Surgical Oncology 2019

Surgical Oncology 2019

Conference Series Organizes 3000+ Global Events with over 600+ Conferences, 1200+ Symposiums and 1200+ Workshops on Medical, Pharma, Engineering, Science, Technology and Business.

Oncology is a multidisciplinary super-speciality of which surgical oncology forms an integral component, especially with solid tumours. Surgical oncologists around the world are involved in research extending from detecting the mechanisms underlying the causation of cancer, to its treatment and prevention. The role of a surgical oncologist extends across the whole continuum of care. With continued developments in diagnosis and treatment, the role of a surgical oncologist is ever-changing.

Surgical oncology is a field of Medicine that presented a rapid evolution over the past decades. The increasing incidence of malignancies throughout the globe and their detrimental effects led to an increasing interest in discovering new curative techniques that could affect and prolong the patient's life. Surgery has been the cornerstone and its course underwent dramatic changes over the years. Since the beginning of the twentieth century, the aim of the surgeons was to offer the maximal tolerable treatment, as their efforts were focused on delivering as extensive surgical treatments as the patients could tolerate, in order to achieve an acceptable disease control.

Who should attend ?

Oncology Professors, Scientists, Radiology and Oncology Researchers, Medical Oncology Faculty, Medical College students, Doctors, Radiology and Oncology Students, Pharmaceutical Industries, Healthcare Industries, Directors of Cancer Research Associations and Societies, Cancer and Radiology Training Institutes. Medical Training Institutes, Surgery Training Departments, Business Entrepreneurs, Medical Devices Manufacturing Companies, Oncology Surgery equipment Manufacturers, Gynaecologists, Obstetrics, Community Health Workers, Registered Nurse, Health Care Professionals, Health care Administrators, Nursing Lecturers and Nursing Training Institutes.

Benefits of attending **Surgical Oncology 2019**

- Surgical Oncology 2019 is an international platform for presenting research about diagnosis, Cure and Prevention of Tumours, exchanging ideas about it and thus, contributes to the dissemination of knowledge in Oncology for the benefit of both the academia and business.
- This event brings together Surgical Oncologists, Haematologists, Gynaecologists, Dermatologists, child specialists and all the eminent researchers and experts in the field of Oncology to explore the advancements in the prevention and management of Cancer diseases.
- We bring together industry executives, Oncology Pharmacy and Healthcare sectors making the conference a perfect platform to network, share views and knowledge through interactive discussions.
- Learn the experiences of other researchers who have tackled rare cases and developed the treatment strategies.

Major Sessions

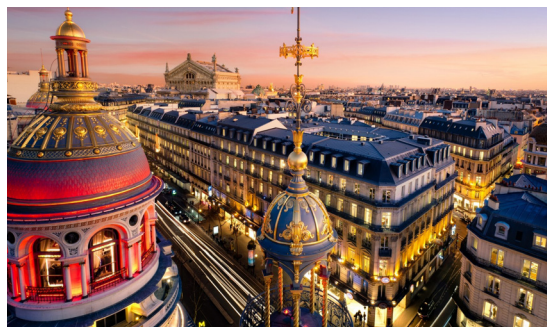

Cancer Epidemiology
Cancer: Lifestyle and Nutrition
Women Oncology
Cancer Therapy
Types of Surgery for Cancer Treatment
Surgical Techniques
Neurological Cancer
Oropharyngeal Cancer
Thyroid Cancer
Parathyroid Cancer
Dermatological Cancer
Blood Cancer and Bone Cancer
Lung Cancer
Renal Cancer and Hepatocellular Cancer
Pancreatic Cancer and Colorectal Cancer
Bladder Cancer
Cervical Cancer
Esophageal Cancer
Thymoma & Thymic Cancer
Reproductive Cancers
Cranial base center Cancers
Paediatric Cancers
Research in oncological Surgery
Recovery or Coping of Cancer Patients

Supporting Journals

Journal of Cancer Science & Therapy
Journal of Cancer Diagnosis
Journal of Integrative Oncology

Host City

Paris, the city of love, one of the most famous cities in Europe and most visited worldwide. With all the Paris attractions, trendy neighbourhoods, and delicious restaurants you can easily spend 2 to 4 days here. Home to historical monuments such as Notre Dame, the Eiffel tower (320m), Bastille, Louvre and many more. Paris is a dream place to visit for the art and architecture lovers. One of the most breath-taking works of architecture; 'The Eiffel Tower' a speechless beauty. Much of the city was re-designed by Haussmann in the 19th century. The night life is rich with the famous cabarets such as the Moulin Rouge, Lido and the Crazy Horse. Gastronomic restaurants offering cuisine of the finest are numerous and at all prices. In France, people love their food as much as they love their wine and it is of no surprise that you will be exposed to abundance of delicacies ranging from your basic crepes to the exotic Foie Gras. Undoubtedly it is one of the most fashionable cities in the world; some even go as far to give it the title of the "Fashion Capital of the world", Paris definitely has some style and more

Vision & Plan

The cancer therapy market was valued at USD 125730.7 million in 2017, is expected to register a CAGR of about 8.37% during the forecast period, 2018-2023. Cancer is one of the leading causes of morbidity and mortality, globally. Cancer therapies are drugs that block the growth and proliferation of cancer by interfering with specific molecules, such as DNA or proteins, which are involved in the growth or expansion of cancerous cells.

The global image guided surgery devices market is directly reliant on the development of healthcare across various regional longitudes of the world. As the healthcare industry make rapid advancements across a number of its sub-domains, the market for global image guided surgery devices would see the entry of new players into the market. The competition is expected to intensify in the coming years and wreak the need for proper strategizing for business players. Several market players are already on the lookout for better business strategies to garner a global footprint. Moreover, the players are expected to focus on get into strategic alliances in order to attract a decent consumer base across the world. The major players identified by Transparency Market Research (TMR) include Koninklijke Philips N.V., Siemens Healthineers, Analogic Corporation, GE Healthcare, Stryker, Varian Medical Systems, Inc., Brainlab AG, Medtronic, KARL STORZ GmbH & Co. KG, and Olympus Corporation. The market strategies employed by these prominent players is anticipated to be a decisive standpoint for market progress.
