# Speakers at World Cancer Conference

**A new immunotherapy schedule in addition to first line hormone therapy for endocrine dependent metastatic breast cancer patients**

**Andrea Nicolini**, Pisa University, Italy

**CXCL12-CXCR4/CXCR7 axis and colon cancer metastases**

**Dominique Guenot**, Research Director, CNRS, France

**Anti-FIR $\Delta$ exon2, a splicing variant form of PUF60, auto-antibody is detected in the sera of esophageal squamous cell carcinoma**

**Kazuyuki Matsushita**, Chiba University, Japan.

**Association of Pro-inflammatory Cytokine Gene Polymorphisms and Risk of Hepatitis C Related Hepatocellular Carcinoma**

**Ola Mahmoud**, TBRI, Cairo, Egypt

**Circulating Tumor Cells and Cancer Stem Cells: Clinical Implications in Nonmetastatic Breast Cancer**

**Dr. Mona M Sayed**, South Egypt Cancer Institute, Egypt

**Tunicamycin specifically aggravates ER stress and overcomes chemoresistance in multi-drug resistant gastric cancer cells by inhibiting N-glycosylation**

**Dr. Nie Yongzhan,**

Xijing Hospital of Digestive Diseases, Xi'an, China

**GD2 Expression in Breast Cancer**

**Dr. Giulia Orsi,** University-Hospital of Modena and Reggio Emilia, Italy

**Sonography of the Neoplastic Diseases in the Gastro-Intestinal Tract**

**Dr. Vikas Leelavati Balasaheb Jadhav**

Dr. D. Y. Patil University, India

**The impact of g-irradiation on the induction of bystander killing by genetically engineered ovarian tumor cells: implications for clinical use as Cancer Vaccines.**

**Dr. Jehad Zweiri,** University of Liverpool Medical School, United Kingdom

**The potential importance of hyper cobalaminemia as a possible early marker in the working diagnosis of malignancy and blood disorders**

**Dr. Abdou Shafik Mohamed Deyab,** Alexandria University, Egypt

**Mapping of cerebral metabolic rate of oxygen by DSC and BOLD: a biomarker for hypoxic glial tumour.**

**Golestan Karami**, FFCLRP, University of São Paulo, Brazil

**PPAR $\gamma$  and Cancer Cell**

**Dr. Saghar Yousefnia**, University of Isfahan, Isfahan, Iran

**Epigenetic biomarkers of promoter DNA methylation in the new era of cancer diagnosis.**

**Dr. Keishi Yamashita**, Kitasato University Hospital, Sagami-hara, Kanagawa, Japan
