WHY FRANCE ?

France, in Western Europe, encompasses medieval cities, alpine villages and Mediterranean beaches. Paris, its capital, is famed for its fashion houses, classical art museums including the Louvre and monuments like the Eiffel Tower. The country is also renowned for its wines and sophisticated cuisine. Lascaux's ancient cave drawings, Lyon's Roman Theater and the vast Palace of Versailles attest to its rich history. Tourism in France directly contributed 77.7 billion euros to gross domestic product, 30% of which comes from international visitors and 70% from domestic tourism spending. The total contribution of travel and tourism represents 9.7% of GDP and supports 2.9 million jobs (10.9% of employment) in the country. Tourism contributes significantly to the balance of payments. France was visited by 85.7 million foreign tourists in 2013, making it the most popular tourist destination in the world. France ranks fifth in tourist spending behind the United Kingdom, United States, China and Spain. France has 37 sites inscribed in the UNESCO's World Heritage List and features cities or sites of high cultural interest (Paris being the foremost, but also Loire Valley, Toulouse, Strasbourg, Bordeaux, Lyon, and others), beaches and seaside resorts, ski resorts, and rural regions that many enjoy for their beauty and tranquillity (green tourism). Small and picturesque French villages of quality heritage (such as Collonges-la-Rouge, Locronan, or Montsoreau) are promoted through the association Les Plus Beaux Villages de France (literally "The Most Beautiful Villages of France"). The "Remarkable Gardens" label is a list of the over two hundred gardens classified by the French Ministry of Culture. This label is intended to protect and promote remarkable gardens and parks.
