WHY DUBAI ?

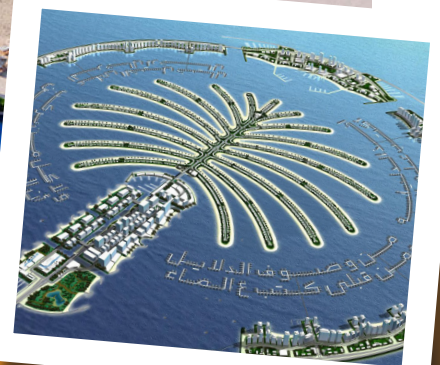

Dubai is essentially a desert city with superb infrastructure, liberal policies (by regional standards) and is one of the seven emirates that make up the United Arab Emirates. It is rather like an independent city-state and is the most modern for luxury shopping, ultramodern architecture and a lively nightlife scene. Burj Khalifa, an 830m-tall tower, dominates the skyscraper-filled skyline. At its foot lies Dubai Fountain, with jets and lights choreographed to music and the Palm, a resort with water and marine-animal parks that became popular for its excellent tourist amenities. Dubai today is a tourism, trade and logistics hub and has earned itself the reputation of being the 'gateway between the east and the west'. It is also considered as the dynamic nucleus of the Arabian Gulf region. Attending and contributing to the conference will definitely enhance your cultural and scientific experience.
