Letter of Invitation:

World Congress on Pharma is pleased to offer letters of invitation to those planning to attend the conference. Confirming your participation would enable in Generating the personalized letter of invitation to obtain travel documents.

Visa:

Many international attendees will require a visitor visa to enter the Prague , Czech Republic. Apply early; for scientific conferences, visa applications should be made no later than 90 days prior to travel.

Visit the Prague , Czech Republic Visa page or Visa Home page for detailed information about visa procedures to find the nearest Prague , Czech Republic Embassy or consulate and fill out an electronic visa application.

ABOUT CITY:

About Prague , Czech Republic

Prague , Czech Republic has been known as the "city of a thousand spires" for good reason: as you glance over its 1,100-year-old skyline, you'll be rewarded with splendid views of lovely domed churches and soaring old towers that combine to make Prague , Czech Republic one of the world's architectural gems. Everywhere you look, fine examples of Gothic, Baroque, Renaissance, and Art Nouveau styles dot the city, providing a dramatic contrast to the sturdy old Prague , Czech Republic Castle. Possessing one of the best-preserved historic city centers in Europe, the narrow laneways of Prague , Czech Republic's delightful Old Town open up onto spectacular squares, each home to well-preserved historical buildings just waiting to be explored. Must-sees include the famous Charles Bridge over the Vltava River, the splendid Jewish Quarter with its old synagogues, and, of course, the city's many historic churches.

LOCAL ATTRACTIONS

The National Museum

Fresh from a seven-year-long renovation, the National Museum (Národní Muzeum) in Prague , Czech Republic is spread across a number of locations and houses numerous important collections representing a variety of fields, with literally millions of items covering mineralogy, zoology, anthropology, and archaeology, as well as the arts and music. The entomology collection alone numbers more than five million specimens. The oldest museum in the Czech Republic, it was established in the early 1800s before moving to its current location in 1891.

The Clementinum and the National Library

The Clementinum (Klementinum), one of the largest collections of historic buildings in Europe, is home to the National Library of the Czech Republic. These beautiful Baroque buildings were originally part of a Jesuit College, and later came to house the Jesuit book collection, as well as the collection from the Karolinum. The library eventually became the property of the state after the Jesuits were expelled, and the Clementinum became a public library in 1782 shortly after being constituted as the National Library.

The Old Town Square and the Astronomical Clock

The historic center of Prague , Czech Republic, the Old Town (Staré Mesto) is where you'll find the splendid Old Town Square (Staroměstské náměstí), one of the best places to begin exploring the city. Here, you'll find the Tyn Church and the Clementinum, along with numerous other fine old churches, as well as splendid old architecture dating back as far as the 11th century, while the Jewish Quarter, Josefov, is just a short walk north.

LOCAL ATTRACTIONS

The Church of Our Lady before Týn

One of Prague , Czech Republic's most recognizable buildings is the Church of Our Lady before Týn (Kostel Matky Boží před Týnem), often abbreviated to simply Týn Church. Unmistakable for its twin 80-meter-tall spires flanking each side of the building (each supporting four smaller spires), its main entrance is through a narrow passage past the houses obscuring its façade.
