Market Report

Global Mental Health Report:

The market analysis of psychology and mental health represent one of the largest and untapped markets in the medical sector. The estimated market analysis is based on probability of approval and sales of products in late stage development, demographic trends and marketing of product.

WHO stated that approximately 350 million population is suffering from depression and mental disorders and nearly 24 million population globally is affected by schizophrenia disorder. Thus, rising incidences of psychological diseases will eventually increase the demand of psychiatric therapies and hence stimulates the market growth. Rising stress condition, physical, emotional and mental pressure among population also increases the demand of psychiatry therapies and hence supports the growth of psychiatry therapies market. In addition, rising anxiety disorder and chronic diseases will further drive the market of psychiatry therapies globally. According to Canadian Psychological Association (CPA), psychological treatment and therapies are very effective for the treatment of generalized anxiety disorder.

Europe is considered as the second largest region for psychiatry therapies market. Presence of psychotherapy association like British Association for Counselling and Psychotherapy, British Psychoanalytic Council and United Kingdom Council for Psychotherapy will drive the market growth.

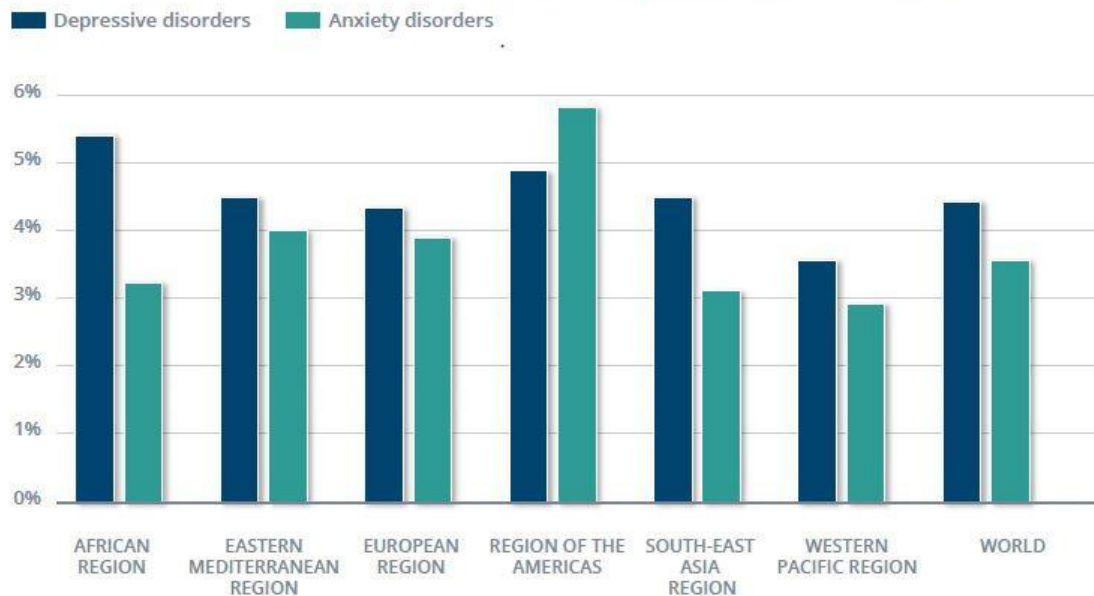

Marketing
Research

Contd.

Glance at Market for Psychology and Mental Health :

The global psychiatrist market was valued at \$795.1 billion in 2017. North America was the largest geographic region accounting for \$380.1 billion or 0.4% of the global market. And the USA was the largest country accounting for \$318.8 billion or 0.4% of the global psychiatrist market. In terms of revenue, the global behavioral health market is expected to register a CAGR of 3.4% during the forecast period of 2018–2028

Prevalence of common mental disorders (% of population by WHO Region)

The WHO vision of 'no health without mental health' reflects the definition of health in the WHO constitution. Mental health is everyone's business; it affects both the lives of people living with mental health problems, their carers, and the productivity of society as a whole. In many Western countries, mental disorders are the leading cause of disability, responsible for 30–40% of chronic sick leave and costing some 3% of GDP

About City

Amsterdam is the capital and most populated municipality in Netherlands. It has a total population of 861,000. The city is located in the province of North Holland in the west of the country. Its name derives from Amstelredamme, indicative of the city's origin around a dam in the river Amstel. The 17th-century canals of Amsterdam and the 19–20th century Defense Line of Amsterdam are on the UNESCO World Heritage List. It is ranked 1 in the world in welcoming visitors and world-class business meetings. It also leads Europe in available surface for trade exhibitions.

In many Western countries, mental disorders are the leading cause of disability, responsible for 30–40% of chronic sick leave and costing some 3% of GDP. There are numerous hospitals, institutions in Amsterdam which are working in the field of psychiatry and psychology research and mental health care.

Amsterdam is served by Amsterdam Airport Schipol- Holland's main international airport located 9km southwest of Amsterdam. Amsterdam also has a beautiful port located on the banks of North Sea Canal and IJ. The Port of Amsterdam is the 4th busiest port by metric tonnes of cargo and 3rd biggest cruise port in Europe .

We look forward to seeing you in Amsterdam- Venice of the North
