

EURO DENTISTRY 2019

28th Euro Dentistry Congress

September 16-17, 2019 Amsterdam, Netherlands

<https://eurodentistry.dentalcongress.com/>

Invitation

Dear Colleagues,

Conference Series LLC Ltd. is delighted to welcome you to Amsterdam, Netherlands for Euro Dentistry 2019.

The conference will focus on “Discovering New Exploration in Dental & Oral Health”. We are confident that you will enjoy the scientific sessions of this upcoming conference.

As the premier event, we have developed a program with your interests in mind. We have not only increased the number of opportunities for you to network with colleagues from across the world but also introduced more focused sessions that will feature cutting edge presentations, special panel discussions, and livelier interaction with industry leaders and experts.

Life is full of give and take. Make it count in your professional life. Attend the Euro Dentistry 2019 Conference to network with your peers, exchange expertise and experiences, and arm yourself with the latest information to take your department to the next level.

We look forward to see you in Amsterdam, Netherlands this September

Sincerely,

Euro Dentistry 2019

Organizing Committee

What is Euro Dentistry 2019 ?

Host City

Amsterdam is the capital city. It is the most populous municipality of the Netherlands Amsterdam has a population of 851,373 within the city proper, 1,351,587 in the urban area, and 2,410,960 in the Amsterdam metropolitan area. The city is located in the province of North Holland in the west of the country but is not its capital, which is Haarlem. The metropolitan area comprises much of the northern part of the Randstad, one of the larger conurbations in Europe, with a population of approximately 7 million. Amsterdam's name derives from Amstelredamme, indicative of the city's origin around a dam in the river Amstel. Amsterdam became one of the most important ports in the world during the Dutch Golden Age (17th century), a result of its innovative developments in trade. During that time, the city was the leading center for finance and diamonds. In the 19th and 20th centuries the city expanded, and many new neighborhoods and suburbs were planned and built. The 17th-century canals of Amsterdam and the 19–20th century Defence Line of Amsterdam are on the UNESCO World Heritage List. Amsterdam's main attractions, including its historic canals, the Rijksmuseum, the Van Gogh Museum, the Stedelijk Museum, Hermitage Amsterdam, the Anne Frank House, the Amsterdam Museum, its red-light district, and its many cannabis coffee shops draw more than 5 million international visitors annually It is also the world's most multicultural city with at least 177 nationalities represented. Amsterdam also boasts a clutch of smaller, more eccentric museums, which deal with anything from drugs to deformities (yes, really). Highlights include the Torture Museum, Sex Museum, Hemp Museum, Funeral Museum and Museum Vrolik, where visitors will find an unnerving collection of human malformations (many pickled in jars) as accrued by the 18th-century scientist, Gerardus Vrolik. The best time to visit Amsterdam is September and November.

Vision & Plan

International Market Approach

Digital innovations are rapidly transforming the healthcare industry and the global dental market is expected witness major positive impact from these technological breakthroughs in the coming years. Digital technologies like cloud, 3D printing, and several other innovations are all set to trigger the growth of the dental market size

Visitors by Country

Dental Market Insights

The increasing number of cosmetic dentistry and orthodontic treatments will be one of the primary factors that will trigger the growth of the dental implants market. It is expected that factors such as the availability of advanced dental implants, the presence of prosthetic products such as dental crowns, and the increasing investments in R&D for the development of dental implants, will positively impact the growth of the tooth implant segment. One of the primary drivers for dental imaging is the rising edentulous population coupled with the increasing demand for oral care. Factors such as age, periodontal diseases, dental caries, and other dental conditions are some of the main reasons for this rapid increase in the demand for dental imaging. The growing prevalence of oral diseases such as tooth decay, chronic bad breath, and periodontal diseases, and bleeding gums are some of the major factors for the dental market's steady growth. Also, the growing number of dental implant procedures and advances in dentomaxillofacial surgeries is driving the market.

Global Dental Market:

Global dentistry market witnessed healthy growth during the last decade and is expected to register CAGR of 4.9% between 2016 and 2021, to reach USD 7.52 Billion by 2021. Growth in this market can primarily be attributed to factors such as the rapid growth in aging population, increasing demand for cosmetic dentistry, and growing incidence of dental caries and other periodontal diseases.

29 dentists/ 100000 inhabitants

Total no. of dental schools: 550

Sponsorship and Exposure

Diamond

- Three workshop slots (audio visual included).
- Two complimentary exhibit booths with priority to purchase exhibition space and choose booth location (Booth size-3X3 sqm)
- Four complimentary registrations
- Logo recognition on congress website front page with link, sponsorship page
- One A4 color advertisement in the congress souvenir
- Three inserts provided by the sponsor in the congress delegate bags

Platinum

- Two corporate sponsored workshop slots
- One complimentary exhibit booth with priority to purchase exhibition space and choose booth location (Booth size-3X3 sqm)
