# Invitation

PULSUS brings in a new spin on conferences by presenting the latest scientific improvements in your field. Listen to motivating keynotes from thought leaders, or rub elbows with pioneers across the globe. Rome is all set for an amazing event as PULSUS proudly presents the “25<sup>th</sup> International Conference on Vaccine Design, Production & Safety” slated on July 22-23, 2019 at Rome, Italy.

PULSUS cordially welcome researchers, academicians, students and business professionals in the field of Vaccine Design 2019 professionals from around the world to participate in the upcoming Vaccine Design 2019. The meeting for this year will revolve around the theme “ **Explore the Advanced Research in the Field Vaccines in Modern Era**” thus relaying the most cutting edge findings in the field of Vaccine Design 2019 . The two day meeting is going to be an event to look forward to for its enlightening symposiums & workshops from established experts of the field, exceptional keynote sessions directed by the best in the business. It will also prove to be a brilliant open door for the representatives from Universities and Institutes to cooperate with the world class researchers and an outstanding opportunity for businesses keen at expanding their global market reach. Interested individuals can confirm their participation by registering for the conference along with their colleagues. Register soon and avail exciting early bird discounts.

Organizing Committee

## Conference Highlights

- Vaccine Design
- Vaccine Research and Development
- Diseases and vaccination
- Vaccine & Viruses
- Vaccine Safety Science
- Novel approaches to vaccine development
- Vaccinations for Pregnant Women
- Human Infectious Diseases
- Herpes Vaccines
- Vaccination to Global Health
- Vaccination and Immunization
- Immunization Safety and Vaccination Schedule
- Animal Vaccine
- Vaccine for Infants
- Vaccine Adjuvants
- Influenza and Respiratory Vaccine
- Vaccines for Unconventional Diseases
- Vaccines Clinical Trials
- Vaccine Manufacturing Process
- Sub-Unit Vaccines: New Trends

# About PULSUS

**Pulsus** Group is an internationally renowned medical peer-review publisher and conferences organizer established in the year 1984 publishes and hosts the work of researchers in a manner that exemplifies the highest standards in research integrity.

**Pulsus** Conferences explore the future by connecting minds and spreading brilliance at **Pulsus** Group annual conferences & meetings. Meet your colleagues, discuss your specialty, spread and aid, learn & grow in association with 1000+ scientific societies from The USA, Europe, The Middle East, Africa and The Asia-Pacific region. **Pulsus** group is closely associated with globally renowned academic and research societies.

**Pulsus** Conferences believe that true technology and innovation depends on hearing from, and listening to, people with a variety of perspectives. **Pulsus** Conferences enhances the technology for people from underrepresented groups by actively recruiting diverse speakers for our events, signing up a broad variety of authors for journals and videos, and taking part in ongoing conversations about the value of diversity in the communities we serve.

Traditionally Vaccines have been used to eradicate infectious diseases, which started with Small Pox. Apparently, In the last few years, there is great advancement towards vaccine design and its development. In the Era of Molecular biology, the innovative technologies such as genomics, proteomics, and functional genomics are used for the rational identification of antigens, generation of engineered carrier proteins and much more. The research in this area has always been more exciting with every new outbreak nature throws from influenza to Zika. Vaccine Design 2019 is an ideal forum for the researchers and Healthcare professionals to discuss the current advancements in Vaccine Design towards the most precise way of immunization.

## Target Audience

- Vaccinologist
- Healthcare Analysts
- Genetic Engineers and Scientists
- Molecular Biologist and Researcher
- Medical Students and Professors
- Microbiologist
- Academic Scientists
- Bioinformatics companies
- Veterinary Doctors, Researchers
- Biochemical Scientists
- Immunologist
- Vaccine Manufacturing Companies
- Business Entrepreneurs
- Immuno-informatics Students and Professionals
- Nurses and pharmacists
- Vaccination Training Institutions
- Clinical Data Management Companies

## Who should attend?

- Vaccine Producing industries
- Vaccinology Students
- Bioinformatics Professionals
- Biochemical Faculty and Researchers
- Pharmacist and Pharmacologist
- Medical and Healthcare Professionals

## Why to attend?

- With members from around the world focused on learning about vaccine administration, safety, and its advances; this is your best opportunity to reach the largest assemblage of participants from the Immunologists, Healthcare professionals and Industries. Conduct presentations, distribute information, meet with current and potential scientists, make a splash with new discoveries in vaccine designing, and receive name recognition at this 2-day event. World-renowned Speakers, the most recent techniques, developments, and the newest updates in Methods of designing vaccines, Vaccine production technologies, Storage and maintenance of vaccines are hallmarks of this conference.
