City Attractions Helsinki, Finland

About Helsinki

Helsinki, the capital of Finland, is a city of vibrant seaside, beautiful islands and great green parks. The city's rhythm is laid back yet at the same time refreshingly active in terms of both the number and quality of restaurants and nightclubs. Modernized by Functionalism and Influenced by Classicism, Helsinki is best known for its Art Nouveau architecture. It is known for its scenic beauty of natural aura as it is surrounded by the land of forests, fells, countless lakes and collection of islands, it is one of the most extensive and unspoiled natural environments in Europe. It is also a country of contrasts, the Midnight Sun in the summer, the Polar Night and the Northern Lights in the winter.

Helsinki is a compact city which can be easily explored on foot. Design, culture, architecture and shopping are all great exploration angles and large park areas, lakes, forests, and the coastline with numerous islands sprinkled off it make certain there's no shortage of natural presence. It consists of around 330 islands which provide beautiful set-ups for the weekend camping trips on beach. Many of the islands, such as Pihlajasaari and Suomenlinna, can be reached by a regular ferry from early morning until late at night.
