PULSUS brings in a new spin on conferences by presenting the latest scientific improvements in your field. Listen to motivating keynotes from thought leaders, or rub elbows with pioneers across the globe. Osaka, Japan is all set for an amazing event as **PULSUS** proudly presents the “4th International Conference on Innovative and Smart materials” slated on **August 22-23, 2018** at **Osaka, Japan**.

PULSUS cordially welcome researchers, academicians, students and business professionals in the field of Material Science from around the world to participate in the upcoming Smart Materials 2018. The meeting for this year will revolve around the theme “**Appreciating Innovative Smart Materials for a Smart future**” thus relaying the most cutting edge findings in the field of Material Science Research. The two day meeting is going to be an event to look forward to for its enlightening symposiums & workshops from established experts of the field, exceptional keynote sessions directed by the best in the business. It will also prove to be a brilliant open door for the representatives from Universities and Institutes to cooperate with the world class researchers and an outstanding opportunity for businesses keen at expanding their global market reach. Interested individuals can confirm their participation by registering for the conference along with their colleagues. Register soon and avail exciting early bird discounts.

Smart Materials 2018
Organizing Committee

Conference Highlights

- Classification of Smart Materials
- Smart Structures and Materials
- Smart Materials using Nano-technology
- Shape Memory Alloys
- Properties and Characterization of Smart Materials
- Smart Materials in Medical Sciences
- Actuators and Sensors as Smart Materials
- Smart Materials in Global Market
- Applications of Smart Materials
- Future scope of smart materials
- Carbon Fiber Reinforced Concrete (CFRC)
- Smart Combat Suits
- Self-healing Hydro-gels
- Electrostrictive Polymers for Energy Harvesting
- Sun Exposure Monitoring Sensor

Invitation

Pulsus Group is an internationally renowned medical peer-review publisher and conferences organizer established in the year 1984 publishes and hosts the work of researchers in a manner that exemplifies the highest standards in research integrity.

PULSUS conferences act as a catalyst on the research trends that really matter and spurring their adoption by exploring and disseminating cutting-edge information. Thus, mainly adhere to stringent peer-review procedure with a view to set an example in promoting standard medical research with integrity. As an ardent supporter of medical publishing, **Pulsus** Group closely associates with the Canadian and other international medical research associations like Canadian Society of Plastic Surgeons, Canadian Society for Aesthetic Plastic Surgery, Groupe pour l'Avancement de la Microchirurgie Canada, Canadian Society for Surgery of the Hand. It publishes a wide range of medical journals that focus on medical specialties like cardiology, Integrative Medicine, Surgery and Reproductive Medicine.

Pulsus Conferences explore the future by connecting minds and spreading brilliance at **Pulsus** Group annual conferences & meetings. Meet your colleagues, discuss your specialty, spread and aid, learn & grow in association with 1000+ scientific societies from The USA, Europe, The Middle East, Africa and The Asia-Pacific region. **Pulsus** group is closely associated with globally renowned academic and research societies.

Pulsus Conferences believe that true technology and innovation depends on hearing from, and listening to, people with a variety of perspectives.

Pulsus Conferences enhances the technology for people from underrepresented groups by actively recruiting diverse speakers for our events, signing up a broad variety of authors for journals and videos, and taking part in ongoing conversations about the value of diversity in the communities we serve.

About PULSUS

Smart materials are those materials which have properties to react to changes in their environment. This means that one of their properties can be changed by an external condition such as light, pressure, temperature. So Smart Materials are defined as “Materials that can significantly change their mechanical, thermal, optical, or electromagnetic properties, in a predictable or controllable manner in response to their environment” as there are many possibilities for such materials and structures in the man made world many innovations are happening in the field of material science that are enough smart to help human beings in any of the ways like structural health monitoring, self repair, Defense and Space, Nuclear Industries, Reducing wastes. Smart materials also have many applications in different fields of medicine and engineering and the rise in demand for the smart materials is enough to believe that there is a great scope for the smart materials in the future. So this conference is about bringing out the new smart and innovative ideas from the people belonging to the material sciences from all over the world for the smart future.

Target Audience

- Mechanical engineers
- Chemical Engineers
- Civil Engineers
- Automobile Engineers
- Material Science Engineers
- Industrial Engineers
- Mechanical universities
- Medical Colleges
- Research faculty
- Academic Scientists
- Students
- Diagnostic laboratory professionals
- Business Entrepreneurs
- Industry professionals
- Directors/Managers/CEO's
- Presidents & Vice Presidents

- Brand Manufacturers/ Marketers of Consumer Products
- Marketing, Advertising and Promotion Agency Executives

Who should attend?

- Nano Scientists
- Material science Research scholars
- Health care Students, Scientists and professors
- Medical Colleges
- Health care Associations and Societies
- Business Entrepreneurs
- Training Institutes
- Software developing companies

Why to attend?

- 10+ Keynote Speaker Session
- 50+ speaker faculty over 2 full days sharing Evidence Based Nursing practice
- 5+ Workshops
- 13 Interactive sessions
- Mixture of Health care units and Academia Delegates
- Networking

Osaka is a city in the Kansai region of Japan. It is the capital city of Osaka Prefecture and the largest component of the Keihanshin Metropolitan Area, the second largest metropolitan area in Japan and among the largest in the world with over 19 million inhabitants. Situated at the mouth of the Yodo River on Osaka Bay, Osaka is the second largest city in Japan, serving as a major economic hub for the country. The GDP in the greater Osaka area (Osaka and Kobe) is \$341 billion. Osaka, along with Paris and London, has one of the most productive hinterlands in the world. The Transportation is well planned and executed in the city of Osaka. It connects to its surrounding cities and suburbs via the JR West Urban Network as well as numerous private lines such as Keihan Electric Railway, Hankyu Railway and Nankai Electric Railway. The Municipal Subway system alone ranks 8th in the world by annual passenger ridership, serving over 912 million people annually. All Shinkansen trains including Nozomi stop at Shin-Osaka Station and provide access to other major cities in Japan, such as Kobe, Kyoto, Nagoya, Yokohama, and Tokyo and also regular bus services are provided by Osaka Municipal Transportation Bureau, as well Hankyu, Hanshin and Kintetsu, providing a dense network covering most parts of the city.
