

## **Polar King International, Inc. to Demonstrate Outdoor Walk-in Coolers and Freezers at the Grassfed Exchange Conference, September 27-29 in Albany, NY**

*1888 PressRelease - Polar King International, Inc. will be presenting their outdoor walk-in cooler and walk-in freezer units at the 2017 Grassfed Exchange Conference. The conference takes place September 27-29 at the Desmond Hotel and Conference Center in Albany, New York.*

Fort Wayne, IN - Polar King International, Inc. (<http://www.polarking.com/>) announces that company representative Patrick Smith will be showcasing the company's line of outdoor walk-in cooler and walk-in freezer units at the 2017 Grassfed Exchange Conference. The conference takes place at the Desmond Hotel and Conference Center in Albany, NY and runs from September 27-29. A 10'x20' walk-in unit will be onsite with demonstrations and product information also available.

The Grassfed Exchange Conference is a three-day event that brings together regenerative ranchers, dairymen and sustainable food supporters from across the country. Throughout the conference, there will be product demonstrations showcasing the latest in sustainable technology. There will also be a number of educational seminars and guest speakers including Tyler Matteson, Tre Cates, and Tod Auman. The core mission of the Grassfed Exchange Conference is to help producers understand the possibility of managing and finishing cattle correctly on grass and to produce the best quality beef and dairy products possible.

### About Polar King

As the industry's #1 manufacturer of seamless fiberglass outdoor walk-in coolers and walk-in freezers, Polar King units are designed to endure even the most rugged conditions and climates. All walk-in coolers and freezers are delivered fully assembled and require only a simple electrical connection to put them into operation. With a 100% seamless fiberglass design, Polar King offers the industry's only one-piece, outdoor unit. Polar King also recently gained Miami-Dade County product control approval. This means all Polar King products are designed to comply with the high-velocity hurricane zone of the Florida building code. Miami-Dade NOA No. 16-1018.10, Expiration Date: 7/13/2022. To learn more about the fiberglass advantage, or for more information, call 888-647-8231 or visit [www.polarking.com](http://www.polarking.com).
