EuroSciCon

World Congress on

Mass Spectrometry and Chromatography

Nov 19-20, 2018
Prague
Czech Republic

Theme:

Leading edge in the field of Mass Spectrometry

Invitation

Welcome to Prague.

On behalf of Mass Spectrometry and chromatography 2018 Organizing Committee, Academics, Counsellors, Directors of analytical chemistry department in Universities, Researchers and Scientists, Professor and Associate professor of analytical chemistry, Business delegates of Analytical instrument manufacturing companies and Young researchers from the chemistry and its allied areas.

The conference proceedings include symposiums and workshops, keynote speeches, plenary talks, poster sessions and panel discussion on latest research developments in the field of mass spectrometry.

EuroSciCon is the longest running independent life science events company with a predominantly academic client base. Our multi professional and multi-specialty approach creates a unique experience that cannot be found with a specialist society or commercially.

A Transformational Learning Experience

- Curated to address the concerns of today's scientific world
- Be inspired by some of the world's most renowned figures
- Stimulate new ways of thinking and provoke action.
- Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges.

Nov 19-20, 2018
Prague
Czech Republic

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

With over 3000 Conferences happening across the globe in the streams of Medical, Pharma, Engineering, Science, Technology and Business our events are accredited with CME/CPD.

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manuscripts in our Open Access Journals

With over 25000+ chemistry professionals accessing the website, Mass Spectrometry and chromatography 2018 is the most lucrative platform for researchers, academicians and industry professionals pursuing their work in the field and related. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better outreach of the work and profile.

Mass Spectrometry and chromatography 2018 Salient Features:

In a world of information overload, we focus on the issues most relevant to today's technical trends enabling our patrons to

Congregate with most senior executives

Nurture connexions

Agenda format which incorporates ample Q&A time

Partake in our revamped exhibitor expo sessions

Meet and listen to the relevant clients

Unprecedented growth creating an unparalleled market place

Nov 19-20, 2018

Prague

Czech Republic

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience

It organizes 3000+ Conferences across the globe connecting different sciences in 30+ countries

Over 25 Million+ Visitors and 20000+ Unique Visitors per conference

World's leading industries and companies attend

Career guidance for early career researchers and students

Provides insights you need to take your research to the next level

A huge conclave of high tech and science priests

Who'd be attending?

World Congress on Mass Spectrometry and chromatography gives chance to meet Academics, Counsellors, Directors of analytical chemistry department in Universities, Researchers and Scientists, Professor and Associate professor of analytical chemistry, Business delegates of Analytical instrument manufacturing companies and Young researchers from chemistry related industry and academic field respectively and share ideas, knowledge and different views on various areas of mass spectrometry.

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 16 years of Life Science Communication it focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, EuroSciCon is a corporate member of Royal Society of Biology, Institute of Biomedical Science (IBMS) and British Society for Immunology. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

- Analytical Science and Separation Techniques
- Spectroscopy
- Fundamentals of Mass Spectrometry
- Applications of Mass Spectrometry
- Novel Approaches in Mass Spectrometry
- Recent Advances and Development in Mass Spectrometry
- Mass Spectrometry in Proteomics
- Mass Spectrometry Imaging
- Ionization Techniques
- Separation Techniques with Mass Spectrometry
- Analysis with Mass Spectrometry
- Data Analysis, Troubleshooting and Experimentation with Mass spectrometry
- Chromatography and High Performance Liquid Chromatography (HPLC)
- Hyphenated Techniques

EuroSciCon

See your work **PUBLISHED**
in one of our related journals

- Structural Chemistry & Crystallography Communication
- Insights in Analytical Electrochemistry
- Journal of Organic & Inorganic Chemistry

Nov 19-20, 2018
Prague

About Destination Prague

Prague has been a political, cultural and economic center of central Europe complete with a really rich history. Founded during the Romanesque and flourishing by the Gothic, Renaissance and Baroque eras, Prague was the capital of the kingdom of Bohemia and the main residence of several Holy Roman Emperors, most notably of Charles IV. It was a paramount city to the Habsburg Monarchy and its Austro-Hungarian Empire. The city played major roles in the Bohemian and Protestant Reformation, the Thirty Years' War and in 20th-century history as the capital of Czechoslovakia, during both World Wars and the post-war Communist era.

Prague being a habitation to a number of important and famous cultural interests, many of the states has survived the violence and carnage of 20th century Europe. Main attractions include the Charles Bridge, the Jewish Quarter, and Prague Castle, Old Town Square with the Prague astronomical clock, Petron hill and Vyšehrad. Since 1992, the comprehensive historic center of Prague has been included in the UNESCO list of World Heritage Sites.

The city of Prague lies between oceanic climate and humid continental climate .The winters are relatively cold with average temperatures at about freezing point, and with very little sunshine. Snow cover is common between mid-November and late March although snow coverings of more than 20 cm (8 in) are sporadic. There are also a few periods of mild temperatures in winter. Summers usually bring plenty of sunshine and the average high temperature of 24 °C (75 °F). Night time can generally be quite cool even in summers. Since Prague is located in the rain shadow of the Sudetes and other mountain ranges precipitation in Prague has rather lowered to just over 500 mm [20 in] per year. Winter is usually the driest season while late spring and summer comes in with quite heavy rain, mainly in the form of thundershowers. Temperature reversal are relatively common between mid-October and mid-March bringing foggy, cold days and sometimes moderate air pollution. Prague is generally windy and is also known as windy city with common sustained western winds with an average wind speed of 16 km/h (9.9 mph) that often help break temperature change and clear the air in cold months.
