Dear Colleagues, Scientists and Friends,

It is our genuine pleasure to invite you to attend 29th World Cardiology Conference in Edinburgh, Scotland to be held on November 19-20, 2018.

The scope and quality of the scientific exchange makes this Conference the elite cardiovascular research and instructional meeting in the world to secure the international Fight for Healthy Heart. The meeting would feature two fantastic days of the best in cardiovascular clinical practice and scientific content covering targeted and interdisciplinary aspects of basic, clinical, applied and translational applications.

This event features lots of opportunities to network with colleagues and partners from the globe in an exciting environment. The meeting will continue to focus on cooperation, innovations, and making strategic alliances to minimize gaps between evidence and practice, and to facilitate and accelerate the incorporation into clinical practice of new therapies with proven safety and efficacy. In this sense, let us involved into aforementioned ask you to submit your latest research results and outcome of your experience for presentation. Your active contribution will be crucial to the success of the Conference and its impact on our global mission to prevent, to treat and to rehabilitate chronic cardiac disorders. Together, we will become a stronger voice and global force with the ultimate goal of succeeding in decreasing the world-wide burden of the illness.

We hope that, despite the intense Program, you will be able to get some glimpses of the Great Edinburgh which would unite Great Culture, Unique History and Fantastic Future. We do hope that you will enjoy the Conference and that your interaction with your colleagues will stimulate a creative exchange of ideas and will be personally rewarding!
