

3RD INTERNATIONAL CONVENTION ON
**GEOSCIENCES AND
REMOTE SENSING**
OCTOBER 19-20, 2018 | OTTAWA, CANADA

<https://geosciences.conferenceseries.com/>

Invitation

Geosciences 2018

Ottawa, Canada
OCTOBER 19-20, 2018

Dear Attendees,

Conference Series welcomes you to attend the **3rd International Convention on Geosciences and Remote Sensing** during October 19-20, 2018 at Ottawa, Ontario, Canada. We cordially invite all the participants who are interested in sharing their knowledge and research in the arena of 3rd International Convention on Geosciences and Remote Sensing.

Geosciences 2018 anticipates more than 150 participants around the globe with thought provoking Keynote lectures, Oral and Poster presentations. The attending delegates include Editorial Board Members of related Conference Series Journals.

As the premier event, we have developed a program with your interests in mind. We have not only increased the number of opportunities for you to network with colleagues from across the world but also introduced more focused sessions that will feature cutting edge presentations, special panel discussions, and livelier interaction with industry leaders and experts. This is an excellent opportunity for the delegates from Universities and Institutes to interact with the world class Scientists.

The intending participants can confirm their participation by registering for the conference along with your colleagues. Avail the delegate early bird offer.

The main theme of the conference is “Observing, Understanding And Forecasting The Dynamics Of Our Planet”

We look forward to personally welcoming you to Ottawa, Canada

Sincerely,
Geosciences 2018
Organizing Committee

About Conference

Ottawa, Canada
OCTOBER 19-20, 2018

Geosciences 2018

Geosciences 2018 Conference website is attracting **25000+ Geoscientists, Geologists, Geographers online** visitors ranging from Researchers, Academicians and Business professionals, who are working in this field. This unique opportunity that we extend to our speakers and attendees is not being offered by any other conference organizers. Through this the abstracts and research profiles of our speakers and organizing committee members getting global visibility which is an additional feature that you would be receiving in addition to networking opportunities before, during and after the conference.

Geosciences 2018

- Opportunity to attend the presentations delivered by Eminent Persons from all over the world.
- Selected contributions will be published in following Conference series LLC Publishing Group
 - Journal of Geology & Geophysics
 - Geoinformatics & Geostatistics: An Overview
 - Journal of Remote Sensing & GIS
- Participation in sessions on specific topics on which the conference is expected to achieve progress
- Global networking: In transferring and exchanging Ideas
- Share your excitement in promoting your skills in the field of designing.
- Conference brings together Researchers, Business Entrepreneurs and Industry Developers.

How Conference Series Conferences differs from others?

- 3000+ Conferences across the globe in 70+ countries Annually
- Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
- Participation by Stalwarts from various international societies
- Internationally renowned speakers and scientists representation
- Career guidance for early career researchers and students
- Interesting scientific deliberations and discussions
- Perfect platform for Global Networking

About Conference

Ottawa, Canada
OCTOBER 19-20, 2018

Geosciences 2018

Geosciences 2018 salient features

- Meet Academia and Industry visionaries to get inspired
- Expand your knowledge and find solutions to problems
- Knowledge, Benchmarking and Networking offered at one place
- Forge connections and for global networking
- Highly Organized and Structured Scientific programs
- Poster presentations and world class exhibitions
- Meet with new vendors and suppliers

Purpose

Geosciences 2018 is an arena for interdisciplinary exchange among professionals in the fields of Geosciences and Remote Sensing.

Goals

The conference program emphasizes evidence-based practice, educational innovation, practical application, and peer to peer networking and collaboration. The goals of the conference is to provide a transformative professional development experience through

Bringing together the world's scientific experts to catalyze and advance scientific knowledge about Geosciences and Remote Sensing present the most recent research findings, and promote and enhance scientific collaborations around the world

Bringing together community leaders, scientists, and policy leaders to promote and enhance programmatic collaborations to more effectively address regional, national and local responses to Elderly Population around the world and overcome barriers that limit access to care and services.

Objectives

After participating in this meeting, attendees should be able to

Discuss emerging issues in Geosciences and Remote Sensing

Discuss and apply recent research findings related to Geosciences and Remote Sensing

Reflect on the place of critical distance in Geosciences and Remote Sensing

About Conference

Who should attend

3rd International Convention on Geosciences and Remote Sensing is attracting 25000+ Geoscientists, Geologists, Geographers online visitors ranging from Researchers, Academicians and Business professionals, who are working in this field. This unique opportunity that we extend to our speakers and attendees is not being offered by any other conference organizers. Through this the abstracts and research profiles of our speakers and organizing committee members getting global visibility which is an additional feature that you would be receiving in addition to networking opportunities before, during and after the conference.

About hosting organization

Conference Series is the world's leading specialist in organizing Academic, Scientific and Business conferences, meetings, symposiums and exhibitions in different verticals and horizontals like Medical, Pharma, Engineering, Science, Technology and Business to promote scientific research. Every year we host more than 3000+ global events inclusive of 1000+ Conferences 1000+ Symposiums 1000+ Workshops in USA, Europe, Middle East and Asia with the generous support and cooperation from our 30000+ Editorial Board Members, 1000+ Scientific Societies. All the conference proceedings are published in the special issues of our 700+ Open Access International Journals with the DOI provided by 

Major sessions

- Geosciences
- Geology
- Paleontology
- Structural Geology and Tectonics
- Physical Geology
- Environmental Geology
- Seismology and Paleoseismology
- Petrology and Mineralogy
- Engineering Geology
- Oceanography
- Geophysics
- Remote Sensing
- Applications of Remote Sensing
- GIS
- GPS and Photogrammetry
- Multi Temporal Data Processing
- Location Based Services and Mobile GI
- application
- GIS Software
- Disaster Assessment and Management
- Remote Sensing and GIS Market
- Drones or Unmanned Aerial Systems in GIS

About Ottawa

Geosciences 2018

Ottawa, Canada
OCTOBER 19-20, 2018

Geosciences 2018 is going to be held in Ottawa on October 15-16, 2018. Ottawa is Canada's capital, a dynamic showcase city of more than one million people located in Ontario at the Quebec border. Here you can discover Canada's proud heritage at impressive national sites and famous landmarks, including the Rideau Canal (a UNESCO World Heritage Site). It's a city steeped in culture, with world-class museums and galleries displaying stunning national collections and special exhibitions from Canada and around the world. Ottawa is the 7th coldest capital city in the world! Ottawa has the highest per capita rate of scientists, engineers and PhDs in all of Canada. Ottawa is cosmopolitan, with museums, galleries, performing arts and festivals, but it still has the feel of a small town and is relatively affordable. It is a centre for thriving international technology, business, world class tourism and convention destination. Ottawa is rich in culture and heritage with its many national institutions, parklands, waterways and historic architecture. It is home to a large number of foreign embassies and is a recognized centre for both academics and professional training. The city offers an open and welcoming environment to cultures from around the world, providing services in English, French, and a host of other languages.
