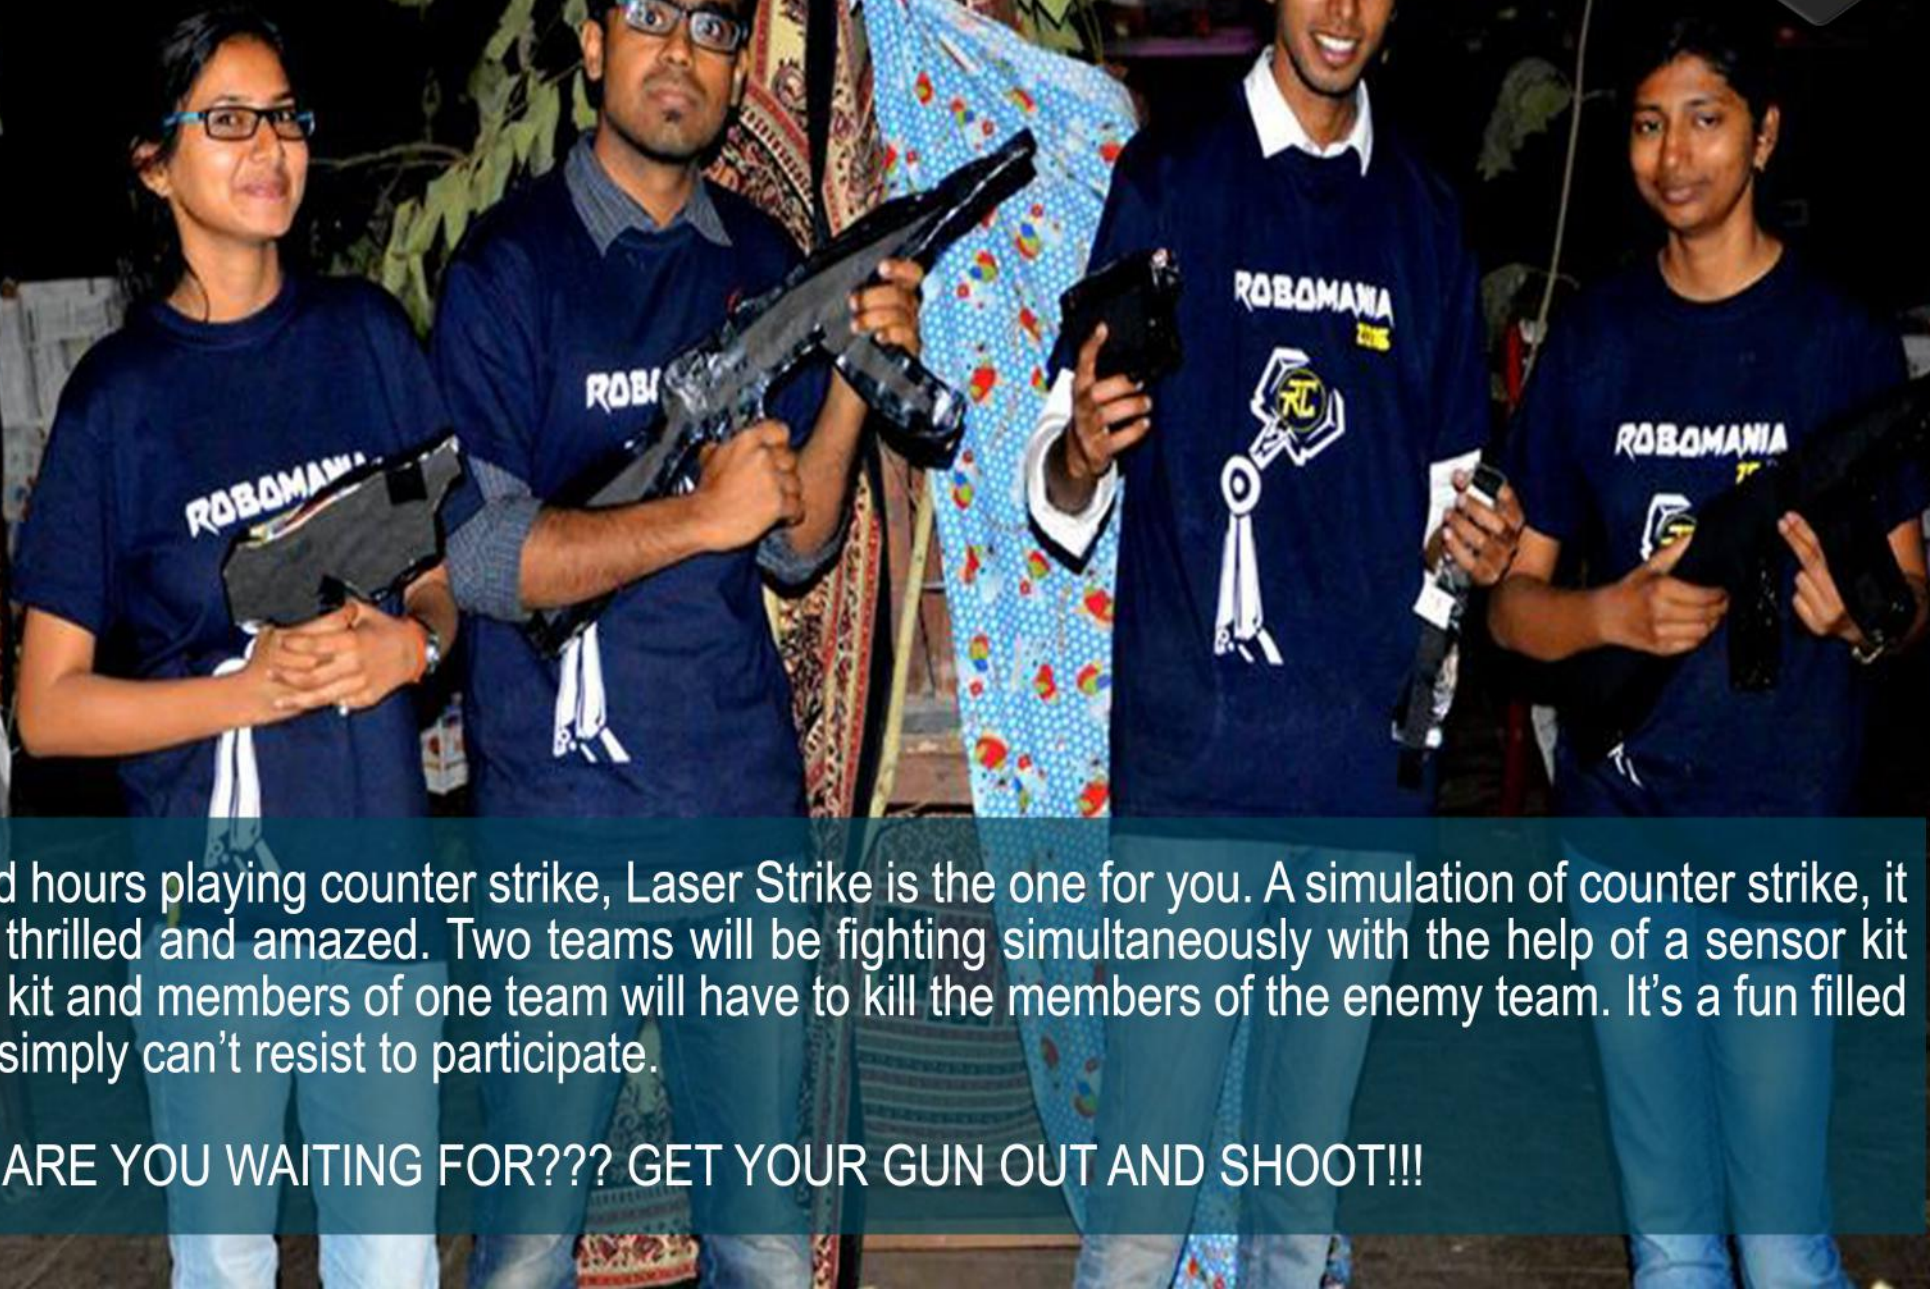

Need for speed brought to life...!! get ready to experience a more thrilling ,more exciting, larger than life gaming with the club's newly introduced event NFS, gripping you more and more with its magnanimous setup both literally and metaphorically! thrust your control skills at the steering and race your opponent to the finish for a win...!!

# LASER STRIKE

If you spend hours playing counter strike, Laser Strike is the one for you. A simulation of counter strike, it leaves you thrilled and amazed. Two teams will be fighting simultaneously with the help of a sensor kit and a laser kit and members of one team will have to kill the members of the enemy team. It's a fun filled event, one simply can't resist to participate.

**SO WHAT ARE YOU WAITING FOR??? GET YOUR GUN OUT AND SHOOT!!!**

# BOMB DIFFUSION

The clock is ticking; time is running out; tumble through the laser grid, trip and you end your game and face the challenge which filters you from the rest. now it is time to find the bomb and even if you break the code; cut the wrong wire and the siren goes off OR you emerge a saviour.

Testing your knowledge of electronic circuit and their implementation, we take you through a quiz first, electronic component identification and finally circuit implementation. It is all about building and electronic circuit based on the circuitry design

# ELECTRONIC CHESS

Such a game decoys played with endeavour and interest. Get ready to fight with the opponent. Let's change the doomsday scenario about the people losing interest in chess. We welcome you with one of the most popular events, i.e. Electronic Chess, so let's comfort the human creativity which was more paramount. Track the path through the glowing LED's to beat your opponent. Let be the czar of the black and white battlefield.

This is something different. You have to show your drawing skill with the help of electronic components. And make some attractive stuff to win and show your creativity.

ELECTRONIC ART

# INFORMALS

Attracting huge participation and tremendous enthusiasm like the previous times, this time too the club comes with more exciting events. Get some nice snaps with your friends at photobooth..! challenge your friends and create memories to last a lifetime. last but not the least, perform tasks and earn awards and exciting gift hampers...!!

# WORKSHOPS

A large group of students, mostly young women, are seated in a lecture hall, attentively listening to a presentation. The room has white walls, several windows with red curtains, and ceiling fans. A projector is visible on the ceiling. The students are dressed in casual to semi-formal attire. The text is overlaid on a semi-transparent grey box in the center of the image.

Now, It's time to learn web development. Robotics Club organises web development classes for students to brush up their skills. Web development classes includes the knowledge of HTML , CSS , JAVA SCRIPT ,PHP etc.

Robotics club organises embedded classes for students. Embedded system, is a computer system with a delicate functionality. It is embedded as a part of complete device often including hardware and software.

Modern embedded system are often based on microcontroller. Embedded system range from portable devices such as MP3 player to hybrid automobiles.

# SPONSORSHIP SLABS...

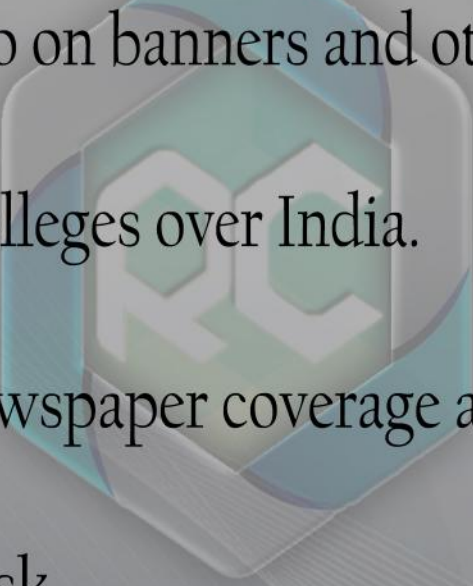

SL.NO.	BENEFITS	TITLE SPONSOR (Rs. 75,000)	PLATINUM SPONSOR (Rs. 50,000)	GOLD SPONSOR (Rs. 35,000)	SILVER SPONSOR (Rs. 25,000)	EVENT SPONSOR (Rs. 20,000)
1.	Event Title	✓				
2.	Logo on					
(a)	Certificate	✓	✓			
(b)	Letterheads	✓	✓		✓	
3.	Logo on Promotion Materials					
(a)	Banners	✓	✓	✓	✓	✓
(b)	Posters	✓	✓	✓	✓	✓
(c)	Brochure	✓	✓	✓	✓	✓
4.	Brand Promotion through Informal Desk	✓	✓	✓	✓	✓
5.	Space for Canopy	✓	✓	✓		

# The above slabs are negotiable.

# MILEAGES...

- 1) Brand Promotion through logo on banners and other promotional activities.
  - 2) Logos on Posters sent to all colleges over India.
  - 3) Brand promotion through Newspaper coverage and social media.
  - 4) Publicity through informal desk.
  - 5) Being a part of social campaign to create awareness.
- 

# DOCUMENTATION REQUIRED...

1) Letter of Authorization

2) Mode of Payment : We accept Cash or Money transfer through bank account

3) Publicity Materials :

a) Banners and Social Media.

b) Soft and Hard copies of the logo of your brand.
