With increase in prevalence of ear, nose and throat disorders in geriatric people the demand of ENT devices expected to drive the ENT devices industry rapidly over the upcoming years. Expanding levels of healthcare awareness among patients and healthcare professionals expected to increase the growth of the market over the forecast period. Presence of sophisticated healthcare infrastructure in the communities, favourable government initiatives led to growth and demand for ENT devices across the under developed countries due to the extensive research and development targeted at developing technologically advanced products. Otorhinolaryngology is the branch of medicine deals with diagnosis, treatment and other problems related to ears, nose and throat, as well as the head and neck, mouth, sinuses, and larynx. Increasing use of some of the electric systems is partially caused by the growing attractiveness of access control systems which take less time for diagnosis, treatment and fewer damages during the time of surgery with minute pain.

About City and Venue

Edinburgh is Scotland's compact, hilly capital. It has a medieval Old Town and elegant Georgian New Town with gardens and neoclassical buildings. Looming over the city is Edinburgh Castle, home to Scotland's crown jewels and the Stone of Destiny, used in the coronation of Scottish rulers. Arthur's Seat is an imposing peak in Holyrood Park with sweeping views, and Calton Hill is topped with monuments and memorials.

The Cancer Research UK Edinburgh Centre brings together cancer scientists and clinicians from across the University of Edinburgh, delivering outstanding cancer research and improved patient care. The University of Edinburgh, founded in 1582 and now one of four in the city, is placed 18th in the QS World University Rankings for 2019. The city is also famous for the Edinburgh International Festival and the Fringe, the latter being the world's largest annual international arts festival
