

International Conference on

Microbial Genetics & Molecular Microbiology

December 03-04, 2018 Chicago, USA

<https://molecularmicrobiology.conferenceseries.com>

Dear Attendees,

We are glad to announce International Conference on Microbial Genetics & Molecular Microbiology to be held in Chicago, Illinois, USA from December 03,-04 2018 organized by Conference Series LLC Ltd in collaboration with generous support and cooperation from enthusiastic academicians and editorial Board Members. This conference is a unique international platform that's a confluence of all stake holders of the ecosystem – Industry, Academia, Researchers, Innovators, Regulators – coming together to present and discuss current topics in Microbial Genetics, DNA replication & mechanism, Gene Expression & Regulation, Genetic Code & Mutations, Genetic Disorders, Genetic Syndrome & Gene Therapy, Human Genetics & Genetic Diseases, Genetic Engineering, Molecular Microbiology & Diagnostics, Molecular Cloning & Genetic Recombinations, Cellular & Environmental Microbiology, Molecular Biology, Cell Biology, Drug Designing, Host–microbe interactions and will be available to discuss with you the latest issues and trends in Overcoming Milestones towards "Challenges & Innovating Solutions in the field of Genetics & Microbiology". As the premier event, we have developed a program with your interests in mind. We have not only increased the number of opportunities for you to network with colleagues from across the world but also introduced more focused sessions that will feature cutting edge presentations, special panel discussions, and livelier interaction with industry leaders and experts. Life is full of give and take. Make it count in your professional life. Attend the Molecular Microbiology Conference to network with your peers, exchange expertise and experiences, and arm yourself with the latest information to take your department to the next level. We look forward to personally welcoming you to Chicago, Illinois, USA in December.

Sincerely,
Molecular Microbiology 2018
Organizing Committee Members

About Us:

Our International Open Access Journals

- 700+ Leading-edge Peer Reviewed Open Access Journals
- 21 Day Rapid Review Process
- 50000+ Editorial Board Team, 35000+ Reviewers team
- 30 Million Readers and High Visibility
- 1000+ Scientific Associations Collaborations
- 100000+ Likes
- Publication immediately after acceptance
- Quality and Quick editorial, review processing

Salient Features

- Easy to Submit and Review Systems
- High Quality and Fast Publishing Guaranteed
- Unbiased, quality-oriented, and transparent reviews
- Truly impartial recognition of the best papers
- Feedback on the impact of every article
- Enhanced feature: Audio version of published paper
- Digital articles to share and explore
- Sharing option: Social networking enabled
- Authors, reviewers and editors are provided with scientific credits
- User friendly / feasible website articles translations across more than 50 world languages

About Us:

Our International Scientific Conferences

- More than 3000 Conferences happening across the globe
- Conferences organized in Medical, Pharma, Engineering, Science, Technology and Business.
- CME Accredited Conferences fostering professional and Personal development
- Continuum of education through organized scientific program
- Renowned speakers and scientists representing from 40 countries
- Highly Interactive sessions and Panel Discussions
- B2B Meetings offers perfect platform for Global Networking

Salient Features

- Robust on-line publicity for all the speakers and organizing committee members
- Career Guidance Workshops for students and early career researchers
- Accepted Abstracts will be published in various indexed journals
- Accepted abstracts will be labeled with a Digital Object Identification Number (DOI) provided by Cross Ref
- Creation of speakers and abstracts pages in Google
- Opportunity to publish full Manuscripts in our Open Access Journals

About Conference:

Molecular Microbiology 2018 anticipates more than 200 participants around the globe with thought provoking Keynote lectures, Oral talks and Poster presentations, Symposia, Workshops, Exhibitions and Career development programs., students, companies, industries under a single roof at the conference. This is an excellent opportunity for the delegates from Universities and Institutes to interact with the world class Scientists. The intending participants can confirm their participation by registering at Molecular Microbiology 2018 along with your colleagues.

How Conference Series LLC Ltd Conferences differs from others?

- 3000+ Conferences across the globe in 30+ countries all through the year
- Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
- Participation by Stalwarts from various international societies
- Internationally renowned speakers and scientists representation
- Career guidance for early career researchers and students Interesting scientific deliberations and discussions
- Perfect platform for Global Networking

Molecular Microbiology 2018 salient features

- Meet Academia and Industry visionaries to get inspired
- Expand your knowledge and find solutions to problems
- Knowledge, Benchmarking and Networking offered at one place
- Forge connections and for global networking
- Highly Organized and Structured Scientific programs
- Poster presentations and world class exhibitions
- Meet with new vendors and suppliers

About Conference:

Purpose:

International Conference on Microbial Genetics & Molecular Microbiology is an arena for interdisciplinary exchange among professionals in the fields of Genetics & Molecular Microbiology

Goals:

The conference program emphasizes evidence-based practice, educational innovation, practical application, and peer to peer networking and collaboration. The goals of the conference is to provide a transformative professional development experience.

Bringing together the world's scientific experts to catalyze and advance scientific knowledge about Genetics & Molecular Microbiology to present the most recent research findings, and promote and enhance scientific collaborations around the world.

Bringing together community leaders, scientists, and policy leaders to promote and enhance programmatic collaborations to more effectively address regional, national and local responses to Elderly Population around the world and overcome barriers that limit access to care and services.

Objectives:

After participating in this meeting, attendees should be able to Discuss emerging issues in Microbial Genetics & Molecular Microbiology.

Discuss and apply recent research findings related to Microbial Genetics & Molecular Microbiology. Reflect on the place of critical distance in Microbial Genetics & Molecular Microbiology

About Chicago

Chicago, officially the City of Chicago, is the third-most populous city in the United States. With over 2.7 million residents, it is also the most populous city in both the state of Illinois and the Midwestern United States. It is the county seat of Cook County. The Chicago metropolitan area, often referred to as Chicagoland, has nearly 10 million people and is the third-largest in the United States. Chicago has often been called a global architecture capital and is considered one of the most important business centers in the world.

Chicago Facts and Statistics

Chicago was incorporated as a city in 1837 near a portage between the Great Lakes and the Mississippi River watershed and grew rapidly in the mid-nineteenth century. After the Great Chicago Fire of 1871, which destroyed several square miles and left more than 100,000 homeless, the city made a concerted effort to rebuild on the damage. The construction boom accelerated population growth throughout the following decades, and by 1900 Chicago was one of the five largest cities in the world. During this period, Chicago made noted contributions to urban planning and zoning standards, new construction styles (including the Chicago School of architecture), the development of the City Beautiful Movement, and the eventual creation of the steel-framed skyscraper.

Attractions & Tours

Positioned along Lake Michigan, the city is an international hub for finance, commerce, industry, technology, telecommunications, and transportation. O'Hare International Airport is the second-busiest airport in the world when measured by aircraft traffic; the region also has the largest number of U.S. highways and railroad freight. In 2012, Chicago was listed as an alpha global city by the Globalization and World Cities Research Network, and it ranked seventh in the world in the 2016 Global Cities Index. Chicago has the third-largest gross metropolitan product in the United States—about \$640 billion according to 2015 estimates. The city has one of the world's largest and most diversified economies, with no single industry employing more than 14% of the workforce.

Registration Categories:

Academic

Only Registration: USD 599

Package A (Registration + 2 nights' Accommodation): USD 1049

Package B (Registration + 3 nights' Accommodation): USD 1199

Business

Only Registration: USD 699

Package A (Registration + 3 nights' Accommodation): USD 1179

Package B (Registration + 4 nights' Accommodation): USD 1339

Student

Student Oral: USD 399

Student Poster: USD 499 (USD 399 + USD 100 for Poster)

Student Delegate: USD 299 E-poster: USD 99

Important Dates

Abstract submission opens: May 01, 2018

Registration opens: May 01, 2018

Early bird registration: May 25, 2018

On spot registration: December 03, 2018
