# ABOUT CHEMISTRY 2020

Magnus Group cordially welcomes you to line up with the “**Chemistry World Conference**” which is happening during **June 15-17, 2020** in **Rome, Italy**. This meet will be focusing on the theme “*To innovate and integrate advances in Chemistry.*”

**Chemistry 2020** is one of the most important assemblies for providing a podium within the **chemists and chemical professionals**. This meeting is assured to exceed your vision about the new approaches and techniques involved in trending discoveries. It also provides you a high quality communication with the global experts representing both academia and industry; and will build collaborations among scientists. The conference scientific program deals with the major areas of specialized topics related to all aspects of chemistry.

The summit basically aims in expanding the possibilities and also focuses in accelerating the new advancements in the field of **Chemical World**.

**We look forward to seeing you in Rome!!**

## Learn new trends, strategies, tactics

Up-to-date research, current and emerging trends in Chemistry research, new technology and tools are exclusively discussed in the conference. Don't let old and out-dated information hold your back!

## Build your network

Get inspired by talking face-to-face with thought leaders, subject matter experts and peers. Tap into their knowledge; discover innovative services that can benefit your research work.

## Special registration rates

Register for just 639\$ for Oral and 539\$ for Poster to get full access to the conference. We're also pleased to announce a special offer of just 439\$ for students, fellows currently enrolled in postgraduate, Ph.D and training programs.

## Get smarter

Learn how other researches can play a role as a key accelerator in your work and gives you a competitive edge to achieve precision in desired outcomes. Learn better ways to innovate, collaborate, work and report.

## Gain global perspective

With attendees representing many countries, your ability to engage with global sustainability leaders and your opportunity to envision your work with global lens will be worthwhile.

## Q & A sessions

Every presenter will be provided with some time for Q & A session after their presentation, where you may get questions about a challenge in your workflow or you're looking for advice on implementing new techniques in your work. So, you will get few solutions and advices which may benefit you.

# TOP REASONS TO ATTEND

## New places; New people

Each time Chemistry 2020 will be held at a different place; new and different people will attend. This can enlarge building collaborations and help you in developing new relationships.

## New ideas

An idea is usually generated with intent, and also be created unintentionally. Ideas often form during brain storming sessions or through discussions.

## Get inspired

We all know your office chair is comfy, but your desk is no place to get inspired! It's time to break out of your comfort zone and gain some insights into what other researchers are doing. Take the opportunity to learn what worked well for them and how you can avoid future risk.

## Share your thoughts

Bring your expertise to the grassroots level and help the community through collaboration and networking. If you are interested to speak at the conference, please submit your content ideas and boost your professional status.

# SOME MOMENTS OF OTHER CONFERENCES

# TESTIMONIALS

**Joe E. Springer**  
University of Kentucky, USA

I had a wonderful time at the PDDS 2018 conference, and may have made some new friends/collaborators as well!

**Gerald H Tomkin**  
Beacon Hospital and Trinity College Dublin, Ireland

Many thanks. I certainly enjoyed the conference. Being in Rome is a special occasion and in wonderful weather. Again many thanks for the invitation.

**Mino R Caira**  
University of Cape Town, South Africa

With regard to PDDS 2018 held in Rome, I can certainly declare that the keynote lectures and oral presentations were generally of an excellent standard and although covering a wide range of topics, in my opinion, they were all relevant to the discipline of drug delivery

**Mahmoud Khodari**  
South Valley University, Egypt

It was very great conference.

**Tetyana Vdovenkova**  
T.V.A, Canada

Thank you very much for the conference. In my opinion, this conference was well organized.

**Pawel Brzuzan**  
University of Warmia and Mazury in Olsztyn, Poland

I really had a good time while in Rome. Thanks a lot.

# WHY ROME??

Rome is the capital of Italy and a special comune (named Comune di Roma Capitale). Rome also serves as the capital of the Lazio region. With 2,877,215 residents in 1,285 km<sup>2</sup> (496.1 sq mi), it is also the country's most populated comune. The city hosts the headquarters of many international business companies, its business district, called EUR, is the base of many companies involved in the pharmaceutical industry and financial services. It is the fourth-most populous city in the European Union by population within city limits. It is the center of the Metropolitan City of Rome, which has a population of 4.3 million residents. Rome is located in the central-western portion of the Italian Peninsula, within Lazio (Latium), along the shores of the Tiber. The Vatican City is an independent country inside the city boundaries of Rome, the only existing example of a country within a city: for this reason Rome has been often defined as capital of two states. Rome has the status of a global city. Rome ranked in 2016 as the 13th-most-visited city in the world, 3rd most visited in the European Union, and the most popular tourist attraction in Italy. Its historic centre is listed by UNESCO as a World Heritage Site. Monuments and museums such as the Vatican Museums and the Colosseum are among the world's most visited tourist destinations with both locations receiving millions of tourists a year.
