About Us

The Talks is formed to arrange international conferences and establish direct communications between the researchers from either similar field or interdisciplinary research activities. We support and promote the free exchange of innovative thoughts in the research areas of Science, Technology, Engineering and Mathematics.

We provide specialized, professional services, and experience from start to finish. Based on our deep associations with an array of convention centers, vendors, and hotel chains, we are devoted to the peak standards of service and reliability. We also encourage and are keen on open communication with the sponsors and the associations. Along with that, we also support project processes, financing, scientific preparation, and industry liaison tracking.

We understand the importance of networking and collaboration for scientific research, and hence, ensure to track more views, genuine feedback, and suggestions from the audience who have incredible insight into the same field.

The Talks provides a valuable means of spreading ideas in ways that are not achieved through the usual scientific meetings. Our focus is to get the best scientific outcome from every event.

How different are we from others?

- Topic specific talks
- Global Collaborations
- Multi-disciplinary talks & events
- Networking specified events
- Indexed journals support
- High designated organizing members
- Collaborative event approach
- Conference Proceedings in reputed journals
- Added advantage to be published in INDEXED journal

About THE ONCOLOGY TALKS

Scientific Sessions:

- Haematology
- Organ Specific Cancer
- Medical and Clinical Oncology
- Surgical Oncology
- Cancer Genomics & Metabolomics
- Cancer Diagnosis and Treatment
- Biomarkers in Haematology and Oncology
- Cancer Drugs and Vaccines
- Diagnostic and Equipment Market
- Clinical trials in Cancer treatment

Uncontrolled proliferation like neoplasm of cells leads to a dreadful condition called as tumor/cancer which is often turned out to be malignant and the study of diagnosis and treatment is often coined as oncology. Since the ages, living beings are affected by this condition, and many researchers have contributed to the affective treatment of various cancers but found minimal results. But after a great battle science has got the breakthrough in treating cancer during early diagnosis. But soon the current oncologists are working the take steps in eradicating this condition from roots. So, THE TALKS in here to get all the eminent oncologists to form academic and industry to discuss THE TALKS ON ONCOLOGY AND CHEMOTHERAPY.

THE ONCOLOGY TALKS focusses on various fields of cancers like Leukemia, Brain tumor, Sarcomas, Genetic diseases, Epidemiology, cancer Surviving Brain and other central nervous system tumors, etc. This will also be a good platform for networking and finding opportunities for novel research and funding.

One more main advantage of attending THE ONCOLOGY TALKS is the location where we would like you to explore Singapore is one of the prime locations in the Northern Asia which has a tropical climate and multicultural population alongside the interactive sessions. What else you need!

Top-Rated Tourist Attractions in Tokyo

Tokyo, the capital city of Japan, is also home to the Imperial Palace and the seat of Government and Parliament. In East-Central Honshu, the largest of Japan's main islands, this heavily populated city is well worth exploring. One of the world's most modern cities in terms of its infrastructure and design - due largely to the 1923 earthquake and the devastation of WWII - Tokyo also holds the title of the world's most expensive city in which to live; fortunately, it's also one of the easiest to get around thanks to its superb rail and subway networks. The cultural side of Tokyo is famous for its numerous things to do and top attractions, including museums, festivals, internationally noted cuisine, and professional sports clubs, including baseball, football, along with traditional Japanese pursuits like sumo wrestling. It's also a city rich in music and theatre, with numerous venues featuring everything from Japanese to modern dramas, symphony orchestras, and pop and rock concerts. Discover the best places to visit in the city with our list of the top attractions in Tokyo.

- The Imperial Palace
- Ginza District: Shop 'til you Drop
- The Sensō-ji Temple
- National Museum of Nature and Science
- Ueno Park and Zoo
- Tokyo National Museum
- National Museum of Western Art
- The Meiji Shrine
- The Miraikan and Edo-Tokyo Museums
- The Tokyo Skytree

TENTATIVE PROGRAM

Day 1, March 26, 2020 Tokyo, Japan
