Pharmaceutical
Sciences 2019

Exploring the Cutting Edge & Futuristic Technologies in Pharmaceutical Sciences and Drug Delivery Systems

Conference Dedicated to Innovate Solution to the Drug Discovery and Drug Delivery Challenges

Your single Destination to reach Largest Assemblage of participants from pharmaceutical and Healthcare Community

Opportunity beyond any Comparison to Attend & Network

Experience the Global Ambiance with Researchers with Similar Significance

Make New Associations and Fostering Potential Partnerships

Learning & Knowledge in a Single Package

Worldwide Acknowledgement to your Research Profile

Explore the best in Cutting Edge Research

Learn Beyond your Field of Interest

Professional Development to Elevate your Knowledge and Skills

Pharmaceutical Sciences 2019

Speakers Representation from 50+ Countries

1 Conference | 2 Days

15+ Keynote Talks | 30+ Plenary Speakers | 20+ Interactive sessions

Symposia | Workshops | Best Poster Award

200+ Attendees | 50+ Professors | and many more . . .

Greetings!

Welcome to most exciting and fascinating Paris, France!

Within this splendid setting, we plan to deliver a conference that will exceed your expectations.

During this year's Conference, we hope that you will seize the opportunity to rekindle ongoing connections and spark new ones with your colleagues from around the globe. It's with great pleasure and great honor to invite you to the "**2nd International Conference and Exhibition on Pharmaceuticals & Advanced Drug Delivery Systems**" scheduled during **July 05-06, 2019** at **Paris, France**.

The Conference will be organized around the theme "**Exploring the Cutting Edge & Futuristic Technologies in Pharmaceutical Sciences and Drug Delivery Systems.**"

Pharmaceutical Sciences 2019 anticipates more than 300 participants around the globe to experience thought provoking Keynote lectures, Oral & Poster presentations. This year conference will offer ample opportunities for all stakeholders working on Pharmaceuticals and Drug Delivery Systems to expose their research work.

Our conference aims to gather the Researchers, Principal Investigators, Experts, Pharmacologists, Biotechnologist, Pharmacists, Clinical Scientists, Pharmaceutical Entrepreneurs, Healthcare Professionals, Pharmaceutical Industrialists, Business Delegates, Scientists, Professors and students across the globe to provide an international forum for the dissemination of original research results, new ideas and practical development experiences in the field of Pharmaceuticals and Advanced Drug Delivery Systems .

This year's Conference program, coupled with the Business Opportunity Exchange, is an event you can't afford to miss!

Sincerely

Brandon Hewitt

Program Manager | Pharmaceutical Sciences 2019

Organizing Committee

WELCOME MESSAGE

We are back again! Conference that dedicated to Innovate Solution to the Public Health Challenges, one conference which future the shape of Pharmaceuticals and Drug Delivery Systems . Our Conference will organize and allow to access the global researchers around the world in a single platform. Pharmaceutical Sciences 2019 will provide a great opportunity beyond any comparison to attend and network with Pharmaceutical and Healthcare Community.

Join us at our 2019 edition of Pharmaceuticals and Advanced Drug Delivery Systems to Experience the Global Ambiance with the Researchers who work with similar significance of research. Pharmaceutical Sciences 2019 will help you to get answers to all your queries related to your research work and also it creates a great opportunity to make new associations and also helps to foster potential partnerships. Pharmaceutical Sciences 2019 will be a great platform for you to create long lasting relationship with the fellow researchers from Pharmaceutical and Healthcare Community.

Get worldwide acknowledgement to your research profile where more than 55000 Visitors who analyzed our conference website to attend and submit proposals of their research work. Where this was recorded as the highest number of Visitors from both, developed and developing nations. While we penetrate the study of visitor, navigation, and traffic patterns to determine the success of our conference website majority amount of traffic we receive from cities like New York, London, Valencia, Amsterdam, Madrid, Barcelona, Athens, Sydney, Paris, Frankfurt, Tokyo, Osaka, Melbourne, Moscow and Vienna.

Pharmaceutical Sciences 2019 website is attracting 56000+ Pharmacologists, Biotechnologist, Clinical Sentients, Chemists, Healthcare Professionals, Technicians, Pharmacists, Research scientists, Pharmaceutical Associations and Societies, Pharmaceutical companies, Professors and Students..

This unique opportunity that we extend to our speakers and attendees is not being offered by any other conference organizers. Through this the abstracts and research profiles of our speakers and organizing committee members getting global visibility which is an additional feature that you would be receiving in addition to networking opportunities before, during and after the conference.

Pharmaceutical Sciences 2019 salient features

- Meet Academia and Industry visionaries to get inspired
- Expand your knowledge and find solutions to problems
- Knowledge, Benchmarking and Networking offered at one place
- Forge connections and for global networking
- Highly Organized and Structured Scientific programs
- Poster presentations and world class exhibitions
- Participation by Stalwarts from various international societies
- Internationally renowned speakers and scientists representation
- Career guidance for early career researchers and students
- Interesting scientific deliberations and discussions
- Perfect platform for Global Networking

Friday, July 05

08:00-09:00

Registration

09:00-09:30

Opening Ceremony

09:30-10:15

Keynote Forum – 01

10:15-11:00

Keynote Forum – 02

11:00-11:30

Networking Reception and Refreshment

11:30-12:15

Keynote Forum – 03

12:15-12:45

Keynote Forum – 04

12:45-13:15

Business Opportunity Exchange & Lunch

13:15-15:00

Plenary Sessions – 01

15:00-16:00

Parallel Session 01-Hall 1

General Session 02-Hall 2

Parallel Session 03-Hall 3

16:00-16:30

Networking Reception and Refreshment

16:30-18:00

Concurrent Work shops

Saturday, July 06

09:00-09:30

Registration

09:30-10:15

Keynote Forum – 01

10:15-11:00

Keynote Forum – 02

11:00-11:30

Networking Reception and Refreshment

11:30-12:15

Keynote Forum – 03

12:15-12:45

Concurrent Work shops

12:45-13:15

Business Opportunity Exchange & Lunch

13:15-15:00

Plenary Sessions – 02

15:00-16:00

16:00-16:30

Networking Reception and Refreshment

16:30-18:00

Awards Banquet and Closing Ceremony

Purpose

With members from around the world focused on learning about Pharmaceuticals & Advanced Drug Delivery Systems, this is your single best opportunity to reach the largest assemblage of participants from the scientific community.

Conduct demonstrations, distribute information, meet with eminent personalities, and make a splash with latest research innovations at this outstanding event.

Goals

- The conference program emphasizes evidence-based practice, educational innovation, practical application, and peer to peer networking and collaboration.
- The goals of the conference is to provide a transformative professional development and experience
- Bringing together the world's scientific experts to catalyze and advance scientific knowledge about Pharmaceuticals and Drug Delivery Systems to present the most recent research findings, and promote and enhance scientific collaborations around the world.
- Bringing together community leaders, scientists, and policy leaders to promote and enhance programmatic collaborations to more effectively address Drug Discovery and Drug Delivery problems and overcome barriers that limit access to care and services.

Objectives

- After participating in this meeting, attendees should be able to
- Discuss emerging issues in Drug Development & Drug Delivery Systems
- Discuss and apply recent research findings related to Pharmaceuticals & Drug Delivery
- Disseminate the diverse voices of breakthrough innovators with visionary and practical solutions.

Who should attend?

Professors, Doctors, Students and Research Scholars from Universities and Colleges, Academicians, Researchers, Scientists from Research Institutes, Pharmaceutical firms, Clinical Scientists, Pharmacologists, Pharmacists, Biotechnologist, Pharmaceutical Industrialists, Business Delegates, Healthcare Professionals and Pharmaceutical Entrepreneurs..

CPD

Pharmaceutical Sciences 2019 has been planned and implemented in accordance with the accreditation requirements and policies of the Accreditation Committee

The live format of this educational activity will be accredited with CPD Credits.

Diverse Action-Oriented Programming & Networking

EXPERIENCE: Inspiring change around the country and world, growing a revolution from the heart of Pharmaceuticals and Drug Delivery research.

EXPLORE the forefront of breakthrough ideas and models in electrifying morning keynote talks, featuring luminaries and “the greatest people you’ve never heard of.”

PARTICIPATE in afternoon panels and workshops/symposiums on diverse topics of Pharmaceuticals and Drug Delivery Systems and more!

NETWORK with a community of leadership – dynamic change makers from around the country and world, or from your region, to develop important professional and personal relationships.

SHARE your insights and learning at the conference in participatory and experiential workshops.

DISCOVER powerful opportunities and strategies for creating and engaging with progressive change in your work, life and community.

CELEBRATE how great a difference one person can make, and how building community amplifies that change.

Salient Features

- Robust on-line publicity for all the speakers and organizing committee members
- Career Guidance Workshops for students and early career researchers
- Accepted Abstracts will be published in various indexed journals
- Accepted abstracts will be labeled with a Digital Object Identification Number (DOI) provided by Cross Ref
- Creation of speakers and abstracts pages in Google
- Opportunity to publish full Manuscripts in our Open Access Journals

Scientific Sessions

Drug Targeting & Design
Pharmacokinetics & Drug Interactions
Pharmacodynamics
Pharmacogenomics
Pharmacology & Toxicology
Pre-formulation & Formulation Aspects
Pharmaceutical Technology
Industrial Microbiology & Biotechnology
Pharmaceutical Chemistry & Medicinal Chemistry
Regulatory Affairs & Requirements
Advanced Pharmacotherapy
Biotherapy & Radiopharmaceutics
Gene & Cell Therapy

Phytotherapy & Drug Delivery
Challenges in Drug Delivery
Advances in Drug Delivery Research
Pharmaceutical Nanotechnology
Nanotechnology & Drug Carrier Systems
Novel Drug Delivery System
Targeted Drug delivery system
Alternative Drug Delivery Systems
Peptides & Protein Drug Delivery
Pharmacovigilance & Drug Safety
Advanced Drug Delivery Systems

Pharmaceutical Sciences 2019 Outlook

Explore the best in Cutting edge Research

Change to learn beyond your field of Interest

Keynote sessions by worlds most eminent and distinguished researchers

Conference Participation Inspires, Rejuvenate and Energize participants

Pharmaceutical Sciences 2019 is an unique platform to increase your reputation within the Pharmaceutical Sector

Learning and Knowledge in a single package

Speaker's representation from 50+ Countries

1 Conference | 2 Days

Pharmaceuticals is one of the main and essential Sectors for the welfare of human society and it is also one of the largest in the global economy. The total value of the sector is over \$5 trillion. It is one thousand-fold more when compared to what it was in the 1920s. Moreover, the pharmaceutical industry is likely to triple in size in by 2060 and the pharmaceutical industry is around 30% larger than previously thought and is one of top five in the global economy.

The total market value of Drug delivery technology is estimated to reach USD 1,669.40 Billion by 2021 from USD 1,179.20 Billion in 2016, at a CAGR of 7.2% during the forecast period.

The worldwide prescription drug sales is \$774 billion in 2017 and \$811 in 2018. The prescription drug sales revenues are expected to reach over one trillion U.S. dollars by 2022. There is an increasing growth in sales of biological products as well. Pharma market areas such as Generic drugs, Rare disease therapeutics, Active pharmaceutical ingredients (API) are rapidly growing. Packaging and logistics also growing along with the main pharma market.

The Pharma market nowadays is dramatically changing due to new innovative research and demand for new therapeutics and new regulatory policies and requirements. There is an increasing demand for generic drugs from countries such as the Russia, France, USA, China and India was observed in recent years and developing drugs for the rare disease has become increasingly mainstream. Because of high market value and comparatively low development costs, this area has a considerable investment. Rare disease therapeutics companies have a become an important growing part of the pharmaceutical marketplace.

According to an estimate performed in October 2017, the total market value of the top 20 rare disease non-oncology companies was about \$315 billion and for rare disease oncology companies was about \$193 billion. Many oncology-based companies have proceeded rare forms of cancer for approvals. And now, the rare disease market segment is more than a half trillion in value. So, a Continued Growth in Rare Disease Sector is expected in the future. For Active Pharmaceutical Ingredients (API), in terms of geographic regions the market research and analysis estimate that, France will be one of the major revenue contributors to the API market throughout the next four years.

And certain pharmaceutical companies are now focusing on developing new innovative therapeutics such as Peptide Therapeutics, Nucleic Acid Therapeutics and Cell Therapy. Specifically, a new field of research, Bioelectronics & Electroceuticals. All these innovative approaches will create a revolution in the pharma sector.

France is one of the predominantly dominating countries in pharma sector in most of the aspects. With respect to investments for R&D in pharmaceutical sector France plays a key role globally.

Other key players include USA, China, Japan, Germany, and Russia

Why Paris?

Paris is among the three most important and influential cities in the world. Also, one of the most visited cities in the world and among the top 10 cities to live in.

It is one of the largest inter-modal ports in the world and a major transportation hub in France. Paris is a global city, a thriving centre of international trade and commerce, and a place where people of every nationality come to pursue their career.

With respect to Research and Development, Paris is one of the major centres in the world. The Greater Paris Region is a leader in terms of R&D accounting for 7.5% of European expenditure on R&D on a European level.

Besides, this is a city to be toured, The River Seine is a socializing hotspot with jaw-dropping city and river views. Disneyland Paris is for the kid in all of us. At world-renowned Luxembourg Gardens, capture the perfect selfie at the tree-lined promenades, and revel in the virtual reality of Medici Fountain. Visit Louvre Museum, the world's most visited museum, housing a collection of more than 1 million objects. Take a tour at the Champs-Élysées, Paris's most famous street and has even been described as the most beautiful avenue in the world. Gasp at the Palace of Versailles with magnificent gardens and the Hall of Mirrors, Finally, visit the iconic symbol of Paris, one of the most photographed tourist attractions in the world, and much more to explore.

R&D in Paris:

France's leading R&D centre with 100,000 researchers

The Greater Paris Region is a major centre for French Research and Development and is the focus of over 40% of both R&D expenditure and staff. In 2011, €18.4 billion was spent on R&D in the Greater Paris Region, two thirds of which came from businesses. The total number of jobs in R&D stood at 150,000 including 100,000 researchers.

In order to maintain and stimulate this regional strength, various initiatives have been undertaken by the State and the region:

The creation of the "Credit d'Impôt Recherche" (CIR – Research tax credit) which aims to encourage Research and Development by allowing businesses to reduce their tax liabilities in line with their expenditure on R&D (experimental research, applied research and experimental development). This tax credit reduces the amount of Corporation Tax owed by a company and can account for up to 30% of annual expenditure on R&D.

Establishment of "Clusters" dedicated to Research Technologies, in order to stimulate Research and encourage collaboration between public and private establishments. Various competitiveness centres have been established in the Greater Paris Region. Particularly worthy of note among the major centres is one in Saclay which is dedicated to new technologies and a health and bio-technology centre to the South of the region between Villejuif and Evry.

The CIR scheme is considered as very attractive for R&D investment (linked to the presence of major groups, innovative SMEs and SMIs public laboratories and student researchers) and aims to create a favourable business environment which should allow Paris to continue as a global centre for Research over the coming years

Palais Garnier

Conciergerie

Disneyland Paris

Musee d'Orsay

Place de la Concorde

Seine Cruise

Accompany Partners' Policy:

We respectfully remind you that partners accompanying delegates/speakers are not eligible to attend conference sessions and do not qualify for refreshments and lunches during the day unless they have registered.

Any partner wishing to attend events not previously selected and paid for in his or her registration may do so at the Conference Registration desk.

Registration and Accommodation

Policy:

Registration and accommodation changes will not be accepted unless made in writing.

Changes made within 14 days of the event may incur costs due to specific hotel and venue policies

Cancellation Policy:

Registration cancellations will not be accepted unless made in writing.

Cancellations request made before 05 June, 2019 will be refunded less 25% of the Conference Registration fee, to cover administration costs.

No registration refunds will be processed after this date, however, substitute delegates are welcome.
