

5TH GLOBAL NANOTEK SUMMIT-19

27TH & 28TH NOV 2019

KUALA LUMPUR
MALAYSIA

Dear Aspirants!!

We are back with the next series of Nanotek Summit for the year 2019 following the tremendous success of our last 4-year benchmark events in the field of Nanotechnology.

BioLEAGUES Worldwide, organizing **5th Global Nanotek Summit** at **Kuala Lumpur, Malaysia** during **November 27-28, 2019** in collaboration with generous support and cooperation from enthusiastic academicians and editorial Board Members.

The conference is designed to encourage the exchange of ideas across a broad range of disciplines to make a high-level scientific event that will be of great value for professionals, industrialists and students from research areas of Nano Science.

With the theme "**Latest Research Insights in Nanotechnology**", Nanotek 2019 promises to gather the leaders from across the globe to discuss the major advancements and challenges in the nanoscience for the better future of world.

We look forward to personally welcoming you to Malaysia this November!!

Sincerely
Rajeswari. S
Program Manager
Nanotek 2019

BioLEAGUES Worldwide invites participants all over the world to take part in “5th Global Nanotek Summit” which is going to take place on November 27th & 28th, 2019 at Kuala Lumpur, Malaysia. This summit will revolve around the theme “Latest Research Insights in Nanotechnology”. The principal aim of this conference is to bring together all Nanotechnology Scientists, Research Professors, Engineers, Academicians and Scholars specializing in field of Nanotechnology from all over the world to exchange information on technical advances and to discuss progress in Nanotechnology.

Bioleagues taken the initiative to gather the world class nanotechnologist both from academic and industry in a unique stage at Nanotek 2019 where you can share current research finding to the world and enlighten other esteemed delegates on latest trends in the field of nanotechnology. Nanotek 2019 is fifth in its series of annual scientific events aimed to provide an opportunity for the participants to meet, interact and exchange new ideas in the various areas of Nanotechnology an to forge the networking.

Our conference is an exciting opportunity to showcase the new technology, the new products and service of industry may offer to a broad international audience. It covers a lot of topics like Nano Medicine, Green Nanotechnology, Materials Science and Engineering Physics, Nano Biotechnology, Carbon Nanotechnology, Nanobiomaterials, Nano Robotics, Spectroscopy & plasmonic devices and Future prospects of Nanotechnologies and commercial viability and more and it will be a nice platform to share your recent researches on Nanotechnology, physics, Material Science and other interdisciplinary field and the applications of nanotechnology in other fields.

Bioleagues Worldwide is a not-for-profit professional association which prominently promotes research and development. We at Bioleagues have brought a revolution in the field of Worldwide Conferences. Bioleagues Worldwide conferences bring together the professional wizards and leaders who have explored all avenues to reinforce the field of Life Sciences and Medicine Technology. Bioleagues worldwide conduct events worldwide which help in enhancing the skill set of the people from diverse industries and also forms a common platform for eminent personalities, physicians, researchers, doctors, and academicians, professional's business figures and much more. Bioleagues conference encourages better comprehensions about improvements and progressions over the world through worldwide conferences with the speed of science and technology.

Our Motto

Create a better tomorrow by organizing conferences and creating a network which will help grow a better tomorrow with the help of advanced technology to achieve sustainable development.

Glimpse of Nanotek 2018

5TH GLOBAL NANOTEK SUMMIT

27TH-28TH NOV 2019 | KUALA LUMPUR

- Meet Academia and Industry visionaries to get inspired
- Highly Organized and Structured Scientific programs
- Meet with new vendors and suppliers
- Keynote, Oral, Poster presentations and world class exhibitions
- To expand your knowledge and find solutions to problems
- Forge connections and for global networking
- Knowledge, Benchmarking and Networking offered at one place

Publication

All the selected abstracts will be published in the Conference proceeding with ISBN number.

The full manuscripts will be published in the following Journals.

- International Journal of Engineering and Advanced Technology (IJEAT – SCOPUS Indexed)
- International Journal of Recent Technology and Engineering (IJRTE– SCOPUS Indexed)
- Journal of Engineering and Applied Sciences (MEDWELL)
- Journal of Computational and Theoretical Nanoscience

Nano Engineering

Advanced Nanomaterials- production, synthesis and processing | Nano-Electronic Devices and Micro/Nano systems | Computation, Simulation & Modeling of Nanostructures, Nano systems & devices | Bio-Nanomaterials and biomedical devices, applications| Nano photonics, Nano Imaging, Spectroscopy & plasmonic devices| Future prospects of Nanotechnologies and commercial viability | Microscopy and Spectroscopy at Nanoscale

Nanoscience and Technology

Nano Medicine| Green Nanotechnology| Materials Science and Engineering Physics | Nano Biotechnology | Pharmaceutical Nanotechnology | Carbon Nanotechnology | Nanophotonics | Nanobiomaterials | Nano Robotics | Nano Computational Modeling | Nanotechnology risk and safety assessment

Applications of Nanotechnology

Nanotech for Energy and Environment | Nanotechnology in Agriculture and Food Industry| Nanotechnology in Water Treatment | Nanotechnology in tissue engineering | Nanotechnology in space | Graphene and its Applications | Nano Toxicology| Recent development |Advanced researches in Nanotechnology

Nanotechnology Entrepreneurship| Strategic Alliances| Partnering Trends | Product Opportunities | Business Models and Strategies | Merger and Acquisitions | Licensing and Growth | Biotechnology investments and Biotechnology Grants

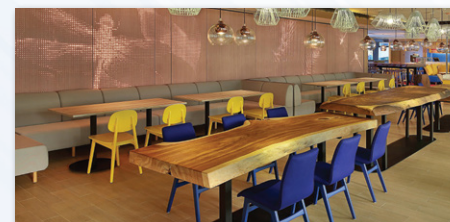

Kuala Lumpur is the capital of Malaysia. Its modern skyline is dominated by the 451m-tall Petronas Twin Towers, a pair of glass-and-steel-clad skyscrapers with Islamic motifs. The city is also home to British colonial-era landmarks such as the Kuala Lumpur Railway Station and the Sultan Abdul Samad Building. Developing modern world Malaysia is one of the richest nations in Asia. This multicultural society is filled with people from China, India, Melaka etc., Malaysia tourism excites with the list of top places to visit. Few are Petronas Twin Towers, Batu Caves, Langkawi Sky Cab, Museum of Illusions, Langkawi Sky Bridge, Pinang Peranakan Mansion, Genting Skyway, Baba & Nyonya Heritage Museum, George Town, Street Art in George Town, Jonker Street, The Habitat Penang Hill, Sunway Pyramid Shopping Mall, Sunway Lagoon, Melaka Straits Mosque, Kota Kinabalu City Mosque etc., Transports in Malaysia are possible through Road, Railway and Air. Luckily all modes of transports are affordable.
