Session 13: Cancer and Tumor Nurse	
Session 14: Wound Care Nurse	
Panel discussions and Reviews	
Lunch break	
Session 15: Psychiatric Nurse Practitioner	
Young Research Forum	
(Panel discussions and Reviews)	
Coffee Break: Networking & Refreshments	
Closing Ceremony	

Venue & Accommodation

Dubai, UAE

The background of the slide features a photograph of the Burj Al Arab hotel in Dubai, United Arab Emirates. The hotel's distinctive sail-shaped architecture is visible, rising from a small island in the turquoise waters of the Persian Gulf. A long, low bridge connects the island to the mainland. The entire image is covered with a semi-transparent blue filter, which serves as a backdrop for the white text. In the bottom-left corner, there is a solid white rectangular area.

About Dubai

Dubai has grown as a city and global business center of the Middle East. It is also an important transportation center for passengers and goods. In the 1960s, Dubai's economy was based on trade revenues and, to a lesser extent, on oil exploration concessions, but oil was not discovered until 1966. Oil revenues began to flow in 1969. Dubai's oil revenues accelerated early Development City, but its reserves are limited and production levels are low: today, less than 5% of the emirate's revenues come from oil. The emirate's Western-style business model is the engine of its economy, with revenues coming mainly from tourism, aviation, real estate and financial services. Dubai has recently attracted worldwide attention through many major innovative construction projects and sporting events. The city has become iconic for its skyscrapers and high-rise buildings, especially the world's tallest building, the Burj Khalifa. Dubai provides a world class education and also huge job opportunities. The best-known universities in Dubai are the American University of Dubai, Al Ghurair University, Dubai American University, Wollongong University in Dubai and the British University of Dubai, which offer courses in Business Administration, engineering, architecture and interior Design.
