

Young Researchers Forum

- Present your research through oral presentations
- Learn about career development and the latest research tools and technologies in your field
- This forum will give pertinent and timely information to those who conduct research and those who use and benefit from research
- Develop a foundation for collaboration among young researchers
- The forum will provide an opportunity for collegial interaction with other young investigators and established senior investigators across the globe
- Interact and share ideas with both peers and mentors
- Opportunity for young researchers to learn about the research areas of their peers to increase their capacity as multidisciplinary researchers
- Actively distribute information and promote the benefits of education and career matters

Best Poster Award

- You will be given about 5-7 minutes to present your poster including questions and answers. Judges may pose questions during the evaluation of the poster
- Judges will even evaluate the student's enthusiasm towards their study, interest and knowledge in the area of their research
- The winners will be announced at the closing ceremony of the conference. The decision of the winner will be withdrawn if the winner/winners is/are not present at the time of announcement
- Apart from the judging time you may also be present at the poster to share your research with interested delegates

Student Fellowship

- Communicate with peers of the University and serve as an active voice of support for membership in Conference Series LLC.
- Track the strength of relationship between students and dignitaries
- Coordinate with chairs of scientific sessions to connect students with corresponding Young Professional Groups
- Promote awareness of conference theme/tracks/benefits/scope to student members
- Set, execute and evaluate the goals of Conference Series LLC on an ongoing basis
- Promote the conference onsite at college, and throughout the social media networks

Welcome Message

My Dear Fellows,

It is with great pleasure that we invite you to join the 8th International Conference on Environmental Chemistry and Engineering from 20-22 September 2018 to be held at Berlin, Germany.

Theme: Accentuating Novel Researches and Frontline Advances of Environmental Chemistry

The scientific committee preparing the program with great care to provide a world-class scientific program to make this event again a memorable one by complementing up to date research sessions with diverse educational symposia and a galaxy of eminent national and international speakers will participate. We have collaborations and partnerships with various organizations.

In addition to practical aspects of routine Environmental Chemistry it is also very important to remain in touch with the latest advances and innovations and exchange ideas by the national and international eminent speakers and researchers.

Berlin is the beautiful, historical and entertainment city of Germany. Moreover, the weather in September will be very pleasant. You will thus have the opportunity to enjoy many other things in around Berlin besides the conference.

Dear prospective delegates, we strongly encourage you to take full advantage of the opportunity to attend the Environmental Chemistry-2018 being held in Berlin, Germany. On behalf of the organizing committee we extend a very warm welcome & promise a comfortable stay, great scientific content & pleasant memories to take home. Come and enjoy the biggest event of our specialty, full of scientific innovations, enriching moments with their peers and also treat this charming and hospitable city!

With Best wishes,
Environmental Chemistry 2018 Organizing Committee
