On behalf of the Organizing Committee, we invite you to take part in **the International Conference on Advanced Dentistry and Oral Health** which will be held in **Dubai, UAE** from **28-30 November 2018**.

ADOH 2018 will provide enhanced in-depth learning of new dental techniques and methods, which the attendees will be able to perform and use the information in their daily dental practice. It will showcase the latest advancements in **Cosmetic Dentistry, Dental Implants, General Dentistry, Dental Materials, Restorative Dentistry, Sleep Apnea & Snoring, TMD/TMJ treatment, Laser Dentistry, Instruments** and techniques by demonstration from specialized professionals in the dental field.

The scientific program of ADOH 2018 will reflect the most current investigations of Dental and Oral Health. Special attention will be paid to the newest technologies like **Digital Dentistry, Thinner Veneers, Lasers, CAD/CAM Technology**, etc. Attendees at ADOH 2018 will have unique opportunity to meet with leaders of the Dental and Oral Health profession from around the globe to discuss all of the scientific and technical breakthroughs that are changing the landscape of dentistry and fulfill their continuing dental education and professional development requirements.

Dubai is the global business hub and ideal to visit in November, offering a kaleidoscope of attractions such as **Burj Khalifa**, the tallest building in the world and the centerpiece of **Downtown Dubai**; the **Dubai Mall**, the world's most visited and largest shopping and entertainment destination; **Atlantis**, the Palm which houses the aquaventure water park and the lost chamber aquarium, among many others.

For more information: <http://globaldentalconferences.org>

We look forward to welcome you in November.

Best Regards,
Conference Secretariat

USA

Continuing dental education is extremely important for all in the dental field. As a dental professional you should be keeping up with the major changes happening in the dental industry every day. The world of dentistry is growing extremely fast and will continue to grow over time, making it clear why it's so important to continue your dental education.

With the technology advancing in such little time now, it's essential for everyone in the dental field to stay on top of the game. Not only is it beneficial to you to continue your dental education, but to your patients as well. Continuing your dental education allows you to provide the best care possible while having access to the latest preventative, diagnostic and treatment methods.

Conferences are one of the most effective forms of learning something today that you can immediately implement to improve your practice the first day back to your office. Conferences like ADOH 2018 provide the chance to listen to leading experts share the latest best practices, participate in hands-on workshop sessions, panel discussions, and view the latest technologies. Staying at your current level without new learning is simply not an option any longer. With advanced technologies like dental lasers, improvements in laser technology and its application for every day clinical care, dentists who fail to keep pace may mean you're actually falling behind in the quality of care you provide

If you're a dentist or interested in improving your practice, there's no better place to get all the support and knowledge you'll need than at International Conference on Advanced Dentistry and Oral Health in Dubai, UAE this November.

Why attend ADOH 2018 ?

Network! ADOH 2018 offer the opportunity for you to mix and mingle, form new relationships and strengthen existing ones.

Meet experts and influencers face-to-face: ADOH 2018 offer the opportunity to meet global dental leaders who are expected to share their noble insights at the conference.

Learn in a new space: Unleash the insights of global dental industry.

Recognition: This Conference is a great place to get recognition for your own ideas.

Sharpen your skills: Learn new ideas and approaches to make you more effective and efficient at work

Absorb the energy of like-minded individuals: There's nothing like being in a room of like-minded people – other people who are willing to take time away from the office to learn something new. Other people who want to “better” themselves

Break out of your comfort zone: Breaking out of your comfort zone is just the type of action that is necessary to break out of old ways of thinking.

Get access to workshops: workshops offer even more learning opportunities that connect attendees in an intimate learning environment.

Have fun! Participating at ADOH 2018 will add a layer of enjoyment to managing your career growth by mixing a social aspect into your learning and industry branding efforts.

Invest in yourself: A day out of the office to sharpen your skills, is investing in yourself. It is admitting that you are worth it, that you still have things to learn and that you can get better. It is an investment in yourself, your career and your growth.

UAE dental devices market is currently estimated to be worth USD 0.113 billion for the year 2014 and is expected to grow at a CAGR of 6.62% for the duration 2016-2021.

Some of the factors driving the growth of the market are:

Increased dental and global tourism in developing nations

Rising demand for cosmetic surgery

Rising geriatric population

Global economic growth

Increasing number of dental clinics and practitioners providing large-level dental care services
Low penetration rate for dental implants, which enables dental implants to be cost-effective to the end user

As of 2013, Dubai was the 7th most visited city of the world based on air traffic and the fastest growing, increasing by a 10.7% rate. Dubai is expected to accommodate over 15 million tourists by 2015. The emirate is also the most populous of the seven emirates of the United Arab Emirates.

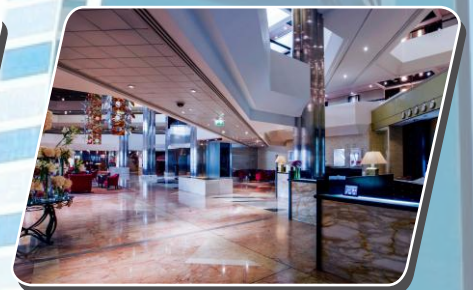

Dubai has been called the "shopping capital of the Middle East". Dubai alone has more than 70 shopping centers, including the world's largest shopping center, Dubai Mall. Dubai is also known for the traditional souk districts located on either side of its creek. Traditionally, dhows from East Asia, China, Sri Lanka, and India would discharge their cargo and the goods would be bargained over in the souks adjacent to the docks. Dubai Creek played a vital role in sustaining the life of the community in the city and was the resource which originally drove the economic boom in Dubai. As of September 2013, Dubai creek has been proposed as a UNESCO World Heritage Site. Many boutiques and jewellery stores are also found in the city. Dubai is also referred to as "the City of Gold" as the Gold Souk in Deira houses nearly 250 gold retail shops.

The Crowne Plaza offers world-class hospitality. Just 15 minutes from the International Airport, the Crowne Plaza Hotel Dubai - Deira welcomes you in the largest city in the UAE. Deira is a perfect location for business and leisure travelers.

Hotel offers thoughtful amenities not just for executives, including free Wi-Fi internet access, a business center, free parking and proximity to the Deiras business center. Leisure travelers can easily visit major attractions such as the Gold and Spice Souk, the Dubai Mall (the largest mall in the world) or the Dhow Cruises on Deira Creek. In addition, all our guests enjoy 24-hour service from the dedicated concierge team.

The Crowne Plaza Dubai - Deira offers stylish new rooms with the latest technology and exquisite furnishings. The exclusive Club Lounge serves a complimentary breakfast, light meals and drinks. In the outdoor pool and the extensive fitness facilities, our guests can also pursue their daily workout routines. To experience an incomparable stay in Dubai.
