Welcome Message

Dear All,

Scientific Federation invites all the participants from all over the world to attend **International Conference on Atomic & Nuclear Physics** during **July 23–25, 2018 in Osaka, Japan** which includes Keynote presentations, Oral talks, Poster presentations and Exhibitions.

ICANP-2018 will also provide the excellent opportunity to meet experts, exchange information, and strengthen the collaboration among Directors, Researchers, Associate Professors, and Scholars from both academia and industry.

International Conference on Atomic & Nuclear Physics is anticipating participants from 40 and more countries across the globe and the two day conference will provoke Plenary sessions, Keynote speeches, Poster, and Oral presentations. This program provides two days of robust discussions on recent advancements and new strategies for development of new materials for global requirements.

Conference Objectives:

- To facilitate opportunities for networking, collaboration and exchange of ideas with internationally renowned leaders in Atomic & Nuclear Physics research and development.
- • To identify research and practice based innovations in optimizing Atomic & Nuclear Physics development.
- • To debate gaps and priorities for sustainable development in optimizing Atomic & Nuclear Physics research and development.
- • To discuss and debate the challenges and opportunities in the new era of optimizing Atomic & Nuclear Physics research and development reforms.
- • To identify opportunities for evidence-based practice in optimizing Atomic & Nuclear Physics research and development.

Our pleasure to meet you in upcoming event...!!!

Best Regards
Conference Organizing Committee

Organizing Committee Members

Kattesh V. Katti
University of Missouri
Cancer Nanotechnology
Platform, USA

Kamal K. Seth
Northwestern University,
USA

Shiwei Yan
Beijing Normal University,
China

Attila Krasznahorkay
Institute for Nuclear Research,
Hungarian Academy of
Sciences, Hungary

Mohamed A. Amr
International Journal of
Physical sciences, Qatar

Vladimir V. Romyantsev
National Academy of
Sciences of Ukraine,
Donetsk region, Ukraine

Shatendra Sharma
Jawaharlal Nehru
University, India

Ramon A Wyss
KTH Royal Institute of
Technology, Sweden

Conference Highlights

The Scientific Federation brings you an immense opportunity to be a part of scientific acceleration to world class personalities, young scholars, scientific delegates and young scientists to join in this forum to utilize the expertise and novelties that brings a new era for innovations in the field of Atomic & Nuclear Physics which brings well versed scrutinizers at one place. It provides a platform to have open discussions, knowledge sharing and interactive sessions with field experts at ICANP-2018. We request you to submit a brief idea or abstract of your talk/presentation/symposium/workshop according to your session interest.

- Nuclear Physics
- Nuclear Reactor Physics
- Nuclear Technologies
- Atomic Astrophysics
- Nuclear Medicine Physics
- Nuclear Radioactive Decay
- Nuclear Fission
- Nuclear Fusion
- Atomic Physics
- Atomic Collisions
- Laser-Atomic Physics
- Atomic Spectroscopy
- Radioactive Decay
- Nucleosynthesis
- Particle Physics
- Atomic Engineering
- Magnetic Recording, Memories and Spintronics
- Functional Magnetic Materials
- Novel Magnetic Materials and Device Applications
- Magnetic Particles and Nanostructures
- Ultra Cold Atoms
- Nuclear Astro physics

For Abstracts Submission:

<http://scientificfederation.com/atomic-nuclear-physics-2018/abstract-submission.php>

Conference sessions will bring you the latest strategies, research, and best practices to improve outcomes through quality, safety and staffing.

Glimpses of Previous Conferences

About Osaka

If Tokyo is Japan's capital, one might call Osaka its anti-capital. Whatever you call it, though, there are many opportunities for you to discover its true character.

Veiled much with a commercial-centric city touch, you may as well start from picking up the lively intonation of Osaka dialect, heard from the people as you ride on the escalators standing on the right, instead of the left in Tokyo; then discovering the contrast of popular food to eastern Japan, as you look for places to lunch. The deeper you get inside, and at the end of your stay, it is not completely impossible that you may have compiled your own original list of reasons covering from history, culture, sports, to business.

Osaka dates back to the Asuka and Nara periods. Under the name Naniwa (難波), it was briefly the capital of Japan 645–655, 661–667 and finally 744–745 AD. Even after the capital was moved elsewhere, Osaka continued to play an important role as a hub for land, sea and river-canal transportation. (See "808 Bridges" infobox.) During the Tokugawa era, while Edo (now Tokyo) served as the austere seat of military power and Kyoto was the home of the Imperial court and its courtiers, Osaka served as "the Nation's Kitchen" (天下の台所 tenka-no-daidokoro), the collection and distribution point for rice, the most important measure of wealth. Hence it was also the city where merchants made and lost fortunes and cheerfully ignored repeated warnings from the shogunate to reduce their conspicuous consumption.

Important Dates

Abstract Submission Opens: August, 25, 2017

Registration opens: August, 25, 2017

Early bird registration: December 21, 2017

Standard Registration : March 28, 2018

On spot registration: April 19, 2018

Venue

Osaka, Japan

For Registration
