**INNOVATIONS IN  
CANCER BIOLOGY  
TO SAY GOODBYE  
CANCER**

WCCBI 2020 extends its heartfelt welcome to participants across the world to attend “4th World Congress on Cancer Biology and Immunology”, scheduled during April 23-24, 2020 at Barcelona Spain. This International meet will consolidate Keynote Sessions, Oral Sessions, Poster Sessions, Young Research Forum, Symposia, Exhibitors, Panel Discussions and Networking Sessions. In addition, WCCBI is a complete 2-day international event with Oncologists, Radiologists, Immunologists and Industry experts’ talks with panel discussions, open Q & A to generate a prime learning knowledge between the participants.

The theme of the conference is ‘Innovations in Cancer Biology to say Goodbye Cancer’.

## Need:

Cancer research has moved with the times, embracing new technologies enabling scientists to pursue more varied research goals than ever. Cancer researchers can find themselves in various settings linked to either academia or industry, working in many areas, from tackling basic questions in the laboratory to testing new drugs and vaccines in the clinic. Many young scientists at the basic research end of the spectrum will admit that they were initially attracted more by the desire to investigate fundamental questions in biology than to work specifically on cancer. But they often then realize the importance and applicability of their work to understanding the underlying biological processes leading to cancer. From such understanding, new treatments can arise.

## Vision:

The main Vision of WCCBI 2020 is gathering professionals from Oncologists, Radiologists, Immunologists and others to share their recent research experiences on all the aspects of this rapidly expanding stream and thereby, providing a showcase of the latest technology researches and trends for proving better cancer therapy to the world.

## AWARENESS

- We raise cancer awareness among the public and support people to access their local services.
- Researchers also participate and launch a public health campaign by sharing in social media, distributing posters, leaflets and text messages increase knowledge to understand severity about the Cancer.

## CONTROL

- A Manual with detailed information on the fundamental principles of communicable cancer control in emergencies will guide public and health care professionals to control critical situations.
- Oncologists and Radiologists experts need to share knowledge and thoughts to government bodies to control emerging cancer.

## PREVENTION

- Few cancers, there is no treatment, cure or vaccine so health care institutions and doctors need to determine the stage of the cancer and guide patient by giving proper health diet and confidence.

A man in a dark suit and light blue shirt is standing on the left, gesturing with his hands as if presenting. He is facing right. In the background, several people are seated at a round table, listening attentively. The setting appears to be a professional conference or meeting. The text is overlaid on the image in a mix of white and red colors.

**PROFESSIONALS AT**  
WCCBI  
ARE THERE TO FOCUS  
ON **LATEST RESEARCH**

## Networking:

WCCBI 2020 will be providing an opportunity to network with unique and International mix of experts, researchers and decision makers both from Industry and Academia across the globe to exchange their knowledge, experience and research innovations. We believe that networking plays the key role when participants are coming from hundreds of miles and taking out time from their busy schedule to meet with the Eminent people from all around the world.

## Leadership & Development

As new cancers are emerging year by year, health care and drug discovery industries are looking for researchers who are having good leadership and development skills. WCCBI 2019 planned a program to empower students, researchers, medical practitioners, health care professionals and the associations' people to be in positions to guide & mentorship around the issues of communicable cancers. We provide guest lectures and workshops to help our participants develop necessary skills to deal with issues in an efficient manner.

## Research & Academic Programs:

WCCBI 2019 program has specially designed for Academicians and Young researchers to get recognition from Top Professors, Global Experts and Health Care professionals, by presenting their research work. WCCBI 2019 aims to advance the life science through the knowledge and by providing participants with quality research talks, and platform to discuss the most recent innovations, trends, and concerns as well as practical challenges encountered and solutions adopted in the fields of communicable cancers.

## Industry & Business Experiences

We welcome Oncologists, Radiologists, societies, government bodies and health care experts to share research focus, industry requirements, expectations and challenges in both research and business.

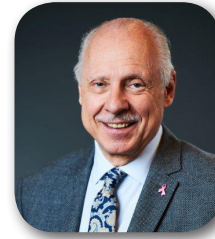

## ORGANIZING COMMITTEE MEMBERS

Peiyang Yang  
University of Texas  
USA

Gertraud Orend  
INSERM  
Universite de Strasbourg  
France

Stefan Gluck  
Celgene Corporation  
USA

Alex Garcia Faura

## Topics:

- Cancer Biology
- Immunology
- Organ Specific Cancers
- Oncology Sub Specialities
- Cancer Prevention and Research
- Cancer Therapy and Treatments
- Cancer and Stem Cell Therapy
- Cancer Biomarkers
- Cancer Epidemiology
- Cancer Pharmacology
- Immuno Oncology studies
- Cancer Immunology and Immunotherapy
- Immunoresearch and Immunotechnology
- Vaccines and Immunotherapy
- Antibody Therapy of Cancer
- Combining Cancer Immunotherapies
- Novel Approaches in Cancer and Tumor
- Pediatric Cancer Care
- Neuro Cancer And Brain Tumor
- Tumor Cells
- Cancer Biology & Therapy
- Immuno Therapy
- Radio Therapy
- Cancer Imaging
- Digital Pathology
- Cancer Nursing

## Who Can Attend

Oncologists, Radiologists, Pathologists, Hematologists, Academicians, Students, Cancer/ Oncology Associations & Societies, Data Management Companies, Business Entrepreneurs, Medical Devices Companies, Biomedical Companies, Biotechnology Companies, Researcher Scholars, Training Institutes, Pharmaceutical Companies, Orphan Drugs Companies, Virology Faculties, Medical Colleges, Researches Laboratories, Non-Government Organisations, Dean and Directors, Graduates and Undergraduates, Pharmaceutical Industries, Healthcare Sectors, Directors of Association and Society, Experts and Delegates, Doctors, Research Institutes, Industrial Business Entrepreneurs.

## Conference Registration & Fees

All participants should register for the conference by completing the Registration Form which is given separately with the brochure and is also available on the conference website

Fees are payable in advance. The payment can be made by Online Bank or Wire transfer

<i>Registration Categories</i>			
	<b>On/Before Oct 31, 2019</b>	<b>On/Before Jan 31, 2020</b>	<b>Final Call April 24, 2020</b>
<b>Speaker</b>	<b>\$699</b>	<b>\$749</b>	<b>\$799</b>
<b>Delegate</b>	<b>\$749</b>	<b>\$799</b>	<b>\$849</b>
<b>Student</b>	<b>\$349</b>	<b>\$399</b>	<b>\$449</b>
<b>Accompanying Person</b>	<b>\$299</b>	<b>\$349</b>	<b>\$399</b>
<b>Video Presentation</b>	<b>\$349</b>	<b>\$399</b>	<b>\$449</b>
<b>E-Poster</b>	<b>\$149</b>	<b>\$199</b>	<b>\$299</b>
