2020 | 2nd
ICNSER

International Conference on Industrial Control Network and System Engineering Research

May 22-23 2020   Malaysia

Call for Papers

The 2nd International Conference on Industrial Control Network and System Engineering Research (ICNSER2020) will be held on **May 22-23, 2020** in **Kuala Lumpur, Malaysia**. The conference will provide opportunities to discuss both the industrial control network and system engineering research. ICNSER invites research papers that encompass conceptual analysis, design implementation and performance evaluation.

The proceeding of ICNSER2019 has been published on ACM (ISBN: 978-1-4503-6627-4) successfully. We believe that ICNSER2020 will definitely offer a more professional and more meaningful chance for the experts and scholars from all over the word. On behalf of the organizing committee, we sincerely invite you to participate in ICNSER2020 as authors, speakers and listeners, and we look forward to meeting you all in Malaysia!

Topics (not limited to)

Telecommunications Systems and Networks
IoT system and network architecture
D2D/M2M communications for supporting IoT
All aspects for 5G networks
Wireless multimedia networks
Software Defined Networks
Hardware and software design and development
Health monitoring – wearable devices
Analogue/Digital system design and structures

System Engineering
Embedded Control Systems
Adaptive Control Techniques
Object-Oriented Petri Nets
Large Scale Control Systems
Intelligent Control Systems
Stochastic Control
Aerospace Control Systems
Defense and Military Systems Control

Important Date

Paper submission: April 6, 2020
Notification: April 13, 2020
Camera-ready: April 30, 2020
Conference: May 22-23,2020

Publication

ICPS
Published by ACM

Accepted papers will be included into Conference Proceedings which be published in the International Conference Proceedings Series by **ACM**, which will be archived in the ACM Digital Library, and then submitted to major database Ei-Compendex, Scopus and so on...
