

5th Global Nanotek Summit

[BioLEAGUES](#) Worldwide invites participants all over the world to take part in “**5th Global Nanotek Summit**” which is going to take place on **November 27th & 28th, 2019** at **Kuala Lumpur, Malaysia**. This summit will revolve around the theme “**Latest Research Insights in Nanotechnology**”. The principal aim of this conference is to bring together all Nanotechnology Scientists, Research Professors, Engineers, Academicians and Scholars specializing in field of Nanotechnology from all over the world to exchange information on technical advances and to discuss progress in Nanotechnology.

[5th Global Nanotek Summit](#) will provide insights on the latest trends and ongoing research advances in Nanotechnology. One of the main aspects of the summit is to keep updated with research and medical practice that include Nano medicine, Nanostructures and applications of Nanotechnology and much more showcasing the detailed and trending researches in the field of Nano Science. The conference provides an International Platform to discuss about one’s research and get experts opinion through which research level will be increased.

This Summit will provide a distinctive opportunity to connect with Researchers and Scientists and to network with the professionals in the concerned field all over the world which broadens the ideas of one’s research ideas and increase the level of inspiration. The conference comprises of keynote speeches delivered by experts in the concerned field, Oral and Poster Presentations by the Young Researchers, Renowned Academicians to discuss the latest research insights in the field of Nanotechnology.

Why to attend?

- Abstracts will be published with DOI number by Cross Ref.
- Plenary Lectures on all sessions of Nanotechnology.
- Handbook & Conference kits provided in the conference.
- Interaction with the international speakers on conference platform.
- Present your latest research as oral or poster presentation.
- Paper will be published in Scopus journals.
- Benefits of scientific gallery provided for the conference.
- Various Opportunities to network and exchange ideas.
- Discover everything in Hong Kong.

CALL FOR PAPER

The Participants, who can submit their paper in following streams.
