

Workshop on **CLOUD SECURITY**

Date : 18th February, 2017

Venue : Kongu Engineering College, Perundurai

Workshop Overview

Security, trust, and privacy issues are major obstacles for massive adoption of cloud computing. The extensive use of virtualization technologies exposes the existing system to new threats, which previously were not considered. There is a chain of responsibilities in terms of service delivery that can introduce more vulnerability for the secure management of data, the enforcement of privacy rules, and the trust given to the service provider.

One day workshop on cloud security is being organised by Kongu Engineering College on 18th February 2017.

Objective of this workshop is to bring awareness on the challenges in this area mostly concerned with devising secure and trustable systems from different perspectives: technical, social, and legal.
