

International Conference on

Nanotechnology

16-18, Dec 2019

Dubai, UAE

Theme:

**Interdisciplinary Approach for Innovation and Invention in
Nanotechnology**

Invitation

Dear Attendees,

Impact Nanotech 2019 is hosted by IMPACT Conferences. and it is focused on the Innovatory approach for innovation and invention in Nanotechnology. Nanotechnology 2019 aims in proclaim knowledge and share new ideas amongst the professionals, industrialists and students from research areas of Nanotechnology, Materials Science, Chemistry and Physics to share their research experiences and indulge in interactive discussions and technical sessions at the event. The conference will be a platform to globalize one research, to share scientific experiences, to gain knowledge of new technologies and regulations. The conference is scheduled for 16-18, Dec 2019 in Dubai, UAE. We invite sponsors and exhibitor to showcase your products to our participants and make it reach the public through them. We request you to make use of this opportunity to make the world a better place to live in.

IMPACT Nanotech 2019
Operating Committee
IMPACT Conferences

A Transformational Learning Experience

- Curated to address the concerns of today's scientific world
- Be inspired by some of the world's most renowned figures
- Stimulate new ways of thinking and provoke action
- Relish inspiring interaction between peers, leaving you better prepared to face technical and research oriented challenges

Nanotechnology

2019

Why with us?

In today's competitive economic situations, your business decisions are very crucial in order to maximize your financial success. IMPACT Conferences allows you to maximize marketing and minimize your time by providing you immediate feedback on your new products and services.

IMPACT Conferences organizes an outstanding Scientific Exhibition/Program and anticipates attendance by the world's leading specialists involved in fields targeted by your products.

IMPACT Conferences Advisory Board Members/Committee anticipates over 300 participants at the premier events. Your organization will benefit with excellent exposure to the world's leaders in Business and Academia.

Exhibitions at our Conferences will provide you one location to reach your top customers to showcase the new technology and products of your company and/or the services provided by your company, to a broad international audience.

Impact Nanotech 2019 provides a striking opportunity of being connected and gaining contacts with delegates who are active in the concerned field. Networking enables sharpening skills, spark inspiration and uncover new ideas during break-out sessions providing tea and lunch for the delegates. The important subjects are addressed by the expertise keynote speakers with global recognition thus conferring knowledge on the new technologies and the latest drift in the domain. The international Nanotechnology conference accents the prominent keynote speakers, plenary speeches, young research forum, poster presentations, technical workshops and career guidance sessions.

July 08-10, 2019
Prague, Czech Republic
Dec 16-18

2019

Who'd be attending

The International Conference on Nanotechnology plays host for the Multinational organizations, entrepreneurs across the globe, the professionals, industrialists and students from research areas of Nanotechnology, Materials Science, Chemistry and Physics to share their research experiences and indulge in interactive discussions and technical sessions at the event. About hosting organization IMPACT Conferences is one of the world largest and most significant scientific place which serves as a crossroad for the academicians and industry experts to build networks. IMPACT Conferences focuses on to Spearheading the Transformation of Medical Research into Knowledge through Scientific Gatherings and Networking. Supporting the Rare Care UK organization, Our approach has always been unique, and that difference has propelled our growth towards Scientific Serendipity.

Scientific Sessions:

- Nanoscience and Technology
- Nano Materials Synthesis and Characterisation
- Materials Science and Engineering Physics
- Advanced Nanomaterials
- Nano Composites
- Nano Medicine
- Nanotechnology in Water Treatment
- Pharmaceutical Nanotechnology
- Nanotech for Energy and Environment
- Carbon Nanotechnology
- Nano electronics & Nano photonics
- Polymer Nanotechnology
- Nano Chemistry
- Nano Biotechnology
- Graphene & Applications of 2D Materials
- Nanostructured Materials
- Nanoengineering
- Nano GeoScience
- Nano Computational Modelling
- Green Nanotechnology
- Nano Fluidics
- Nano devices and Nano sensors
- Future aspects of Nanotechnology

Nanotechnology

2019

About Destination Dubai

Dubai is the capital city of the United Arab Emirates (UAE), and the largest of the seven emirates federation. Year-round sunshine, pristine beaches, spectacular sand dunes, and pulsating cosmopolitan lifestyle await every guest in Dubai. This emirate is known around the world for its massive oil reserves and majestic mosques with towering minarets. These, combined with the distinct Arabic hospitality and mystique - and world-class infrastructure - make Dubai an excellent destination both for the experienced and novice traveler. Dubai, Arabic Abu Zaby, city and capital of Abu Zaby emirate, one of the United Arab Emirates (formerly the Trucial States, or Trucial Oman), and the national capital of that federation. The city occupies most of a small triangular island of the same name, just off the Persian Gulf coast and connected to the mainland by a short bridge. Dubai was formerly an undeveloped town of only local importance, but the emirate's oil revenues enabled it to evolve into a modern city with a fully developed infrastructure
