

THE BIGGEST AMALGAMATION OF CIOS, IT HEADS AND IT MANAGERS IN PAKISTAN

Pakistan CIO Summit and Expo has built an unmatched reputation as the only platform in the country where top CIOs, IT Heads and IT professionals meet to learn, share and network alongside a display of state of the art IT solutions. The must-attend event would be a one stop shop for setting the direction of technology adoption by top IT decision makers in 2019.

THEME: EXPLORING NEXT GENERATION TECHNOLOGIES

Last few years have seen many new technologies surfacing and challenging the way we work. Machine Learning, AI, 5G, Block Chain and Quantum Computing are just around the corner to be explored and they are bound to impact our technology ecosystem. CIOs are preparing to reshape their organizations to embrace this new era of multiple innovations and automations for optimizing investment, efficiencies and better satisfying customer demands. Also, among the confluence of technology and business, the CIOs need to counter the ever increasing risk of data and information security.

Join us at Pakistan CIO Summit 2020 to hear the views of the leaders in the industry who are at the forefront of these challenges. The one day summit will consist of two sessions as follow:

- Session 1: *Embracing Next Generation Technologies*
- Session 2: *Countering Security Risks in the New Paradigm*
