Invitation

Dear Attendees,

We are glad to announce the **12th Global Experts Meeting on Chemistry And Computer Aided Drug Design** to be held in **Melbourne, Australia** on **May 13-14, 2019** organized in collaboration with generous support and cooperation from enthusiastic academicians and editorial Board Members. **Chemistry Congress 2019** aims at sharing new ideas and technologies amongst the professionals, industrialists and students from research areas of Chemistry And Computer Aided Drug Design . As the premier event, we have developed a program with your interests in mind. We have not only increased the number of opportunities for you to network with colleagues from across the world but also introduced more focused sessions that will feature cutting edge presentations, special panel discussions, and livelier interaction with industry leaders and experts.

Life is full of give and take. Make it count in your professional life. 12th Global Experts Meeting on Chemistry And Computer Aided Drug Design amid May 13-14, 2019 Melbourne, Australia. This consolidates incite keynote presentations, Oral talks, Poster presentations and Exhibitions.

Sincerely,
Chemistry Congress 2019
Organizing Committee

Our International Open Access Journals

- 700+ Leading-edge Peer Reviewed Open Access Journals
- 21 Day Rapid Review Process
- 50000+ Editorial Board Team, 35000+ Reviewers team
- 30 Million Readers and High Visibility
- 1000+ Scientific Associations Collaborations
- 100000+ Likes 
- Publication immediately after acceptance
- Quality and Quick editorial, review processing

Salient Features

- Easy to Submit and Review Systems
- High Quality and Fast Publishing Guaranteed
- Unbiased, quality-oriented, and transparent reviews
- Truly impartial recognition of the best papers
- Feedback on the impact of every article
- Enhanced feature: Audio version of published paper
- Digital articles to share and explore
- Sharing option: Social networking enabled
- Authors, reviewers and editors are provided with scientific credits
- User friendly/feasible website articles translations across more than 50 world languages

Our International Scientific Conferences

- More than 3000 Conferences happening across the globe
- Conferences organized in Medical, Pharma, Engineering, Science, Technology and Business.
- CME/CPD Accredited Conferences fostering professional and Personal development
- Continuum of education through organized scientific program
- Renowned speakers and scientists representing from 40 countries
- Highly Interactive sessions and Panel Discussions
- B2B Meetings offers perfect platform for Global Networking

Salient Features

- Robust on-line publicity for all the speakers and organizing committee members
- Career Guidance Workshops for students and early career researchers
- Accepted Abstracts will be published in various indexed journals
- Accepted abstracts will be labeled with a Digital Object Identification Number (DOI) provided by Cross Ref
- Creation of speakers and abstracts pages in Google
- Opportunity to publish full Manuscripts in our Open Access Journals

Special Issues: All accepted abstracts will be published in respective Conference Series llc LTD Journals

Each abstract will be provided with digital Object Identifier by

About Conferences

Chemistry Conferences is a global platform to discuss and learn about Chemical Congress 2019 which covers the Areas of all the Chemistry and mechanisms including Computer-Aided Drug Design. In the light of this theme, “Dynamic evaluation of Chemistry domains with a customized approach towards Computer-Aided Drug Design”, the conference will be featuring the sessions related to recent trends, advancements and emerging technologies in the field of chemistry along with some graphic oriented techniques leading to the customization in the mechanisms of Drug Discovery and Design. Chemistry Congress 2019 primarily aims to provide a forum for international researchers from various areas of Chemistry, Pharmacy, Life sciences and allied groups by providing a platform for critical analysis of new data, and to share latest cutting-edge research findings and results about all aspects regarding advances in various branches of Chemistry. Subsequently at the upfront we are also enabling the research profiles of our speakers and organizing committee members a global visibility and networking opportunities before, during and after the conference as an additional feature.

Chemistry Congress 2019 salient features

- Meet Academia and Industry visionaries to get inspired
- Expand your knowledge and find solutions to problems
- Knowledge, Benchmarking and Networking offered at one place
- Forge connections and for global networking
- Highly Organized and Structured Scientific programs
- Poster presentations and world class exhibitions
- Meet with new vendors and suppliers

How Conference Series Conferences differs from others?

- 3000+ Conferences across the globe in 30+ countries all through the year
- Over 25 Million+ Visitors and 20000+ Unique Visitors per conference
- Participation by Stalwarts from various international societies
- Internationally renowned speakers and scientist's representation
- Career guidance for early career researchers and students
- Interesting scientific deliberations and discussions
- Perfect platform for Global Networking

Goals

- The conference program emphasizes evidence-based practice, educational innovation, practical application, and peer to peer networking and collaboration. The goals of the conference is to provide a transformative professional development experience through.
- Bringing together the world's scientific experts to catalyze and advance scientific knowledge about Chemistry And Computer Aided Drug Design , present the most recent research findings, and promote and enhance scientific collaborations around the world.
- Bringing together community leaders, scientists, and policy leaders to promote and enhance programmatic collaborations to more effectively address regional, national and local responses to Elderly Population around the world and overcome barriers that limit access to care and services.

About Conferences

Objectives

After participating in this meeting, attendees should be able to

Discuss emerging issues in Chemistry And Computer Aided Drug Design

Discuss and apply recent research findings related to Chemistry And Computer Aided Drug Design

Reflect on the place of critical distance in Chemistry And Computer Aided Drug Design

Who should attend?

Directors, CEO's, Association presidents, Vice Presidents and professionals, Noble laureates, Chemistry Researchers & Academicians, Chemistry Scientists, Clinical Services Managers, Healthcare Workers, Druggist, Drug development Research Laboratories, Drug development companies, Research Institutes and members, Supply Chain companies, Manufacturing Companies, Training Institutes, Business Entrepreneurs and students.

About hosting organization

Conference Series is the world's leading specialist in organizing Academic, Scientific and Business conferences, meetings, symposiums and exhibitions in different verticals and horizontals like Medical, Pharma, Engineering, Science, Technology and Business to promote scientific research. Every year we host more than 3000+ global events inclusive of 1000+ Conferences 1000+ Symposiums 1000+ Workshops in USA, Europe, Middle East and Asia with the generous support and cooperation from our 30000+ Editorial Board Members, 1000+ Scientific Societies. All the conference proceedings are published in the special issues of our 700+ Open Access International Journals with the DOI provided by CROSSREF.

Conference Highlights

- Advanced Chemistry
- Computer Aided Drug Discovery Chemistry
- Technological advancement in Organic Synthesis.
- Latest Discoveries in Green Chemistry.
- Petrochemistry and Process Engineering
- Modern Approach Towards Pharmaceutical Chemistry
- Technical Aspects of Analytical Chemistry
- Major Challenges in Environmental and Atmospheric chemistry
- Emerging technology on Supramolecular and Surface chemistry
- Applications of Polymers in Synthetic chemistry.
- Discovery and Design of Material chemistry
- Computer-aided drug design and applications
- Mechanism based drug design
- Molecular modeling, mechanics and dynamics
- Screening for new drugs
- Computer graphics
- Adrenergic drugs
- Drug metabolism and interactions
- Applications of ADME in early drug discovery
- Characterization of drugs and bio-therapeutics

About Melbourne, Australia

Melbourne is the state capital of Victoria and the second-most populous city in Australia, it is ranked fifth in the world in the Safe Cities Index. Melbourne consists of 31 municipalities. It has a population of 4.8 million as of 2018, approximately 19.05% of the national population, and its inhabitants are called Melburnians. The city is considered an alpha+ world city – as listed by the GaWC's 2008 inventory – and in 2014, Melbourne is the world's most liveable city for the sixth year running according to the Economist's global liveability survey. Melbourne has been ranked as top 13 of the biannual Global Financial Centre Index (GFCI). Melbourne is often referred to as Australia's garden city, and the state of Victoria was once known as the garden state. Melbourne has a temperate oceanic climate with warm summers and cool winters, the mean temperature average on this month of May in Melbourne is 15°C.

The must visit place in Melbourne, Australia are .The Penguin Parade is Australia's most popular wildlife attraction and home to the largest Little Penguin colony in the world, The Twelve Apostles are giant rock stacks that rise majestically from the Southern Ocean and are the central feature of the rugged Port Campbell National Park, Puffing Billy, Australia's oldest surviving and famously preserved steam railway, Healesville Sanctuary, Yarra Valley Wineries, Peninsula Hot Springs is the first natural hot springs & day spa center in Victoria around 1.5Hrs from Melbourne, Eureka Skydeck 88, Explore a world unlike any other in Antarctica – one of the four exciting and entertaining worlds at Melbourne Aquarium.
