**Modern Impact and
Technologies in Food and
Probiotics**

Food Tech-2019

On behalf of our organizing committee we take an enormous pleasure in inviting you to attend the 4th World Summit & Expo on Food Technology and Probiotics in October 24-25, 2019 at Bangkok, Thailand. The Conference is designed to facilitate the sharing of knowledge and experience of researchers, young inspired scientists, academicians, and industrialists education worldwide. Food Tech-2019 will continue this philosophy by encouraging the sharing of research and practice in Food Technology , Nutrition and Probiotics as it impacts on the learning experience of students and qualified practitioners and social needs, and food safety, of the individuals and communities it serves worldwide.

With the theme “Modern Impact and Technologies in Food and Probiotics”, Food Tech -2019 Program will focus on currently employed technologies, disruptive innovations and the application of recent progress and evidence-based data in Food Technology and Probiotics.

In this Two –day’s event, we will have ample opportunities to chat, learn, share and collaborate with experts from all over the globe.

Why to attend?

Food Tech-2019 provide an opportunity to share knowledge, expertise along with unparalleled networking opportunities between a large number of food technology professionals like Directors, Heads, Deans, Professors, Scientists, Researchers, Food Technologists, Nutritionists, Dieticians, Microbiologists, Biotechnologists, Founders and Employees of the related universities , Associations, Organizations, Laboratories, Hospitals, and Young researchers working in the field of Food, Nutrition, Probiotics and related fields. This conference mainly focuses on the doctors and technologists and their contribution to the development of Food Technology and Probiotics. At this Food Technology and Probiotics conference you have the chance to get input on your work from individuals who have never observed it and may give new knowledge. Quickly it is a put resource into yourself, your profession and your organization.

Benefits of attending

- Accepted abstracts will be published in supporting Journals.
- Global networking: In transferring and exchanging Ideas.
- A Unique Opportunity for Advertisers and Sponsors at this International event.
- Meet Experts & Influencers Face to Face.
- Scifed membership card holder gets 10% abatement on the registration fees for the next annual conference.

Food Tech-2019 expecting attendees from

Doctors, Nutritionists, Professors, Students, Researchers, Dieticians, Business delegates, Industrial Leaders, CEO's and R&D, from all disciplines of Food and Probiotics related Departments from all recognized Organizations, Companies, Universities, Colleges and all over the World

Who can attend?

Food Technology and Probiotics Conference is a unique forum to bring together worldwide distinguished Academics in the field of Food Technologists, Nutritionists, Probiotics Researchers, Dietician, Microbiologists, Biotechnologists, Academicians, Food Industrialists, Food laureates, Entrepreneur, Chemists, Chefs, Journalists, Honorable guests, Food Economists, Pharmacists, Scientists, Doctors, Professors, university researchers, scholars to exchange about state of the art research and technologies. Expert faculties will discuss the relevant advances in Food and Probiotics research and will explore the Modern Impact and Technologies in Food and Probiotics.

Importance of this Conference

The aim of this conference is to promote quality research and real-world impact in an atmosphere of true international co-operation between scientists, engineers and industry by bringing together the world class renowned personalities to discuss the latest developments and innovations at one common platform.

Abstract Submission Tracks

- ▶ Probiotics, Functional Foods in Economy and Business
- ▶ Microbial Pathogenesis
- ▶ Breaking Innovations in Food Science world
- ▶ Probiotics in Obesity and Weight Management
- ▶ Probiotics in Pediatric Nutrition
- ▶ Food Safety, Preservation, Quality Standard and Systems Management
- ▶ Sustainable Food Security
- ▶ Probiotics in Animal Health
- ▶ Nutritional Physiology
- ▶ Nutritional Biochemistry
- ▶ Nutrition and Diet Supplements
- ▶ Food and Nutritional Immunology
- ▶ Nutritional Epidemiology
- ▶ Protein Science
- ▶ Food Microbiology
- ▶ Food Waste Management
- ▶ Food Security and Malnutrition
- ▶ Gut Microbiome and Microbiota
- ▶ Applications of Food Biotechnology
- ▶ Nutritional Deficiencies and Nutraceuticals
- ▶ Probiotics and Food Borne Diseases
- ▶ Probiotics in Gastrointestinal Interactions & Disorders
- ▶ Food and Dairy technology
- ▶ Trends in Modern Food Processing
- ▶ Food Packaging on Nutrition
- ▶ Application of Food Technology
- ▶ Novel Applications of Probiotics
- ▶ Industrial production and microbial fermentation
- ▶ Proteomics in Food Science
- ▶ Animal and Plant Nutrition
- ▶ Probiotics in Veterinary Medicine
- ▶ Food and Agriculture

About Venue

Bangkok is the capital and most popular city of Thailand. The city occupies 1,568.7 square kilometres in the Central Thailand, and has a population over 8 million, or 12.6% of the country's population. There are 581 high-rise buildings in the city, ranking number 5 in the world. The city grew rapidly during 1960s through the 1980s and now exerts a significant impact among Thailand's politics, education, economy, media and modern society.

Bangkok certainly lives up to its reputation as a travel hot spot in Southeast Asia. The 'City of Angels' has funky markets, a riverside full of surprises, upmarket malls, a vibrant nightlife scene, many fabulous sights and attractions that reflect its unique heritage, and much more. It is an international hub for transport and health care, and has emerged as a regional centre for the arts, fashion and entertainment.
