- Do you wonder how you land yourself into a particular type of problem or situation repeatedly?

- Do you find yourself entangled in relationship, health or financial issues which are not the best for you?
- Are you plagued with a lot of self-doubt and lack of conviction in yourself?
- Overall, are you struggling to lead a happy, peaceful and meaningful life?

These are some questions that all of us have battled at some point in our lives, or are battling with at present.

If you answered YES to any of the questions above, then a warm welcome to PLRC6 - the 6th Past Life Regression Conference of the ARRR (Association for Regression and Reincarnation Research) founded by Dr. Newton Kondaveti, M.D., a world-renowned pioneer in the fields of Past Life Regression, Energy Medicine, & Spiritual Science.

What is Past Life Regression (PLR)?

Whenever we go through an intense experience, the mind and body stores it in our psyche. Unknown to us, these "memories" color the way we view our current life - ourselves, our relationships and our worldview.

Regression is a tool used by psychiatrists and spiritual scientists alike to help us revisit our past (childhood/foetal stage) and unearth the root cause of issues that are currently interfering with our everyday lives.

Spiritual scientists take it to the next level, by helping us revisit our past lives with the intent of resolving underlying issues that prevent us from living "completely" in our current life. PLR helps strengthen the mind-body-spirit connection more profoundly, allowing for increased awareness and liberation in daily life.

What is PLRC6?

Under the guidance of Dr. Newton Kondaveti and Dr. Lakshmi, ARRR has organised the Past Life Regression Conference over the last 5 editions to spread awareness and experience of PLR as a therapeutic technique for better living.
