Pearls, Pitfalls & Protocols: Spring Imaging Update is organized by Penn Radiology CME and will be held from Mar 23 - 27, 2020 at Disney's Grand Floridian Resort & Spa, Lake Buena Vista, Florida, United States of America.

Target Audience:

This course is designed for radiologists in clinical practice or in training.

Overview:

This program will focus on *practical imaging issues* to improve image interpretation across a wide range of common and uncommon clinical scenarios. Novel and cutting-edge imaging '*protocols*' will be discussed highlighting potential '*pitfalls*.' Selected topics in **neuroradiology, abdominal, breast, thoracic, musculoskeletal and pediatric radiology** will be covered. There will be daily case conferences emphasizing '*misses and misinterpretations*' with an opportunity to earn **20 SAM credits** (80% of the ABR requirement for three years).

Learning Objectives:

- Apply the current advances in radiology for accurate image interpretation of adult and pediatric diseases of the brain, neck, chest, abdomen, and joints
- Design and implement appropriate imaging protocols that optimize diagnostic accuracy and minimize radiation exposure, particularly in the pediatric population
- Learn about the role of "supplemental breast screening" in women with dense breast tissue, utilizing "abbreviated breast MRI"
- Identify high yield diagnoses throughout multiple specialties of radiology
- Review common imaging artifacts, anatomic variants, and critical diagnoses and make appropriate management recommendations
