- Connecting scientific community

Osaka is Japan's second biggest metropolitan city and third most secure city on the planet. Osaka has been a modern and monetary powerhouse of Japan for a long time. Osaka is the most crowded city in Japan which is created quickly and turned into the fascination for a wide range of people. Osaka contributes significant research in the field of dermatology and aesthetic medicine. Japanese researchers have led numerous research and patterns in dermatological surgery and medications in dermatological infections. Osaka has world class dermatology related colleges and hospitals. Japan has for quite some time been a standout amongst the most dynamic spots for dermatology explore. Historically a merchant city, Osaka has also been known as the "Nation's Kitchen". The demand for aesthetic treatments is increasing in Japan, as more and more dermatologists and general practitioners flourish in the aesthetics industry a study by the Japan Association of Plastic Surgeons shows the country's cosmetic surgery industry has grown by 400 percent since 2005, attributing most of the increasing demand of the acceleration of information technology. Nationwide sales of cosmetics increased by almost 15% from 8.5 trillion RP in 2011 to 9.76 trillion RP in 2012, according to figures from the Ministry of Industry.
