*“9<sup>th</sup> World Congress on Nursing and Healthcare” which is going to be held in Philadelphia, USA for the period of 20<sup>th</sup> and 21<sup>st</sup> of February, 2020. This congress will be a result of an educational experience that coupled key pediatric health issues with expert speakers Professors who addressed these issues in their presentations on evolving clinical practice, new intervention strategies, and targeted observed questioning and research.*

*Growth in Nursing and Healthcare is always linked to the improvement and welfare of human civilization. A future advance in multiple fields of medicine depends on the availability of finer methods. The aim of the Nursing and Healthcare Congress is to promote quality research and real-world impact in a medical field of true international cooperation between scientists and researchers by bringing together at this meeting,*

*Nursing-2020 brings along a good cluster of thought leaders to debate the transformation of Nursing practicing and healthcare, the finance, and delivery of care and therefore the opportunities to bring a lot of value to the society.*

*The main objectives of Nursing-2020 is to educate every individual working in the field of Nursing and the development in health practice, organization, and education in relation to health disparities as well as the importance of other topics. From nursing-2020 one can learn new ideas in nursing practice, manipulate intelligence and work with new technologies and gain ideas from experts at the forefront of Healthcare and Medicine.*

*We sincerely hope that Nursing-2020 serves as an international platform for meeting researchers from around the world, widen professional contact and create new opportunities, including establishing new collaborations.*

*Looking forward to seeing you all at Nursing-2020, USA*
