Drive-In Road, Ahmedabad.

## Words from us :

Having revolutionized the field of designing, in terms of ease, speed and quality of designs, SOLIDWORKS brings advanced solutions engineered to meet your daily 3D challenges and improve productivity.

Offering great capabilities to design, validate, collaborate and build solutions in one comprehensive package, it expands innovation for business advantage.

Join us for the session and learn more on how to :

Focus on design, not software

Solve complex problems quickly

Streamline your parallel design process

Fast-track your design through manufacturing
