About Pharma Biotech 2019

Pharma Biotech 2019 focuses on the Innovations in which the biopharmaceutical market is heading since its launch till the present date and moving on to the projections in future.

Improvement and assembling of the pharmaceutical medications to regulatory guidelines are the most critical aspects towards biosimilars and follow on biologics development and successful launching to the market.

Biotechnology is utilization of living frameworks and creatures to make items, by any applications to make or adjust items or procedures for particular utilize. Medical Science and technology has been assumed as an indispensable part in enhancing general wellbeing.

Pharmaceutical biotechnology Innovations which includes improvement in assembling of items, procedures and parts in the biopharma business. The touchy advancement in the pharmaceutical business turned into the main thrust for our new Biopharmaceutical Engineering Programs.

Program Manager
Shabana Tabassum

Abstract Submission Topics

- Pharma Biotechnology and its Applications
- Pharma Biotech in Healthcare
- Formulation of Biotech Products & Quality Control
- Biosimilars & Biomarkers Discovery
- Biopharmaceuticals Nanoparticles
- Advances in Pharma Biotech Manufacturing
- Drug Dissolution of Biopharmaceutical Products
- Sources, Dosage forms and Drug delivery
- Novel Approaches in Biopharmaceutics
- Clinical Trials on Biopharmaceutical Products
- Biopharmaceutical Production in Transgenic Animals
- Nursing and Biopharmaceutical Informatics
- Biomedical and genetic Engineering
- Drug Toxicity and Pharmacovigilance
- Pharmaceutical Microbiology
- Neurological Disorders
- Biopharmaceutical Regulations and Validations
- Biopharmaceutical Companies & Market analysis

Abstract submission opens : **October 01, 2018** | Registration opens: **October 01, 2018**

Deadlines for Abstracts: **June 05, 2019** | Deadlines for Registrations: **July 15, 2019**

Call for Abstracts

The Pharma Biotech 2019 invites abstracts related to the new scientific research in all the fields of Pharmaceutical and biotechnology. Registrants are invited to submit an abstract for consideration for oral and poster presentation. In general we encourage more specific to the current research fields representing innovation and recent technologies. Abstracts received will be reviewed by scientific committee from aspirants and categorized as speaker talks and poster presentations.

CANADA: 832 Bay St. Apt#701, Toronto, ON, M5S 1Z6 CANADA

Why to join ?

- Meet Experts & Influencers Face to Face
- Networking Opportunities
- Learning In a New Space
- New Technologies
- Greater Focus
- Have Energy of Like-Minded Individuals
- Investing on Yourself & finally have Fun!

Develop Networking with.....

- Industry leaders
- Product scientists
- Development managers
- C-level executive
- Academicians
- Pharma research departments

Meet your “Subject Matter Expert” (SME)

Subject Matter Experts will guide you in current Research & development. They help you in research queries, content, identify the objectives, and ensure your research scientifically acceptable.

Workshop/ Interactive Sessions

Workshop sessions involve extensive interaction between presenters and participants around an idea or hands-on experience of a practice. These sessions may also take the form of a crafted panel, staged conversation, dialogue or debate – all involving substantial interaction with the audience.

Round table Discussions

The right conference can be a game changer for your research and professional career. More importantly, the Round table conversation brings the experts networking and create the goldmine of opportunities.
