

Pharmaceutics & Advanced Drug Delivery Systems

July 05-06, 2019 | Paris, France

	Tentative Program
	Day 1 July 05, 2019 Friday
08:30-09:00	Registrations & Souvenir Distribution
09:00-09:30	Opening Ceremony
	Keynote Forum
09:30-10:20	Title: Photodynamically inactivated Leishmania as a carrier for safe and effective delivery of vaccines against infectious and malignant diseases
	Kwang Poo Chang, Rosalind Franklin University, USA
10:20-11:10	Title: A Novel Intracutaneous Microneedle Delivery System for the Treatment of Acute Migraine
	Hayley Lewis, Zosano Pharma Corporation, USA
	Group Pho
	Networking & Refreshment Break: 11:10-11:30 @ Breakout Are
11:30-12:20	Title: Exosomes: Growing Interest as Vectors of Molecular Entities
11.50-12.20	William Whitford, GE Healthcare, USA
Sessions: Ad	vances in Drug Delivery Research Pre-formulation & Formulation Aspects Pharmaceutical Technology
Session Chai	r: Hayley Lewis, Zosano Pharma Corporation, USA
	Session Introduction: 12:20-12:2
12:30-12:50	Title: Hormonal cascades of pregnancy: How drug delivery can regulate peri and post-partum neurogenesis and emotional outcomes among women
	Tabinda hasan, Princess Nourah University, KSA
12:50:13:10	Title: Water inclusion effect on starch 1500 as an excipient used in the production of the oral solid dosage form
12.50.15.10	Saeid Rajabnezhad, University of Sussex, United Kingdom
	Lunch Break: 13:10-14:10 @ Restauran
14:10-14:30	Lunch Break: 13:10-14:10 @ Restaurar Slot Available
14:30-14:50	Slot Available Slot Available
14:30-14:50 Sessions: Pha	Slot Available Slot Available armacokinetics & Drug Interactions Pharmacology & Toxicology Biotherapy & Radiopharmaceutics
14:30-14:50 Sessions: Pha	Slot Available Slot Available Irmacokinetics & Drug Interactions Pharmacology & Toxicology Biotherapy & Radiopharmaceutics r: William Whitford, GE Healthcare, USA
14:30-14:50 Sessions: Pha	Slot Available Slot Available armacokinetics & Drug Interactions Pharmacology & Toxicology Biotherapy & Radiopharmaceutics r: William Whitford, GE Healthcare, USA Session Introduction: 14:50-16:0
Session Chai	Slot Available Slot Available urmacokinetics & Drug Interactions Pharmacology & Toxicology Biotherapy & Radiopharmaceutics r: William Whitford, GE Healthcare, USA Session Introduction: 14:50-16:0 Title: The influence of eudragits and PVP on the modified release of Furosemide
14:30-14:50 Sessions: Pha Session Chai	Slot Available Slot Available rmacokinetics & Drug Interactions Pharmacology & Toxicology Biotherapy & Radiopharmaceutics r: William Whitford, GE Healthcare, USA Session Introduction: 14:50-16:0 Title: The influence of eudragits and PVP on the modified release of Furosemide Marilena Vlachou, National and Kapodistrian University of Athens, Greece
14:30-14:50 Sessions: Pha Session Chai	Slot Available Slot Available rmacokinetics & Drug Interactions Pharmacology & Toxicology Biotherapy & Radiopharmaceutics r: William Whitford, GE Healthcare, USA Session Introduction: 14:50-16:00 Title: The influence of eudragits and PVP on the modified release of Furosemide Marilena Vlachou, National and Kapodistrian University of Athens, Greece Networking & Refreshment Break: 16:20-16:40 @ Breakout Are
14:30-14:50 Sessions: Pha Session Chai	Slot Available Slot Available armacokinetics & Drug Interactions Pharmacology & Toxicology Biotherapy & Radiopharmaceutics r: William Whitford, GE Healthcare, USA Session Introduction: 14:50-16:0 Title: The influence of eudragits and PVP on the modified release of Furosemide Marilena Vlachou, National and Kapodistrian University of Athens, Greece Networking & Refreshment Break: 16:20-16:40 @ Breakout Are Title: Piscicidal plants of Nepal: Toxicity Screening on fish
14:30-14:50 Sessions: Pha Session Chai 16:00 -16:20	Slot Available Slot Available armacokinetics & Drug Interactions Pharmacology & Toxicology Biotherapy & Radiopharmaceutics r: William Whitford, GE Healthcare, USA Session Introduction: 14:50-16:0 Title: The influence of eudragits and PVP on the modified release of Furosemide Marilena Vlachou, National and Kapodistrian University of Athens, Greece Networking & Refreshment Break: 16:20-16:40 @ Breakout Are Title: Piscicidal plants of Nepal: Toxicity Screening on fish Augusthy Kulakkattolickal, City Colleges of Chicago, USA
14:30-14:50 Sessions: Pha Session Chai 16:00 -16:20	Slot Available Slot Available rmacokinetics & Drug Interactions Pharmacology & Toxicology Biotherapy & Radiopharmaceutics r: William Whitford, GE Healthcare, USA Session Introduction: 14:50-16:0 Title: The influence of eudragits and PVP on the modified release of Furosemide Marilena Vlachou, National and Kapodistrian University of Athens, Greece Networking & Refreshment Break: 16:20-16:40 @ Breakout Are Title: Piscicidal plants of Nepal: Toxicity Screening on fish Augusthy Kulakkattolickal, City Colleges of Chicago, USA Title: Comparative Pharmacokinetic study of Ledipasvir after single dose using novel methodology
14:30-14:50 Sessions: Pha Session Chai 16:00 -16:20 16:40-17:00	Slot Available Slot Available rmacokinetics & Drug Interactions Pharmacology & Toxicology Biotherapy & Radiopharmaceutics r: William Whitford, GE Healthcare, USA Session Introduction: 14:50-16:0 Title: The influence of eudragits and PVP on the modified release of Furosemide Marilena Vlachou, National and Kapodistrian University of Athens, Greece Networking & Refreshment Break: 16:20-16:40 @ Breakout Are Title: Piscicidal plants of Nepal: Toxicity Screening on fish Augusthy Kulakkattolickal, City Colleges of Chicago, USA Title: Comparative Pharmacokinetic study of Ledipasvir after single dose using novel methodology Saad A Alkahtani, Najran University, KSA
14:30-14:50 Sessions: Pha Session Chai 16:00 -16:20 16:40-17:00 17:20-17:40	Slot Available Slot Available rmacokinetics & Drug Interactions Pharmacology & Toxicology Biotherapy & Radiopharmaceutics r: William Whitford, GE Healthcare, USA Session Introduction: 14:50-16:0 Title: The influence of eudragits and PVP on the modified release of Furosemide Marilena Vlachou, National and Kapodistrian University of Athens, Greece Networking & Refreshment Break: 16:20-16:40 @ Breakout Are Title: Piscicidal plants of Nepal: Toxicity Screening on fish Augusthy Kulakkattolickal, City Colleges of Chicago, USA Title: Comparative Pharmacokinetic study of Ledipasvir after single dose using novel methodology Saad A Alkahtani, Najran University, KSA Title: Detecting and profiling extracellular miRNAs among some Wilms tumor Moroccan patients using molecular
14:30-14:50 Sessions: Pha Session Chai 16:00 -16:20 16:40-17:00	Slot Available Slot Available rmacokinetics & Drug Interactions Pharmacology & Toxicology Biotherapy & Radiopharmaceutics r: William Whitford, GE Healthcare, USA Session Introduction: 14:50-16: Title: The influence of eudragits and PVP on the modified release of Furosemide Marilena Vlachou, National and Kapodistrian University of Athens, Greece Networking & Refreshment Break: 16:20-16:40 @ Breakout Are Title: Piscicidal plants of Nepal: Toxicity Screening on fish Augusthy Kulakkattolickal, City Colleges of Chicago, USA Title: Comparative Pharmacokinetic study of Ledipasvir after single dose using novel methodology Saad A Alkahtani, Najran University, KSA Title: Detecting and profiling extracellular miRNAs among some Wilms tumor Moroccan patients using molecular biology tools
14:30-14:50 Sessions: Pha Session Chai 16:00 -16:20 16:40-17:00 17:20-17:40 17:40-18:00	Slot Available Slot Available rmacokinetics & Drug Interactions Pharmacology & Toxicology Biotherapy & Radiopharmaceutics r: William Whitford, GE Healthcare, USA Session Introduction: 14:50-16:0 Title: The influence of eudragits and PVP on the modified release of Furosemide Marilena Vlachou, National and Kapodistrian University of Athens, Greece Networking & Refreshment Break: 16:20-16:40 @ Breakout Are Title: Piscicidal plants of Nepal: Toxicity Screening on fish Augusthy Kulakkattolickal, City Colleges of Chicago, USA Title: Comparative Pharmacokinetic study of Ledipasvir after single dose using novel methodology Saad A Alkahtani, Najran University, KSA Title: Detecting and profiling extracellular miRNAs among some Wilms tumor Moroccan patients using molecular biology tools Sara Benlhachemi, National Center of Scientific and Technical Research, Morocco
14:30-14:50 Sessions: Pha Session Chai 16:00 -16:20 16:40-17:00 17:20-17:40 17:40-18:00 18:00-18:20	Slot Available Slot Available strmacokinetics & Drug Interactions Pharmacology & Toxicology Biotherapy & Radiopharmaceutics r: William Whitford, GE Healthcare, USA Session Introduction: 14:50-16:0 Title: The influence of eudragits and PVP on the modified release of Furosemide Marilena Vlachou, National and Kapodistrian University of Athens, Greece Networking & Refreshment Break: 16:20-16:40 @ Breakout Are Title: Piscicidal plants of Nepal: Toxicity Screening on fish Augusthy Kulakkattolickal, City Colleges of Chicago, USA Title: Comparative Pharmacokinetic study of Ledipasvir after single dose using novel methodology Saad A Alkahtani, Najran University, KSA Title: Detecting and profiling extracellular miRNAs among some Wilms tumor Moroccan patients using molecular biology tools Sara Benlhachemi, National Center of Scientific and Technical Research, Morocco Slot Available
14:30-14:50 Sessions: Pha Session Chai 16:00 -16:20 16:40-17:00 17:20-17:40 17:40-18:00 18:00-18:20	Slot Available Slot Available rmacokinetics & Drug Interactions Pharmacology & Toxicology Biotherapy & Radiopharmaceutics r: William Whitford, GE Healthcare, USA Session Introduction: 14:50-16:0 Title: The influence of eudragits and PVP on the modified release of Furosemide Marilena Vlachou, National and Kapodistrian University of Athens, Greece Networking & Refreshment Break: 16:20-16:40 @ Breakout Are Title: Piscicidal plants of Nepal: Toxicity Screening on fish Augusthy Kulakkattolickal, City Colleges of Chicago, USA Title: Comparative Pharmacokinetic study of Ledipasvir after single dose using novel methodology Saad A Alkahtani, Najran University, KSA Title: Detecting and profiling extracellular miRNAs among some Wilms tumor Moroccan patients using molecular biology tools Sara Benlhachemi, National Center of Scientific and Technical Research, Morocco Slot Available Slot Available
14:30-14:50 Sessions: Pha Session Chai 16:00 -16:20 16:40-17:00 17:20-17:40 17:40-18:00 18:00-18:20	Slot Available Slot Available Irmacokinetics & Drug Interactions Pharmacology & Toxicology Biotherapy & Radiopharmaceutics r: William Whitford, GE Healthcare, USA Session Introduction: 14:50-16:0 Title: The influence of eudragits and PVP on the modified release of Furosemide Marilena Vlachou, National and Kapodistrian University of Athens, Greece Networking & Refreshment Break: 16:20-16:40 @ Breakout Are Title: Piscicidal plants of Nepal: Toxicity Screening on fish Augusthy Kulakkattolickal, City Colleges of Chicago, USA Title: Comparative Pharmacokinetic study of Ledipasvir after single dose using novel methodology Saad A Alkahtani, Najran University, KSA Title: Detecting and profiling extracellular miRNAs among some Wilms tumor Moroccan patients using molecular biology tools Sara Benlhachemi, National Center of Scientific and Technical Research, Morocco Slot Available Slot Available Networking Session
14:30-14:50 Sessions: Pha Session Chai 16:00 -16:20 16:40-17:00 17:20-17:40 17:40-18:00 18:00-18:20	Slot Available Imacokinetics & Drug Interactions Pharmacology & Toxicology Biotherapy & Radiopharmaceutics :: William Whitford, GE Healthcare, USA Session Introduction: 14:50-16:0 Title: The influence of eudragits and PVP on the modified release of Furosemide Marilena Vlachou, National and Kapodistrian University of Athens, Greece Networking & Refreshment Break: 16:20-16:40 @ Breakout Are Title: Piscicidal plants of Nepal: Toxicity Screening on fish Augusthy Kulakkattolickal, City Colleges of Chicago, USA Title: Comparative Pharmacokinetic study of Ledipasvir after single dose using novel methodology Saad A Alkahtani, Najran University, KSA Title: Detecting and profiling extracellular miRNAs among some Wilms tumor Moroccan patients using molecular biology tools Sara Benlhachemi, National Center of Scientific and Technical Research, Morocco Slot Available Slot Available Networking Session Day 2 July 06, 2019 Saturday
14:30-14:50 Sessions: Pha Session Chai 16:00 -16:20 16:40-17:00 17:20-17:40 17:40-18:00 18:00-18:20	Slot Available Imacokinetics & Drug Interactions Pharmacology & Toxicology Biotherapy & Radiopharmaceutics :: William Whitford, GE Healthcare, USA Session Introduction: 14:50-16:0 Title: The influence of eudragits and PVP on the modified release of Furosemide Marilena Vlachou, National and Kapodistrian University of Athens, Greece Networking & Refreshment Break: 16:20-16:40 @ Breakout Are Title: Piscicidal plants of Nepal: Toxicity Screening on fish Augusthy Kulakkattolickal, City Colleges of Chicago, USA Title: Comparative Pharmacokinetic study of Ledipasvir after single dose using novel methodology Saad A Alkahtani, Najran University, KSA Title: Detecting and profiling extracellular miRNAs among some Wilms tumor Moroccan patients using molecular biology tools Sara Benlhachemi, National Center of Scientific and Technical Research, Morocco Slot Available Slot Available Day 2 July 06, 2019 Saturday Keynote Forum
14:30-14:50 Sessions: Pha Session Chai 16:00 -16:20 16:40-17:00 17:20-17:40	Slot Available Imacokinetics & Drug Interactions Pharmacology & Toxicology Biotherapy & Radiopharmaceutics r: William Whitford, GE Healthcare, USA Session Introduction: 14:50-16:0 Title: The influence of eudragits and PVP on the modified release of Furosemide Marilena Vlachou, National and Kapodistrian University of Athens, Greece Networking & Refreshment Break: 16:20-16:40 @ Breakout Are Title: Piscicidal plants of Nepal: Toxicity Screening on fish Augusthy Kulakkattolickal, City Colleges of Chicago, USA Title: Comparative Pharmacokinetic study of Ledipasvir after single dose using novel methodology Saad A Alkahtani, Najran University, KSA Title: Detecting and profiling extracellular miRNAs among some Wilms tumor Moroccan patients using molecular biology tools Sara Benlhachemi, National Center of Scientific and Technical Research, Morocco Slot Available Networking Session Day 2 July 06, 2019 Saturday Keynote Forum Title: Epigenetic mechanisms in pharmacological drug discovery and toxicity studies to predict the pathogenesis of human diseases in the era of "precision medicine" and of the global metabolic disease crisis
14:30-14:50 Sessions: Pha Session Chai 16:00 -16:20 16:40-17:00 17:20-17:40 17:40-18:00 18:00-18:20 18:20-18:40	Slot Available Slot Available rrmacokinetics & Drug Interactions Pharmacology & Toxicology Biotherapy & Radiopharmaceutics r: William Whitford, GE Healthcare, USA Session Introduction: 14:50-16:0 Title: The influence of eudragits and PVP on the modified release of Furosemide Marilena Vlachou, National and Kapodistrian University of Athens, Greece Networking & Refreshment Break: 16:20-16:40 @ Breakout Are Title: Piscicidal plants of Nepal: Toxicity Screening on fish Augusthy Kulakkattolickal, City Colleges of Chicago, USA Title: Comparative Pharmacokinetic study of Ledipasvir after single dose using novel methodology Saad A Alkahtani, Najran University, KSA Title: Detecting and profiling extracellular miRNAs among some Wilms tumor Moroccan patients using molecular biology tools Sara Benlhachemi, National Center of Scientific and Technical Research, Morocco Slot Available Day 2 July 06, 2019 Saturday Keynote Forum Title: Epigenetic mechanisms in pharmacological drug discovery and toxicity studies to predict the pathogenesis of human diseases in the era of "precision medicine" and of the global metabolic disease crisis James E Trosko, Michigan State University, USA
14:30-14:50 Sessions: Pha Session Chai 16:00 -16:20 16:40-17:00 17:20-17:40 17:40-18:00 18:00-18:20 18:20-18:40	Slot Available Slot Available Irmacokinetics & Drug Interactions Pharmacology & Toxicology Biotherapy & Radiopharmaceutics r: William Whitford, GE Healthcare, USA Session Introduction: 14:50-16:0 Title: The influence of eudragits and PVP on the modified release of Furosemide Marilena Vlachou, National and Kapodistrian University of Athens, Greece Networking & Refreshment Break: 16:20-16:40 @ Breakout Are Title: Piscicidal plants of Nepal: Toxicity Screening on fish Augusthy Kulakkattolickal, City Colleges of Chicago, USA Title: Comparative Pharmacokinetic study of Ledipasvir after single dose using novel methodology Saad A Alkahtani, Najran University, KSA Title: Detecting and profiling extracellular miRNAs among some Wilms tumor Moroccan patients using molecular biology tools Sara Benlhachemi, National Center of Scientific and Technical Research, Morocco Slot Available Slot Available Day 2 July 06, 2019 Saturday Keynote Forum Title: Epigenetic mechanisms in pharmacological drug discovery and toxicity studies to predict the pathogenesis of human diseases in the era of "precision medicine" and of the global metabolic disease crisis James E Trosko, Michigan State University, USA Title: Artificial intelligence alg
14:30-14:50 Sessions: Pha Session Chai 16:00 -16:20 16:40-17:00 17:20-17:40 17:40-18:00 18:00-18:20 18:20-18:40 09:30-10:20	Slot Available trmacokinetics & Drug Interactions Pharmacology & Toxicology Biotherapy & Radiopharmaceutics tr: William Whitford, GE Healthcare, USA Session Introduction: 14:50-16:0 Title: The influence of eudragits and PVP on the modified release of Furosemide Marilena Vlachou, National and Kapodistrian University of Athens, Greece Networking & Refreshment Break: 16:20-16:40 @ Breakout Are Title: Piscicidal plants of Nepal: Toxicity Screening on fish Augusthy Kulakkattolickal, City Colleges of Chicago, USA Title: Comparative Pharmacokinetic study of Ledipasvir after single dose using novel methodology Saad A Alkahtani, Najran University, KSA Title: Detecting and profiling extracellular miRNAs among some Wilms tumor Moroccan patients using molecular biology tools Sara Benlhachemi, National Center of Scientific and Technical Research, Morocco Slot Available Networking Session Day 2 July 06, 2019 Saturday Keynote Forum Title: Epigenetic mechanisms in pharmacological drug discovery and toxicity studies to predict the pathogenesis of human diseases in the era of "precision medicine" and of the global metabolic disease crisis James E Trosko, Michigan State University, USA Title: Artificial intelligence algorithms for Biomarker Discovery, Therapeutic Target Discovery and Pathw

Pharmaceutical Sciences 2019

Pharmaceutics & Advanced Drug Delivery Systems

July 05-06, 2019 | Paris, France

	Title: Oral peptide delivery by a novel lipid-based system
11:30-12:20	Gert Fricker, Ruprecht-Karls University Heidelberg, Germany
12:20-13:10	Title: Advances in Non-Invasive Routes of Administration of Peptides: Focus on Successful Oral Technologies Progressing in the Clinic
12.20-15.10	
	Joël Richard, IPSEN, France Lunch Break: 13:10-14:10 @ Restauran
Pagaiona, Cli	nical Pharmacy & Pharmacy Practice Advanced Pharmacotherapy Pharmaceutical Chemistry & Medicinal
Chemistry	incar Fharmacy & Fharmacy Fractice Auvanceu Fharmacoulerapy Fharmaceutear Chemistry & Medicinar
	r: Tabinda hasan, Princess Nourah University, KSA
	Session Introduction: 14:10-14:2
14:20-14:40	Title: Treating the twin problem of pain and infection in chronic ulcers using biologically active advanced medicated dressings
14 40 15 00	Joshua Boateng, University of Greenwich, UK
	Title: Hepatoprotective effect of achyranthes aspera extract on non-alcoholic fatty liver in mice
14:40:15:00 15:00:15:20	Tae Woo Oh, Korea Institute of Oriental Medicine, South Korea
	Title: Development and characterization of novel lyophilized wound dressings for the treatment of hard to heal wounds
	Meena Afzali, University of Greenwich, UK
	Title: Novel approaches for endogenous heart repair
15:20:15:40	Tamer Mohamed, University of Louisville, USA
15:40-16:00	Slot Available
	Networking & Refreshment Break: 16:00-16:20 @ Breakout Are
	The working a Reflesiment Break. 10:00 10:20 (g) Breakout file
Sessions: Phy	totherapy & Drug Delivery Nanotechnology & Drug Carrier Systems Alternative Drug Delivery Systems
	totherapy & Drug Delivery Nanotechnology & Drug Carrier Systems Alternative Drug Delivery Systems
Session Chai	rtotherapy & Drug Delivery Nanotechnology & Drug Carrier Systems Alternative Drug Delivery Systems r: James E Trosko, Michigan State University, USA
	rtotherapy & Drug Delivery Nanotechnology & Drug Carrier Systems Alternative Drug Delivery Systems r: James E Trosko, Michigan State University, USA Session Introduction: 16:20-16:3
Session Chair 16:30-16:50	rtotherapy & Drug Delivery Nanotechnology & Drug Carrier Systems Alternative Drug Delivery Systems r: James E Trosko, Michigan State University, USA Session Introduction: 16:20-16:3 Title: Methacrylated Chitosan with improved Mucoadhesiveness for transmucosal application
Session Chair 16:30-16:50	totherapy & Drug Delivery Nanotechnology & Drug Carrier Systems Alternative Drug Delivery Systems r: James E Trosko, Michigan State University, USA Session Introduction: 16:20-16:3 Title: Methacrylated Chitosan with improved Mucoadhesiveness for transmucosal application Oluwadamilola Kolawole, University of Reading, UK Title: Advances and Challenges in Functionalised Surface Modification of Liposomes for Cytoplasmic Drug Delivery Zimei Wu, The University of Auckland, New Zealand
Session Chair 16:30-16:50 16:50:17:10	totherapy & Drug Delivery Nanotechnology & Drug Carrier Systems Alternative Drug Delivery Systems :: James E Trosko, Michigan State University, USA Session Introduction: 16:20-16:3 Title: Methacrylated Chitosan with improved Mucoadhesiveness for transmucosal application Oluwadamilola Kolawole, University of Reading, UK Title: Advances and Challenges in Functionalised Surface Modification of Liposomes for Cytoplasmic Drug Delivery Zimei Wu, The University of Auckland, New Zealand Title: Fungicidal activity study of capped and uncapped metallic nanoparticles based on trichoderma harzianum
Session Chaii 16:30-16:50 16:50:17:10	totherapy & Drug Delivery Nanotechnology & Drug Carrier Systems Alternative Drug Delivery Systems r: James E Trosko, Michigan State University, USA Session Introduction: 16:20-16:3 Title: Methacrylated Chitosan with improved Mucoadhesiveness for transmucosal application Oluwadamilola Kolawole, University of Reading, UK Title: Advances and Challenges in Functionalised Surface Modification of Liposomes for Cytoplasmic Drug Delivery Zimei Wu, The University of Auckland, New Zealand
