

EuroSciCon

24th Annual Conference on

Infectious Diseases and Public Health

Theme: Finding new treatment ways to cure
Infectious Diseases

April 22-23, 2019
Athens, Greece

Invitation

It is a great pleasure and an honour to present to you a warm invitation to attend the 24th Annual Conference on Infectious Diseases and Public Health going to be held during April 22-23, 2019 in Athens, Greece. The theme of the Conference “Finding new treatment ways to cure Infectious Diseases” will support the need for collaboration and cooperation of individuals from a wide range of professional backgrounds. It aims to promote awareness and extend research aiming to develop or deal with the difficult situation for the challenges encountered.

Athens is the capital and one of the largest city in Greece. It is a global city and is the widest economic centres in south-eastern Europe. It is a centre for the arts, learning and philosophy, home of Plato’s Academy and Aristotle’s Lyceum. It is widely referred to as the cradle of Western civilization and the birthplace of democracy.

The Infectious Diseases Conference will be a wonderful platform for you to refresh your knowledge base and explore the innovations in Infectious disease. The Conference will make extremely great efforts to provide plenty of networking opportunities, providing you with the moment to meet and interact with the leading scientists and researchers, friends and colleagues as well as sponsors and exhibitors.

We hope you will join us for a symphony of superlative science, and spend more time to enjoy the spectacular and unique beauty of this city.

With best wishes,
Organising committee
Infectious Diseases 2019

A Transformational Learning Experience

- Curated to address the concerns of today's scientific world
- Be inspired by some of the world's most renowned figures
- Stimulate new ways of thinking and provoke action.
- Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges.

April 22-23, 2019
Athens, Greece

Why with us?

We at EuroSciCon strive to create transforming experiences, propelling researchers and organizations to interact and come up with actionable ideas thus enhancing the quality of research and development.

And here's why you associate with us

Our International Open Access Journals:

We embrace around 700+ Leading-edge Peer Reviewed Open Access Journals and a 21 Day Rapid Review Process with a whopping 50000+ Editorial Board Team, 35000+ Reviewers team and 1000+ Scientific Associations Collaborations.

Read by over 30 Million Patrons and 100000+ Facebook Likes comprehending the High online presence, our Open Access Journals serve the best blend of content and global exposure.

Our International Scientific Conferences:

Moreover you get to meet the industry's high priests who come from all over the orb. You learn from the companies defined by their progressive ethos and dynamic strategies and also through the highly interactive sessions and panel discussions.

B2B Meetings with enriching interaction help building better businesses, people and world.

Other salient features comprehend:

Publishing of the accepted abstracts in our inordinately indexed journals

Each of which will be labelled with a Digital Object Identification Number (DOI) provided by Cross Ref Distinct abstract and Speaker page creation, which profusely aid in citing the research and researcher in the top search engines.

Career Guidance Workshops for students and early career researchers

Opportunity to publish full Manuscripts in our Open Access Journals

With over 25000+ professionals and Educators accessing the website, Infectious Diseases 2019 is the most lucrative platform for Material Science Engineers, Professors, Researchers, Academicians and Industry professionals pursuing their work in the field. In addition to immense networking opportunities, global prominence of the research and the researcher is what we bestow our Speakers and Committee Members fuelling better outreach of the work and profile.

Infectious Diseases 2019 Sailable Features:

In a world of information overload, we focus on the issues most relevant to today's technical trends enabling our patrons to

Congregate with most senior executives

Nurture connexions

Agenda format which incorporates ample Q&A time

Partake in our revamped exhibitor expo sessions

Meet and listen to the relevant clients

Unprecedented growth creating an unparalleled market place

**April 22-23, 2019
Athens, Greece**

How's EuroSciCon different?

Exercises your creative instincts with the live knowledge experience

It organizes 300+ Conferences across the globe connecting different sciences in 30+ countries

Over 25 Million+ Visitors and 20000+ Unique Visitors per conference

World's leading industries and companies attend

Career guidance for early career researchers and students

Provides insights you need to take your research to the next level

A huge conclave of high tech and science priests

Who'd be attending?

The conference will bring together Directors, Aerospace scientists, Director of Laboratories, Universities, Industries, Professors, Delegates, Research specialists, Post-Doctoral Fellows, Researchers and Students, Research companies, and Consulting Firms and all the interested participants willing to enhance and update the knowledge on Material Science and Technology.

About hosting organization

EuroSciCon is one among Europe's largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. With over 18 years of Engineering Communication it focuses on to Spearheading the Transformation of Research into Knowledge through Scientific Gatherings and Networking. Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

- Tuberculosis
- Neurological infections
- Gynecological Infections
- Acute respiratory tract infections
- Rheumatic infections
- Gastro-intestinal infections
- fungal skin infections
- HIV/AIDS
- Ocular infections
- Streptococcal infections
- Parasitic infections
- Leprosy infections
- Antibiotics
- H1N1 Flu Virus (Swine flu)
- Hematologic infection

About Destination Greece

Athens is the capital and largest city of Greece. Athens dominates the Attica region and is one of the world's oldest cities, with its recorded history spanning over 3,400 years and its earliest human presence starting somewhere between the 11th and 7th millennium BC. A centre for the arts, learning and philosophy, home of Plato's Academy and Aristotle's Lyceum, it is widely referred to as the cradle of Western civilization and the birthplace of democracy largely because of its cultural and political impact on the European continent, and in particular the Romans.

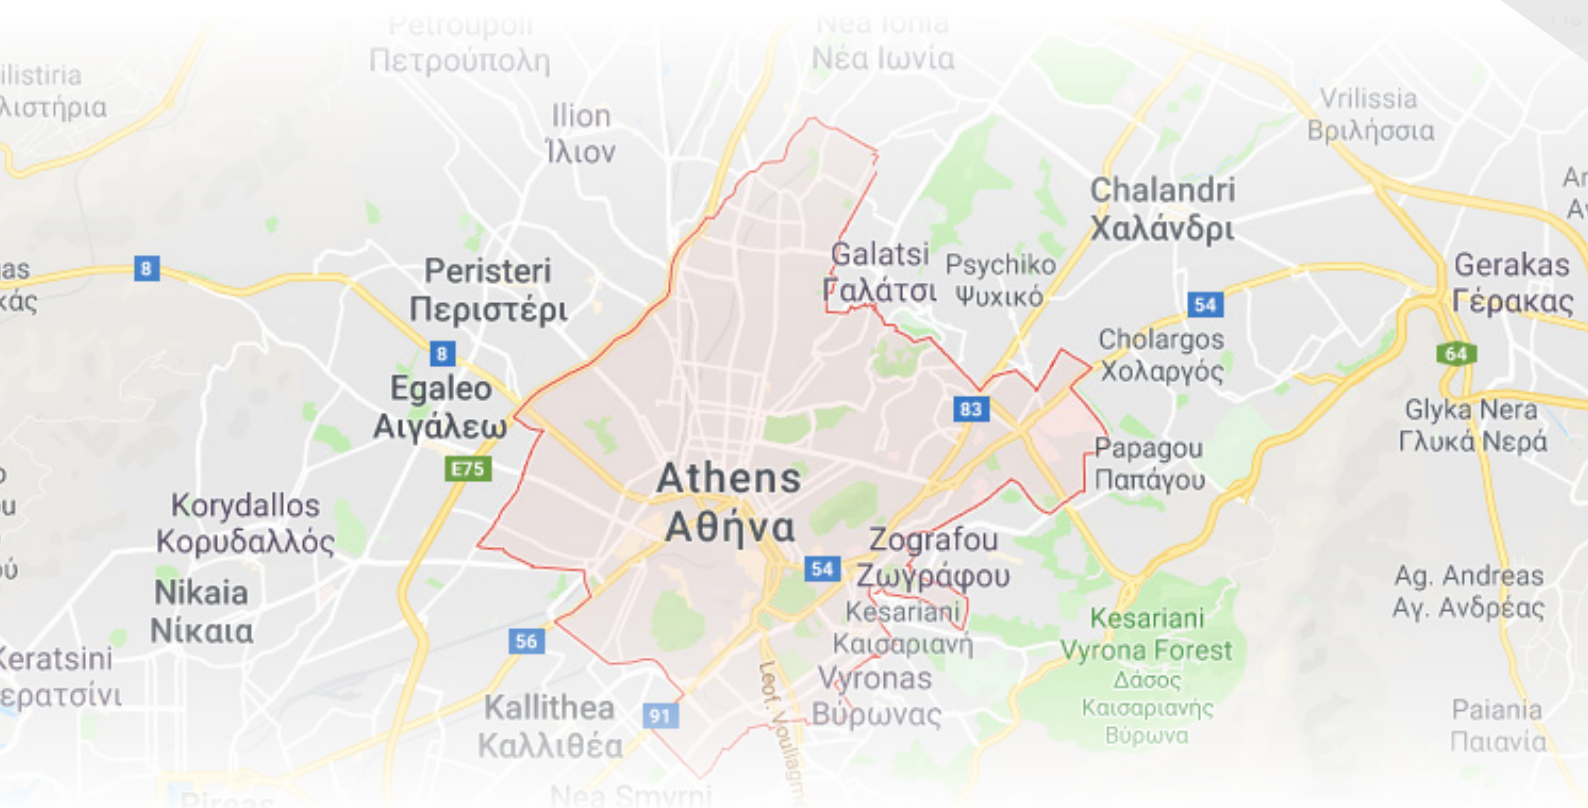

Athens is a global city and one of the biggest economic centres in southeastern Europe. It has a large financial sector, and its port Piraeus is both the largest passenger port in Europe, and the second largest in the world. The large City Centre of the Greek capital falls directly within the municipality of Athens, which is the largest in population size in Greece. Piraeus also forms a significant city centre on its own, within the Athens Urban Area and being the second largest in population size within it, with Peristeri and Kallithea following. The ancient site of Athens is centred on the rocky hill of the acropolis. In ancient times the port of Piraeus was a separate city, but it has now been absorbed into the Athens Urban Area. The rapid expansion of the city, which continues to this day, was initiated in the 1950s and 1960s, because of Greece's transition from an agricultural to an industrial nation.
