About Venue

Baltimore is the largest city in the U.S. state of Maryland and the 24th largest city in the country. It is located in the central area of the state along the tidal portion of the Patapsco River, an arm of the Chesapeake Bay. The independent city is often referred to as Baltimore City to distinguish it from surrounding Baltimore County. Founded in 1729, Baltimore is the second largest seaport in the Mid-Atlantic United States and is situated closer to Midwestern markets than any other major seaport on the East Coast. Baltimore's Inner Harbor was once the second leading port of entry for immigrants to the United States and a major manufacturing center. After a decline in manufacturing, Baltimore shifted to a service-oriented economy, with the Johns Hopkins Hospital and Johns Hopkins University serving as the city's top two employers. Baltimore is also a principal city in the larger Baltimore–Washington metropolitan area of approximately 8.4 million residents.

Testimonials

Thank you for the conference note. The conference covered a diverse group of topics with a true international flavor in terms of the attending delegates.

Nigel Smart, Smart Pharmaceutical Consulting, USA

I would like to thank you for the opportunity to make the presentation in Philadelphia. It was a good experience and I would like to think that my presentation was well received by the audience.

Nelson Kardos, Duquesne University, USA

iPharma 2018 offered everything we needed It gives all participants a productive conference experience. We'll come back year after year

Ye Xu, Jilin Medical University, China

The conference was good, even some speaker could not attend because of the weather. It was a great experience for me and I am really glad for the experience

Livio Luongo, Università Vanvitelli, Italy

My US experience was very good and will always fondly cherish the memories. Would like to be back again in a year or so. I wish we could meet

Sanju Nanda, MDU, India
