2018

FutureShapeofClinicalMicrobiology:Accessions,Organizations & Research

Update yourself to drive your market share accordingly

Meet experts and potential scientists, share your recent researches and information's and build a splash with Clinical Microbiology.

Opportunity beyond any Comparison to Attend & Network

Experience the Global Ambiance with Researchers with Similar Significance

Make New Associations and Fostering Potential Partnerships

Learn about the applications of Clinical Microbiology for treating the emerging diseases.

Explore the best in Cutting Edge Research

Learn Beyond your Field of Interest

Professional Development to Elevate your Knowledge and Skills

ClinicalMicrobiology2018

Speakers Representation from 50+ Countries

1 Conference | 2 Days | 7th Conference in Microbiology Series

15 Keynote Talks | 75 Plenary Speakers | 17 Interactive sessions

Symposia | Workshops | Best Poster Award

200 Attendees | 50 Professors | and many more . . .

Greetings!

Welcome to most exciting and fascinating London, UK.!

With immense pleasure Clinical Microbiology 2018 plan to deliver a conference that will exceed your expectations.

Clinical Microbiology 2018 with immense pleasure welcomes every one of the members from the globe to the **“7th European Clinical Microbiology Congress”** scheduled for **November 01-02, 2018**, at **London, UK**.

The Conference will be organized around the theme **“Explore the Challenges and Solutions in Clinical Microbiology”**.

Clinical Microbiology 2018 anticipates more than 500 participants around the globe to experience thought provoking Keynote lectures, Oral & Poster presentations. This year conference will offer ample opportunities for all stakeholders working on Microbiology to expose their research work.

Clinical Microbiology 2018 provides an opportunity to interact with Scientists, Researchers, Business delegates, experts working under the area of life sciences, Academicians and students, around the globe to provide an international platform for exploring current trending concepts and publishing the recent researches,. We hope that you will utilize this international forum to meet experts & influencers face to face, network with peers around the globe.

This year’s Conference program, coupled with the Business Opportunity Exchange, is an event you can’t afford to miss!.

Sincerely

Erika Madison

Erika Madison

Program Manager | Clinical Microbiology 2018

Organizing Committee

Clinical Microbiology 2018 dedicated to Innovate Solution to the Public Health Challenges, one conference which explore the challenges and solutions in Clinical Microbiology. Our Conference will organize and allow to access the global researchers around the world in a single platform. Clinical Microbiology 2018 will provide a great opportunity beyond any comparison to attend and network with Microbiology Community.

Join us at our 2018 edition of Clinical Microbiology to Experience the excellent opportunity to interact and share innovative ideas on Microbiology among globally renowned researchers and scientists. Clinical Microbiology 2018 will be an great platform for you to create long lasting relationship with the fellow researchers from Microbiology Community.

Get worldwide acknowledgement to your research profile where more than 55000 Visitors who analyzed our conference website to attend and submit proposals of their research work. Where this was recorded as the highest number of Visitors from both, developed and developing nations. While we penetrate the study of visitor, navigation, and traffic patterns to determine the success of our conference website majority amount of traffic we receive from cities like New York, London, Valencia, Amsterdam, Madrid, Barcelona, Athens, Sydney, Paris, Frankfurt, Tokyo, Osaka, Melbourne, Moscow and Vienna.

Clinical Microbiology 2018 website is attracting 56000+ Microbiologists, Clinical researchers, Pharmacists, Research scientists, Microbiology organizations and societies, Microbiology research centres, Clinical Microbiology laboratories, Microbiology associations, Professors and Students.

This unique opportunity that we extend to our speakers and attendees is not being offered by any other conference organizers. Through this the abstracts and research profiles of our speakers and organizing committee members getting global visibility which is an additional feature that you would be receiving in addition to networking opportunities before, during and after the conference.

Clinical Microbiology 2018 salient features

Experience the networking among globally reputed Microbiologists, Scientists and Clinical researchers.

Chance to witness workshop and speech about latest discoveries from some of the leading scientists from industry.

Open door for students of masters or PhD to submit their research paper on "Young Researcher Forum".

Presentation for students, professors & professionals from teaching, industrial & research background on a single platform.

Global platform for medical companies to unveil their latest products for the unresolved mysteries in the field Microbiology.

Open door for start-up enthusiasts to promote their product.

Get a chance to meet experts and influencer's face to face.

Relearning classic techniques and creating avatar for your business by being in a room of like-minded people.

Get a chance to reinvent yourself and have fun.

Awards Banquet and Closing Ceremony

Purpose

With members from around the world focused on learning about Microbiology, this is your single best opportunity to reach the largest assemblage of participants from the scientific community.

Conduct demonstrations, distribute information, meet with eminent personalities, and make a splash with latest research innovations at this outstanding event.

Goals

- The conference program emphasizes evidence-based practice, educational innovation, practical application, and peer to peer networking and collaboration.
- The goals of the conference is to provide a transformative professional development experience through
- Bringing together the world's scientific experts to catalyze and advance scientific knowledge about Microbiology to present the most recent research findings, and promote and enhance scientific collaborations around the world.
- Bringing together community leaders, scientists, and policy leaders to promote and enhance programmatic collaborations to more effectively address about emerging infectious diseases and overcome barriers that limit access to care and services.

Objectives

After participating in this meeting, attendees should be able to

- Discuss emerging issues in Microbiology
- Discuss and apply recent research findings related to Microbiology
- Disseminate the diverse voices of breakthrough innovators with visionary and practical solutions.

Who should attend?

Microbiologists, Clinical researchers, Pharmacists, Research scientists, Microbiology organizations and societies, Business delegates, CEO's and R&D Heads from Industries, Directors, Industrial Leaders, Pharmaceutical companies, Microbiology research centers, Clinical Microbiology laboratories, Microbiology associations, Professors and Students from Academia in the study of Microbiology and researchers who utilize novel techniques and knowledge in diagnosing and treating infectious diseases.

Reasons to attend :

Explore the challenges before looking for the solutions.

Share experiences, insights and ways in interactive peer-to-peer round tables.

Explore how advancements in scientific formulation are being implemented in practice.

This conference explores the Challenges and Solutions in Clinical Microbiology.

Gain knowledge about the most recent technologies in the field of Microbiology and its applications.

Salient Features

- Robust on-line publicity for all the speakers and organizing committee members
- Career Guidance Workshops for students and early career researchers
- Accepted Abstracts will be published in various indexed journals
- Accepted abstracts will be labeled with a Digital Object Identification Number (DOI) provided by Cross Ref
- Creation of speakers and abstracts pages in Google
- Opportunity to publish full Manuscripts in our Open Access Journals

Scientific Sessions

Microbial Biotechnology and Genomics

Clinical and Translational Immunology

Emerging Infectious Disease

Parasitic Diseases

Microbial Pathogenesis

Infection and Immunity

Bacterial and Viral infections

Vaccines and Immunotherapy

Medical Microbiology

Antimicrobials and Chemotherapy

Clinical trials of Antibacterial agents

Current Trends in Antibiotic Research

Clinical Microbiology 2018 Outlook

Explore the best in Cutting edge Research

Change to learn beyond your field of Interest

Keynote sessions by worlds most eminent and distinguished researchers

Conference Participation Inspires, Rejuvenate and Energize participants

Clinical Microbiology 2018 an unique platform to increase your reputation within the Microbiology Sector

Learning and Knowledge in a single package

Speaker's representation from 50+ Countries

1 Conference | 2 Days and 8th conference in the Row

The Global market for Microbiology is expected to reach \$8.0 billion by 2025 globally. Based on the analysis, Clinical Microbiology equipment and consumables market has reached \$3.05 billion revenue in the year 2015, and it is expected to reach \$6.72 billion by the year 2022, which is reflected by annual compound growth rate of 11.9% during the forecast period.

Automation and technology as a segment reached around \$3.7 billion in the year 2015, and projected to reach more than \$4.9 billion in the year 2020, with compound annual growth rate of 6.1%. Equipment as a segment totalled \$3.6 billion in 2015, and should total more than \$4.1 billion in 2020, demonstrating a five-year CAGR of 2.8%.

This analysis, however, will not focus on antimicrobial compounds, both for pharmaceutical or sterilization purposes, and will instead focus on methods of microbial detection when applicable. In addition, this report will not provide a particular focus on the intersection of pharmaceuticals and microbiology, which is beyond the scope of our analysis.

Global Markets for Microbiology Equipment and Consumables identifies the current microbiology state, current research and innovations and the future scope of the market. The report is based on the impact of this market on other industries like environmental, pharmaceutical, and food safety industries. With the report data from 2014, Global market drivers and trends, estimates for 2018, and projections of compound annual growth rate through 2020 are also projected.

London is the economic, political and cultural capital of England, and its world-class tourist attractions are famous across the world, with qualities in expressions of the human expertise, business, instruction, excitement, mould, fund, medicinal services, media, expert administrations, innovative work, tourism, and transport all adding to its clear quality. London is considered as the leading global city in research & development, healthcare, tourism. London has the different range of people and cultures, and around 300 languages are spoken in this area.

London is the leading global centre for higher studies, teaching and research and it has more number of higher education institutes in Europe, and it has top class universities in the world with international student population

London is one of the world's leading tourism destinations, and the city is home to an array of famous tourist attractions. The city attracted 19.1 million international visitors in 2017, making it one of the world's most visited in terms of international visits.

London, UK has six international airports and several smaller airports, and they make the busiest airport in the passenger numbers. London airports servers to 396 international destinations and 14 domestic destinations.

Domestic tourism is the smallest source for spend in the capital accounting for not much more than a quarter of what international spend does. Whereas domestic overnight visitor patterns show very little sign of seasonality (although the exact date of Easter can have some impact), international visitors show strong seasonal patterns. Relatively little remains known about one of the most important markets for London: UK day visitors. In numerical terms, day visitors are more important than domestic overnight visitors for London but are often not even considered as tourists because many of them come from Greater London or the South East.

The London Eye is a giant Ferris wheel located on the edge of the River Thames. It is 135 metres tall and has a diameter of 120 metres. A short walk away, the area boasts the London Aquarium, Big Ben, the Houses of Parliament, Westminster Abbey and Nelson's Column. In 2013, the tallest building in London, the Shard, opened a viewing platform to the public. Other major tourist attractions in London include the Tower of London, Buckingham Palace (although this is only open to the public during a limited number of months in the summer), Tower Bridge Experience, Madame Tussauds, ZSL London Zoo, London Dungeon and St Paul's Cathedral.

London's Climate:

The climate of London is temperate, with modest daily high temperatures during summer and winter lows that seldom fall below freezing. Average summer temperatures range from 24 °C to 14 °C, the average winter temperatures ranges around 8 °C to 3 °C.

London – Exciting and Fascinating City:

London is the capital and most populous city of England and the United Kingdom. It is the world's most-visited city as measured by international arrivals. Sightseeing opportunities are to be found in abundance. Major sights like the Tower of London and Buckingham Palace are on most visitor's itineraries.

Currency: GBP (£)

Transport within London:

Rail :

Underground and DLR: Commonly referred to as the Tube, is the second longest metro system in the world. The system serves 270 stations and was formed from several private companies, including the world's first underground electric line, the City and South London Railway.

Suburban: There are 366 railway stations in the London Travelcard Zones on an extensive above-ground suburban railway network. South London, particularly, has a high concentration of railways as it has fewer Underground lines.

Inter-city and international: London is the centre of the National Rail network, with 70 percent of rail journeys starting or ending in London.

Air links: London is a major international air transport hub with the busiest city airspace in the world. London has six international airports and several smaller airports, and they make the busiest airport in the passenger numbers. London airports servers to 396 international destinations and 14 domestic destinations.

Public Transport: London's bus network is one of the largest in the world, running 24 hours a day, with about 8,500 buses, more than 700 bus routes and around 19,500 bus stops.

London has a modern tram network, known as Tram link, centred on Croydon in South London. The network has 39 stops and four routes.

Getting There:

Heathrow(LHR) is London's main airport, but you can also fly to Gatwick (LGW), Stansted (STN), Luton (LTN), City (LCY), Southend (SEN). Find out about cheap flights to London.

The London rail network is comfortable, modern and reliable. Bus connections are cheaper but also slower and less comfortable.

The network of streets and highways is excellent and well maintained.

Accompany Partners' Policy:

We respectfully remind you that partners accompanying delegates/speakers are not eligible to attend conference sessions and do not qualify for refreshments and lunches during the day unless they have registered.

Any partner wishing to attend events not previously selected and paid for in his or her registration may do so at the Conference Registration desk.

We would be pleased to accommodate any requests where possible.

Registration and Accommodation

Refund and Transfer Policy:

- All fully paid registrations are transferable to other persons from the same organization, if registered person is unable to attend the event.
- Registration can be transferred to one conference to another conference of Allied Academies if the person is unable to attend one of conferences.

However, Registration cannot be transferred if it is intimated within 14 days of respective conference.

If the registrant is unable to attend, and is not in a position to transfer his/her participation to another person or event, then the following refund arrangements apply:

Keeping in view of advance payments towards Venue, Printing, Shipping, Hotels and other overheads, we had to keep Refund Policy is as following slabs-

- Before 60 days of the conference: Eligible for Full Refund less \$100 service Fee
- Within 60-30 days of Conference: Eligible for 50% of payment Refund
- Within 30 days of Conference: Not eligible for Refund
- E-Poster Payments will not be refunded.

Refunds will be initiated right after the conference.
