## About Rome

Rome (Italian: Roma), the Eternal City, is the capital and largest city of Italy and of the Lazio region. It is famous for being the home of the ancient Roman Empire, the Seven Hills, La Dolce Vita (the sweet life), the Vatican City and Three Coins in the Fountain. Rome, as a millennia-long centre of power, culture (having been the cradle of one of the globe's greatest civilisations ever) and religion, has exerted a huge influence over the world in its roughly 2800 years of existence.

Rome is located in the central portion of the Italian peninsula, on the Tiber River about 15 miles (24 km) inland from the Tyrrhenian Sea. Once the capital of an ancient republic and empire whose armies and polity defined the Western world in antiquity and left seemingly indelible imprints thereafter, the spiritual and physical seat of the Roman Catholic Church, and the site of major pinnacles of artistic and intellectual achievement, Rome is the Eternal City, remaining today a political capital, a religious centre, and a memorial to the creative imagination of the past.

The historic centre of the city is a UNESCO World Heritage Site. With wonderful palaces, thousand-year-old churches, grand Romantic ruins, opulent monuments, ornate statues and graceful fountains, Rome has an immensely rich historical heritage and cosmopolitan atmosphere, making it one of Europe's and the world's most visited, famous, influential and beautiful capitals. Today, Rome has a growing nightlife scene and is also seen as a shopping heaven, being regarded as one of the fashion capitals of the world (some of Italy's oldest jewellery and clothing establishments were founded in the city).

With so many sights and things to do, Rome can truly be classified a "Global City".
