WELCOME TO NURSING-2018

Events Ocean extends an enthusiastic and sincere welcome to the GLOBAL NURSING CONFERENCE & EXPO '18. The conference is to materialize on September 13-14, 2018 in the cosmopolitan city of Dubai, UAE.

Health and illness are considered as on-going processes along a wellness-illness sequence, in which the individual tries to reach a sustainable balance amidst needs and accessible resources. Nursing acknowledges to the reciprocal interaction among the person and the environment to aid a state of effective equilibrium or modification in the level of health at any point on the wellness-illness continuum. Nursing is supervised toward decreasing stress factors that affect or could affect the realization of the highest level of wellness by an individual, family, or community. This goal is achieved through the nursing process, a systematic, diagnostic technique used for achieving independent, interdependent, and dependent nursing actions. This technique consists of determining the person's actual and potential health issues, establishing a diagnostic statement, devising goals and objectives with expected results, resolving therapeutic interventions, and assessing the effectiveness of these interventions/preventions. Nursing is propelling into a new age of enlarging roles, liabilities and functions in primary, secondary, and tertiary preventions.

Nursing Conference – 2018 is the nation's biggest, most influential collaboration of professionals dedicated to nursing and healthcare.

Nearly 250 attendees from across the country are expected to attend in 2018. We cordially invite all the participants who are interested in sharing their knowledge and research in the arena of Nursing & Healthcare.

This is an excellent opportunity for the delegates from Universities and Institutes to interact with the world class scientists. This conference is the source for leading-edge updates and the latest information in the field of Nursing.

The main theme of the conference is **“Combining multi-cultural collective practices to bolster Nursing & Healthcare”**.

This theme invites conference participants to discover the various partnerships and cross-sector collaborations that are essential to accelerating systemic change and in addition investigating the potential outcomes

Nursing Conference – 2018 aims to give a concrete base to your hi-tech visions by expecting a participation of 250+ notable minds under one single roof! Here's where you can get thought inciting talks and exhibitions of knowledge from people having research experience worth a fortune.

Why Attend

Notch speakers, deepened sessions and intriguing subject matters all of these on a single podium!!! Learn about the trends and their handling in the business and extend your info-base as well at Nursing Conference – 2018, Dubai.

Sharpen the Saw: You will come back from the Nursing Conference–2018 with cutting edge advancements and new concepts and approaches that make you more effective at your research.

Meet Experts Face to Face: This is an excellent opportunity for the delegates from Universities and Institutes to communicate with the world class scientists. Nursing Conference – 2018 will offer you the favour to meet your idols and opportunity to develop are greatly improved when you're sharing the same space

Networking Opportunities: Provides favourable circumstances to form new relationships, and intensify existing ones.

HIGHLIGHTS:

- Young Research Forum
 - Best Poster Awards
 - Informative Panel Discussions
 - Symposiums and Pre-Conference Workshops

SESSIONS:

- Plenary Sermons
- Speaker Sessions
- Poster Presentations
- Exhibitions and much more...

SCIENTIFIC SESSIONS:

- Session 1: Nursing Research and Education

About Us

Events Ocean is an international event organizer of public engagement professionals. Our strong alliance unites professionals of all fields and communication practitioners from universities, cities, science centres, and cultural institutions across the globe. We see us as a knowledge-sharing platform, aiming to hasten innovation in scientific and non-scientific fields. Our forecast is in the constant expansion, we hope that great opinions and passion are contagious. We are with the communities involved in their advances, who consider knowledge as one of the essential track to obtain a better existence on this planet. Events Ocean is a global knowledge-sharing platform and accelerator of innovation in all diversified fields across the globe. We are self-funded and we do not hesitate in collaborating with partners with similar interests.

We appreciate that every industry has their own interest. So, we design events to promote B2B marketing to generate leads or change the way consumers think of their brand. From locating the ideal venue to designing eye-popping events our approach always goes back to your communications objectives. Come let's join to experience and explore the range of topics and breach your knowledge barriers.

Main Highlights of our Conference:

- Well organized scientific program
- Renowned speakers and scientists across the globe
- Poster presentations and world class exhibits
- Panel discussions and interactive sessions
- Perfect platform for Global Networking
- B2B meetings
- Presentation by renowned speakers from all over the world
- Poster presentations and world class exhibits
- Interactive Sessions
- Connecting scientific community

FACTS ABOUT NURSING

Nursing at UAE: Healthcare is one of the most rapidly growing sectors of the global economy, with global expenditure totalling \$7,682 million in 2015. According to estimates by the EIU, health spending will accelerate in most countries, rising to an average of 5.2% a year in 2014-18, equal to \$9.3 trillion. This boost will be guided by the needs of aging and growing populations, the prevalence of chronic diseases, emerging market expansion, infrastructure improvements, and advances in treatment and technology. Yet there will also be increased pressure to minimise costs and maximise savings.

In the UAE, the healthcare sector has observed an extended span of high growth, which is estimated to sustain, driven by the gap between supply and demand.

The UAE's 2021 Vision states that "the UAE will invest continually to build world-class healthcare infrastructure, expertise and services in order to fulfil citizens' growing needs and expectations".

There are four health governing bodies in the UAE:

- The Ministry of Health

- Dubai Health Authority (DHA)

- Health Authority Abu Dhabi (HAAD)

- Dubai Healthcare City Free Zone

Each entity has responsibility for facilities, licensing of doctors and nurses and market regulation within its jurisdiction. The Ministry of Health continues to play a pivotal role in providing healthcare, but it is not the only actor in the UAE healthcare system.

About Dubai

One of the seven emirates that constitute the United Arab Emirates, is fairly like a self-sufficient city-state and is the most modernized and dynamic emirate in the UAE, advancing at an incredible pace in the tourist and trade sectors notably. Lately Dubai won the bid to host EXPO 2020, a Universal scale Registered Exposition authorized by the Bureau of International Expositions (BIE), Paris. Dubai surfaced as a global city and business hub of the Middle East. Dubai was appraised as one of the finest places to dwell in the Middle East by U.S. global consulting firm Mercer.

The words 'first, tallest, deepest, most expensive, lavish, outlandish' could have been made for this city. Where else would you find a seven-star hotel, visit a series of 200 man-made islands in the shape of the countries of the world, or climb the world's tallest building?

Amidst all this uniqueness, as you head from a swim in the sea or a business meeting to designer boutiques, a round of golf or a top teppanyaki restaurant, the age-old souks still appeal those who like to haggle. And yet only a few kilometres into the elegant desert there are still camels roaming free.

There is a lively and cosmopolitan air about Dubai, for instance the way the traditional abra boats carry a kaleidoscope of tourists side by side with sari-wrapped Indians and locals sporting spotless dishdashas.
