## *Past Conference Report*

Neurology and Neuroscience conference is conducted annually. The recent two previous conferences are held on March 27-29, 2017 Madrid, Spain (11th World Congress on Neurology and Therapeutics) and Amsterdam, Netherlands November 21-22, 2016 in Melbourne, Australia (9th Global Neuroscience Conference). Once again we are delighted to welcome all the researchers to share their experiences and ideas through talks and presentations from diverse fields in advanced Neurology and Neurosciences. This event provides an international platform in bringing together a forum for eminent researchers, students, postdocs, and business entrepreneurs to exchange their ideas and contributing an integrative approach to the diversified fields related to Neurology and Neurosciences.

Neurology conference 2018 is one of the World's best platform which will enable to put forth the holistic scientific approach to validating existing and development of Neurology and Neuroscience techniques as to better understanding of diseases and diagnosis. Neurology and Neuroscience conference is set to witness an exhilarating session in the scientific program which will focus on latest innovations. The meeting also provides an opportunity to highlight the recent developments besides identifying emerging future areas of growth.

## Venue

The wrought-iron pinnacle of the Eiffel Tower penetrating the clouds, the broad Arc de Triomphe defending Paris' most fashionable avenue, the Champs-Élysées, the gargoyled Notre Dame cathedral, lamp-lit bridges straddling the Seine and art nouveau cafes trickling on to wicker-chair-lined terraces are ineradicably imprinted in the minds of anyone who's visited the city – and the fancies of anyone who hasn't (yet). With an illustrious artistic pedigree – Renoir, Rodin, Picasso, Monet, Manet, Dalí and Van Gogh are but a few of the masters who lived and worked here over the years – Paris is one of the great art repositories of the world, harbouring treasures from antiquity onward. In addition to big hitters like the unparalleled Louvre, the Musée d'Orsay's exceptional impressionist collection, and the Centre Pompidou's cache of modern and contemporary art, there are scores of smaller museums housing collections in every imaginable genre, and a diverse range of venues mounting major exhibitions through to off-beat installations.
