## *About City*

Rome is the capital city of Italy and it also serves as the capital of Lazio region. The culture, architecture and the historical places of Rome makes it a global influential city. Science and technology in Italy has a long presence, from the Roman era which made us think of Rome, Italy as the conference venue. Italy has advanced the scientific research by their inventions and discoveries in life sciences and technology. Apart from being an advanced city Rome has many historical and ancient places to visit such as Colosseum, Roman Forum, Pantheon, Catacombs and the Museums of the Vatican City.

Average Temperatures: 51° F - 80° F
