About Us

The Talks is formed to arrange international conferences and establish direct communications between the researchers from either similar field or interdisciplinary research activities. We support and promote the free exchange of innovative thoughts in the research areas of Science, Technology, Engineering and Mathematics.

We provide specialized, professional services, and experience from start to finish. Based on our deep associations with an array of convention centers, vendors, and hotel chains, we are devoted to the peak standards of service and reliability. We also encourage and are keen on open communication with the sponsors and the associations. Along with that, we also support project processes, financing, scientific preparation, and industry liaison tracking.

We understand the importance of networking and collaboration for scientific research, and hence, ensure to track more views, genuine feedback, and suggestions from the audience who have incredible insight into the same field.

The Talks provides a valuable means of spreading ideas in ways that are not achieved through the usual scientific meetings. Our focus is to get the best scientific outcome from every event.

How different we are from others?

- Topic specific talks
- Rightful collaborations
- Multi-disciplinary talks & events
- Networking specified events
- Indexed journals support
- High designated organizing members
- Collaborative event approach
- Conference Proceedings in reputed journals
- By attending our events, opportunity of article publishing in INDEXED journal

PARTNERED JOURNAL

Mental health includes our emotional, psychological, and social well-being. It affects how we think, feel, and act. It also helps determine how we handle stress, relate to others, and make choices. Mental health is important at every stage of life, from childhood and adolescence through adulthood.

Family medicine's cornerstone is an ongoing, personal patient-physician relationship focusing on integrated care.

Mental health in Family medicine Indexed by the following major indexing services

PMC Archive, PubMed, NLM ID, Scopus, Google Scholar, Scimago, WorldCat, Genamics JournalSeek, Sherpa/Romeo, University Library, EBSCO PUBLISHING, EMCare, Swetswise, ztoc INFORMING RESEARCH, ULRICHSWEB GLOBAL SERIALS DIRECTORY etc.
